## 1. ORGANIZATIONAL INFORMATION

InterRent Real Estate Investment Trust (the “Trust” or the "REIT") is an unincorporated, open-ended real estate investment trust created pursuant to a Declaration of Trust, dated October 10, 2006, and most recently amended and restated on December 29, 2010, under the laws of the Province of Ontario.

The Trust was created to invest in income producing residential properties within Canada. InterRent REIT Trust Units are listed on the Toronto Stock Exchange under the symbol IIP.UN. The registered office of the Trust and its head office operations are located at 485 Bank Street, Suite 207, Ottawa, Ontario, K2P 1Z2.

These condensed consolidated interim financial statements for the period ended March 31, 2019 were authorized for issuance by the Trustees of the Trust on April 29, 2019.

## 2. BASIS OF PRESENTATION

### Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34, “Interim Financial Reporting” as issued by the International Accounting Standards Board (“IASB”). Accordingly, certain information and footnote disclosure normally included in the annual financial statements prepared in accordance with International Financial Reporting Standards (“IFRS”), as issued by the IASB, have been omitted or condensed.

The financial statements have been presented in Canadian dollars, which is the Trust’s functional currency, rounded to the nearest thousand unless otherwise indicated.

These condensed consolidated interim financial statements should be read in conjunction with the Trust’s annual consolidated financial statements for the year ended December 31, 2018.

### Basis of presentation

The Trust presents its consolidated balance sheets based on the liquidity method, whereby all assets and liabilities are presented in increasing order of liquidity.

These condensed consolidated interim financial statements have been prepared on a historical cost basis except for:

i) Investment properties, which are measured at fair value;
ii) Financial assets and financial liabilities classified as “fair value through profit and loss”, which are measured at fair value; and
iii) Unit-based compensation liabilities and Class B LP unit liability which are measured at fair value.

### Significant accounting policies

The condensed consolidated interim financial statements have been prepared using the same accounting policies and methods as those used in the consolidated financial statements for the year ended December 31, 2018.

## 2. BASIS OF PRESENTATION (Continued)

### Basis of consolidation

The condensed consolidated interim financial statements include the accounts of the Trust and its wholly-owned subsidiaries. All intercompany balances and transactions have been eliminated upon consolidation. Subsidiaries are entities over which the Trust has control and are consolidated from the date control commences until control ceases. Control is achieved when the Trust has power over the investee; is exposed, or has rights, to variable returns from its involvement with the investee; and has the ability to use its power to affect its returns.

### Critical accounting estimates and judgments in applying accounting policies

The preparation of financial statements in accordance with IAS 34 requires the use of certain critical accounting estimates. It also requires management to exercise judgment when applying the Trust's accounting policies. The critical accounting estimates and judgments have been set out in notes 2 and 3 to the Trust's consolidated financial statements for the year ended December 31, 2018.

## 3. INVESTMENT PROPERTIES

Investment properties include income properties, redevelopment properties, development properties and land held for development.

| Property capital investments | **1,157** | 637 |
| | **$ 56,334** | $ 55,177 |

The fair value of the income properties is determined internally by the Trust. The fair value methodology of the Trust's investment properties is considered a level 3 as significant unobservable inputs are required to determine fair value. The Trust determined the fair value of each income property internally based upon the direct capitalization income approach method of valuation. The fair value was determined by applying a capitalization rate to an estimated annual net operating income ("NOI"), which incorporates allowances for vacancy, property management, labour and repairs and maintenance for the property. In order to substantiate management's valuation, market evidence from third party appraisers is incorporated on a continual basis. The information obtained from the appraisers provided the Trust with a summary of major assumptions and market data by city in order for the Trust to complete its internal valuations.

## 3. INVESTMENT PROPERTIES (Continued)

The capitalization rate assumptions for the income properties are included in the following table:

| | March 31, 2019 | | December 31, 2018 | |
|---|---|---|---|---|
| | **Range** | **Weighted average** | **Range** | **Weighted average** |
| **Capitalization rate** | 3.50% - 6.00% | 4.33% | 3.50% - 6.75% | 4.38% |

The direct capitalization income approach method of valuation requires that an estimated annual net operating income ("NOI") be divided by a capitalization rate ("Cap Rate") to determine a fair value. As such, changes in both NOI and Cap Rates could significantly alter the fair value of the investment properties. The tables below summarize the impact of changes in both NOI and Cap Rates on the Trust's fair value of the income properties:

## 11. CLASS B LP UNIT LIABILITY

The Class B LP units are non-transferable, except under certain circumstances, but are exchangeable, on a one-for-one basis, into Trust Units at any time at the option of the holder. Prior to such exchange, distributions will be made on the exchangeable units in an amount equivalent to the distributions which would have been made had the units of Trust been issued.

