

Tracking and meeting commitments on realizing synergies following \$8b asset acquisition

Background

Leading diversified international building materials group

90,000 employees across 4000 operating locations in 37 countries

Challenge

\$8.5b asset acquisition from Lafarge S.A. and Holcim Ltd commits CRH to realize significant synergies from the acquisition

CRH needed a system to manage synergy initiatives and achieve full visibility into future savings, ensuring: focus, accountability and confidence in the forecast of expected savings

Solution

i-nexus for Continuous Improvement Initial Deployment package

Product deployment consulting services

Product training services

Product configuration services

Benefits

Robust governance system aligns, tracks and provides full visibility on the integration initiatives

Increased confidence in synergy benefit projections

25% increase in commitments realized on-time

Increased effectiveness in reporting realized benefits

“i-nexus helped us to get a firm grasp on the control and visibility of our synergy initiatives and savings. We now have far better governance in place to manage our current acquisition and the future ones.”

Fillip Beyers, IMO Lead
