

Integrated strategic goal deployment within a mature Hoshin Company

Major US aerospace & defense company

Background

Major US aerospace and defense company

Starting to scale Hoshin into an enterprise capability shared by corporate and business units

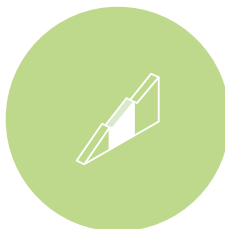

Challenge

Spreadsheets were increasingly hard to share, read and understand

Ensuring traceability of business unit initiatives to corporate goals was difficult

Summarizing status at the corporate level was challenging

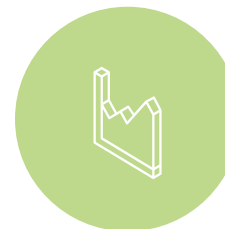

Solution

i-nexus for Hoshin Kanri Sustain & Scale Package

Product deployment consulting and training services

Product configuration services

Benefits

Effective way to cascade corporate goals into business units drives alignment

Set of consolidated business unit metrics feed into a single corporate-wide performance view

Driving reviews with automated reports helps guarantee data completeness and accuracy

Goals	9	0	0	
KPIs	2	8	0	0
Users	4	0	0	
Sites	8	0		

“I’ve done several other large implementations with other consultants and by far this was the most seamless transition I’ve been a part of. You were excellent to work with, and your responsiveness is something others should hope to one day achieve.”

Continuous Improvement Team Lead