The Class B LP units are exchangeable on demand for Trust Units, which in turn are redeemable into cash at the option of the holder. As such, Class B LP units are classified as a financial liability.

A summary of Class B LP Unit activity is presented below:

| **Number of Units** | |
|---|---|
| **Balance – December 31, 2017** | **186,250** |
| Units issued | 3,224,516 |
| **Balance - December 31, 2018** | **3,410,766** |
| Units issued | - |
| **Balance – March 31, 2018** | **3,410,766** |

The Class B LP Units represented an aggregate fair value of $49,593 at March 31, 2019 (December 31, 2018 - $44,511). The fair value represents the closing price of the Trust Units on the TSX on the reporting date, or the first trading date after the reporting date. Each Class B LP Unit is accompanied by a Special Voting Unit, which entitles the holder to receive notice of, attend and vote at all meetings of Unitholders. There is no value assigned to the Special Voting Units. The gains or losses that resulted from changes in the fair value were recorded in the consolidated statement of income.

On February 15, 2018, 3,224,516 Class B LP units were issued at a value of $ 30,364 as partial consideration for the internalization of the property manager function (note 20).

## 12. UNIT-BASED COMPENSATION LIABILITIES

Unit-based compensation liabilities are comprised of awards issued under the deferred unit plan (“DUP”) and the unit option plan as follows:

| | **March 31, 2019** | December 31, 2018 |
|---|---|---|
| Unit-based liabilities, beginning of period | **$ 48,392** | $ 27,017 |

## 12. UNIT-BASED COMPENSATION LIABILITIES (Continued)

Unit options and deferred units are settled with the issuance of Trust Units. However, due to the fact that Trust Units are redeemable, awards of unit options and deferred units are considered to be cash-settled. As such, the fair value of unit options and deferred units are recognized as a financial liability and re-measured at each reporting date, with changes recognized in the statement of income.

The maximum number of Trust Units issuable under the Trust's equity incentive compensation plans, which includes the DUP and unit options, as well as the long-term incentive plan (note 12) is 10% of the issued and outstanding Trust Units.

### (i) DEFERRED UNIT PLAN

The deferred unit plan entitles trustees, officers and employees, at the participant's option, to elect to receive deferred units (elected portion) in consideration for trustee fees or bonus compensation under the employee incentive plan, as the case may be. The Trust matches the elected portion of the deferred units received. The matched portion of the deferred units vest 50% on the third anniversary and 25% on each of the fourth and fifth anniversaries, subject to provisions for earlier vesting in certain events. The deferred units earn additional deferred units for the distributions that would otherwise have been paid on the deferred units (i.e. had they instead been issued as Trust Units on the date of grant).

A summary of Deferred Unit activity is presented below:

| **Number of Units** | |
|---|---|
| **Balance - December 31, 2017** | **2,888,623** |
| Units issued under deferred unit plan | 1,247,608 |
| Reinvested distributions on deferred units | 96,955 |
| Deferred units exercised into Trust Units | (148,794) |
| Deferred units purchased and cancelled | (118,396) |
| Deferred units cancelled | (23,085) |
| **Balance - December 31, 2018** | **3,942,911** |
| Units issued under deferred unit plan | 329,743 |
| Reinvested distributions on deferred units | 21,977 |
| Deferred units exercised into Trust Units (note 14) | (73,705) |
| Deferred units purchased and cancelled | (73,137) |
| Deferred units cancelled | (3,347) |
| **Balance – March 31, 2019** | **4,144,442** |

The fair value of each unit granted is determined based on the weighted average observable closing market price of the REIT's Trust Units for the ten trading days preceding the date of grant.

The aggregate fair value of vested deferred units was $51,493 at March 31, 2019 (December 31, 2018 - $42,594). The fair value of the vested deferred units represents the closing price of the Trust Units on the TSX on the reporting date, or the first trading date after the reporting date, representing the fair value of the redemption price.

