ADVENTURES WITH ROSIE & GIBBS the lost penguins

ADVENTURE 1: THE JOURNEY TO THE SOUTH POLE

MARCH 2018
Meet Rosie.

Rosie is a curious and adventurous penguin that lives in Antarctica. She loves to explore and write down everything she finds in her special green notebook.

She tends to wander a bit far from home... way too far!

Whoa! What's that over there?

I've never seen a gentoo penguin around here. Where is she going?

The penguins here are so tall... it's crazy!

For such a small penguin, she sure is speedy.

Oh, I don't think there is much of anything this way...

Who knows! Let's find out!

The mountains got smaller and the coastline disappeared. There were no other penguins in sight.

Gibbs decided to follow Rosie to see what she was up to.

We make a pretty good team!

Yeah, look how deep this goes! It sure would be fun to investigate...

Don't even think about it, Rosie...

Oh, alright.

The Antarctic Toothfish

Penguin Waddle

Emperor Penguin

Crevasse

Antarctic Toothfish
Days passed without any sign of fish. They had no clue where they were, and they needed to move fast... Man, I'm getting really hungry...

It looks like the remains of an Antarctic expedition.

What could that be?!

Ah, I see cans of fish!

Turn salmon! Cod! We'll have a feast!

I like how she gets excited about everything.

I have an idea!

Tun! Ropes, crates, bottles... wait, wait! It's not junk, it's... it's...

Are we going to put this rope around this box and...

Ah! This pole here!

Better than fish? Never thought I'd hear you say that...

I didn't know this place even existed.

Yes, we're the world's fastest penguins!!!

I bet we're the world's fastest penguins!!!

That's what I call an engineer!

Brilliant! This is even better than fish!!

Ta-dah! All aboard!

Wheeeeee!!!

Aren't we going to put this rope around this box and...

All we can put this rope around this box and...

IT'S A STRANGE BLUE BOX OFF IN THE DISTANCE, WONDERING WHAT IT COULD POSSIBLY BE...

WITH GIBBS STEERING IN THE BACK AND ROSIE NAVIGATING IN THE FRONT, THEY DARTED ACROSS THE WHITE EMPTY SNOWSCAPE.

Slow down! Do you see that over there?!

What's a strange blue box doing here?

Whoa! A penguin with a hat and sunglasses!

Sweeeet! Let's go check it out!

COUNT ME IN! TO THE STRANGE BLUE BOX WE GO!
Rosie's Discoveries

Antarctic toothfish:
A species of cod icefish that swims in extremely cold water. They can grow up to the size of a small human and they are very delicious.

Emperor penguin:
The tallest penguin! They are known for their bright yellow and orange markings near their face. Male emperors will sit on their eggs in the freezing cold for two whole months. That's so neat!

Gentoo penguin:
That's me! We love to eat krill and fish. We are lighter in color when we are younger. I thought by now I would already have the cool white marks that older penguins have by their eyes, but I guess I will have to wait longer.

Penguin waddle or colony:
A group of penguins on land is called a waddle. In the water it is a raft of penguins. Other words include a rookery, a huddle, and a colony.

Crevasse:
A large crack that forms from stress in the ice. Crevasses can be really deep and are sometimes hidden under the snow.

Antarctic expeditions:
In 1911, two expeditions were racing to be the first people to the South Pole. One was led by Roald Amundsen and the other by Robert Falcon Scott. Roald beat Robert by only a few weeks. I wonder if we are the first penguins to be in this part of Antarctica.

Strange blue box: ???