On February 15, 2018, 663,277 deferred units were issued as retention bonuses and included in the consideration for the internalization of the property manager function (note 20).

## 12. UNIT-BASED COMPENSATION LIABILITIES (Continued)

### (ii) UNIT OPTIONS

The Trust has a unit option plan and provides for options to be granted to the benefit of employees, Trustees and certain other third parties. The exercise price of options granted under the unit option plan will be determined by the Trustees, but will be at least equal to the volume weighted average trading price of the Trust Units for the five trading days immediately prior to the date the option was granted. The term of any option granted shall not exceed 10 years or such other maximum permitted time period under applicable regulations. At the time of granting options, the Board of Trustees determines the time, or times, when an option or part of an option shall be exercisable. The Trust will not provide financial assistance to any optionee in connection with the exercise of options.

Options granted, exercised and expired during the three months ended March 31 are as follows:

| | 2019 | | 2018 | |
|---|---|---|---|---|
| | **Number of units** | **Weighted average exercise price** | **Number of units** | **Weighted average exercise price** |
| Balance, beginning of period | 1,006,585 | $ 6.11 | 1,345,850 | $ 5.96 |
| Exercised | (66,940) | $ 5.81 | (157,365) | $ 5.02 |
| Expired | - | - | (10,000) | $ 7.67 |
| **Balance, end of period** | **939,645** | **$ 6.13** | **1,178,485** | **$ 6.07** |

Options outstanding at March 31, 2019:

| Exercise price | Number of units | Remaining life in years | Number of units exercisable |
|---|---|---|---|
| $ 2.13 | 55,000 | 2.23 | 55,000 |
| $ 5.50 | 60,000 | 3.44 | 60,000 |
| $ 5.65 | 274,720 | 4.21 | 274,720 |
| $ 5.81 | 246,175 | 5.72 | 246,175 |
| $ 7.67 | 303,750 | 8.33 | 146,250 |
| | **939,645** | | **782,145** |

Total compensation expense for the three months was $22 (2018 - $66). Compensation cost was determined based on an estimate of the fair value using the Black-Scholes option pricing model at date of grant using the following weighted average assumptions for the 2017 grant: market price of unit $7.86, expected option life 6 years, risk-free interest rate 1.67%, expected volatility, based on historical, 25% and expected distribution yield 5.0%.

The weighted average market price of options exercised in the three months ended March 31, 2019 was $13.64.

## 12. UNIT-BASED COMPENSATION LIABILITIES (Continued)

The unit options represented an aggregate fair value of $6,645 at March 31, 2019 (December 31, 2018 - $5,798). The fair value of unit options is re-valued at each reporting period based on an estimate of the fair value using the Black-Scholes option pricing model using the following weighted average valuation assumptions:

| | March 31, 2019 | December 31, 2018 |
|---|---|---|
| Market price of Unit | $ 14.54 | $ 13.05 |
| Expected option life | 2.2 years | 2.3 years |
| Risk-free interest rate | 1.49% | 1.88% |
| Expected volatility (based on historical) | 17% | 17% |
| Expected distribution yield | 5.0% | 5.0% |

## 13. LONG-TERM INCENTIVE PLAN

The Board of Trustees may award long-term incentive plan (“LTIP”) units to certain officers and key employees, collectively the "Participants". The maximum number of Trust Units issuable under the Trust’s equity incentive compensation plans, which includes the long-term incentive plan, as well as the DUP and unit option plan (note 12) is 10% of the issued and outstanding Trust Units. The Participants can subscribe for Trust Units at a purchase price equal to the weighted average trading price of the Trust Units for the five trading days prior to issuance. The purchase price is payable in instalments, with an initial instalment of 5% paid when the Trust Units are issued. The balance represented by a loan receivable (note 7) is due over a term not exceeding ten years. Participants are required to pay interest at a ten-year fixed rate based on the Trust's fixed borrowing rate for long-term mortgage financing and are required to apply cash distributions received on these units toward the payment of interest and the remaining instalments. Participants may pre-pay any remaining instalments at their discretion. The Trust has recourse on the loans receivable and has reasonable assurance that the Trust will collect the full amount of the loan receivable. The loans receivable are secured by the units as well as the distributions on the units. If a Participant fails to pay interest and/or principal, the Trust can enforce repayment which may include the election to reacquire or sell the units in satisfaction of the outstanding amounts.

| Date of award | Number of units | Interest rate | Loan receivable |
|---|---|---|---|
| March 8, 2012 | 250,000 | 3.57% | 785 |
| June 29, 2012 | 50,000 | 3.35% | 170 |

On August 9, 2018 the Trust completed a bought deal prospectus whereby it issued 10,798,500 Trust Units for cash proceeds of $115,004 and incurred $5,032 in issue cost.

On March 28, 2018 the Trust completed a bought deal prospectus whereby it issued 10,005,000 Trust Units for cash proceeds of $97,849 and incurred $4,326 in issue cost.

## 14. TRUST UNITS (Continued)

### Declaration of Trust

The Declaration of Trust authorizes the Trust to issue an unlimited number of units for consideration and on terms and conditions established by the Trustees without the approval of any unitholders. The interests in the Trust are represented by two classes of units: a class described and designated as “Trust Units” and a class described and designated as “Special Voting Units”. The beneficial interests of the two classes of units are as follows:

### (a) Trust Units

Trust Units represent an undivided beneficial interest in the Trust and in distributions made by the Trust. The Trust Units are freely transferable, subject to applicable securities regulatory requirements. Each Trust Unit entitles the holder to one vote at all meetings of unitholders. Except as set out under the redemption rights below, the Trust Units have no conversion, retraction, redemption or pre-emptive rights.

Trust Units are redeemable at any time, in whole or in part, on demand by the holders. Upon receipt by the Trust of a written redemption notice and other documents that may be required, all rights to and under the Trust Units tendered for redemption shall be surrendered and the holder shall be entitled to receive a price per Trust Unit equal to the lesser of:

i) 90% of the “market price” of the Trust Units on the principal market on which the Trust Units are quoted for trading during the twenty-day period ending on the trading day prior to the day on which the Trust Units were surrendered to Trust for redemption; and

ii) 100% of the “closing market price” of the Trust Units on the principal market on which the Trust Units are quoted for trading on the redemption notice date.

### (b) Special Voting Units

The Declaration of Trust provides for the issuance of an unlimited number of Special Voting Units that will be used to provide voting rights to holders of Class B LP units or other securities that are, directly or indirectly, exchangeable for Trust Units.

Each Special Voting Unit entitles the holder to the number of votes at any meeting of unitholders, which is equal to the number of Trust Units that may be obtained upon surrender of the Class B LP unit to which the Special Voting Unit relates. The Special Voting Units do not entitle or give any rights to the holders to receive distributions or any amount upon liquidation, dissolution or winding-up of Trust. There is no value assigned to the Special Voting Units.

## 20. RELATED PARTY TRANSACTIONS

The transactions with related parties are incurred in the normal course of business. Related party transactions have been listed below.

### (i) Accounts Payable (net of amounts receivable)

As at March 31, 2019, $nil (December 31, 2018 - $nil) was included in accounts payable and accrued liabilities, net of amounts receivable, which are due to companies that are controlled by an officer of the Trust. The amounts were non-interest bearing and due on demand.

### (ii) Services

There were no related party transactions during the three months ended March 31, 2019.

During the three months ended March 31, 2018, the Trust incurred $1,014 in property, asset and project management services and shared legal services from companies controlled by an officer of the Trust. Of the services received approximately $207 had been capitalized to the investment properties and the remaining amounts were included in operating and administrative costs.

### (iii) Property Management Internalization

On February 15, 2018, the REIT entered into an agreement with CLV Group Inc. (the "Property Manager") to internalize the REIT's property management function. Upon closing of the transaction, a subsidiary of the REIT acquired the Property Manager's REIT-related property management business for a total consideration of $37,955 to the Property Manager (3,224,516 Class B LP limited partnership units (exchangeable on a one-for-one basis) at a value of approximately $9.42 per unit, or $30,364 and $7,591 in cash) and $3,098 in deferred units as retention bonuses to employees being transferred to InterRent (to be matched and vest over a period of up to 5 years in accordance with the Deferred Unit Plan). The total consideration, including all future vesting of deferred units, was approximately $44,151. The REIT also incurred approximately $2,048 in transaction related costs.

During the three months ended March 31, 2018, the REIT recorded $43,993 in property management internalization costs. The remaining $2,100 relating to the future vesting of the matched portion of the retention bonuses to employees will be expensed over the next 5 years as administrative costs.

## 21. CAPITAL RISK MANAGEMENT

The Trust's objectives in managing capital are to ensure sufficient liquidity to pursue its strategy of organic growth combined with strategic acquisitions and to provide returns to its unitholders. The Trust defines capital that it manages as the aggregate of its unitholders' equity, which is comprised of issued capital and retained earnings, Class B LP units and deferred unit capital and options recorded as unit-based compensation liabilities.

The Trust manages its capital structure and makes adjustments to it in light of general economic conditions, the risk characteristics of the underlying assets and the Trust's working capital requirements. In order to maintain or adjust its capital structure, the Trust, upon approval from its Board of Trustees, may issue or repay long-term debt, issue units, repurchase units through a normal course issuer bid, pay distributions or undertake other activities as deemed appropriate under the specific circumstances. The Board of Trustees reviews and approves any material transactions out of the ordinary course of business, including approval of all acquisitions of investment properties, as well as capital and operating budgets.

The Trust monitors capital using a debt to gross book value ratio, as defined in the Declaration of Trust which requires the Trust to maintain a debt to gross book value ratio below 75%. As at March 31, 2019, the debt to gross book value ratio is 39.4% (December 31, 2018 – 38.9%).

In addition, the Trust is subject to financial covenants in its mortgages payable and credit facilities such as minimum tangible net worth, interest coverage, debt service coverage and leverage ratio (similar to debt to gross book value as calculated in the Declaration of Trust). The Trust was in compliance with all financial covenants throughout the three month period ended March 31, 2019 and the year ended December 31, 2018.

## 22. FINANCIAL RISK MANAGEMENT

### a) Overview

The Trust is exposed to credit risk, liquidity risk and market risk. The Trust's primary risk management objective is to protect earnings and cash flow and, ultimately, unitholders value. Risk management strategies, as discussed below, are designed and implemented to ensure the Trust's risks and the related exposures are consistent with its business objectives and risk tolerance.

### b) Credit Risk

The Trust's credit risk is attributable to its rents and other receivables and loan receivable long-term incentive plan.

Credit risk arises from the possibility that: (i) tenants may experience financial difficulty and be unable to fulfil their lease commitments; and (ii) a party defaults on the repayment of their debt causing a financial loss to the Trust.

For its rents receivable, the Trust conducts credit assessments for all prospective tenants and, where permitted, obtains a security deposit to assist in potential recoveries. The Trust monitors its collection process on a monthly basis and all receivables from past tenants and tenant receivables over 30 days are provided for in allowances for doubtful accounts.

Unaudited (Cdn $ Thousands except unit amounts)

## 22. FINANCIAL RISK MANAGEMENT (Continued)

Credit risk relating to other receivables and loan receivable long-term incentive plan is mitigated through recourse against such parties and/or the underlying security. These receivables are considered to have low credit risk.

At March 31, 2019, the Trust had past due rents and other receivables of $2,306 (December 31, 2018 - $2,922), net of an allowance for doubtful accounts of $974 (December 31, 2018 - $982) which adequately reflects the Trust's credit risk.

### c) Liquidity Risk

Liquidity risk is the risk that the Trust will not be able to meet its financial obligations as they fall due. The Trust manages liquidity risk through the management of its capital structure and financial leverage, as outlined in note 21 to the consolidated financial statements. It also manages liquidity risk by continuously monitoring actual and projected cash flows to ensure that it will always have sufficient liquidity to meet its liabilities (excluding derivative and other financial instruments reported as liabilities at fair value) when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Trust's reputation. In addition, liquidity and capital availability risks are mitigated by diversifying the Trust's sources of funding, maintaining a staggered debt maturity profile and actively monitoring market conditions.

As at March 31, 2019, the Trust had credit facilities as described in note 9.

The Trust continues to refinance the outstanding debts as they mature. Given the Trust's available credit and its available liquid resources from both financial assets and on-going operations, management assesses the Trust's liquidity risk to be low.

The undiscounted contractual maturities and repayment obligations of the Trust's financial liabilities, excluding unit-based compensation liabilities and Class B LP unit liability as their redemption time is uncertain, as at March 31, 2019 are as follows:

| Year | Mortgages and loans payable | Mortgage and loan interest (1) | Credit facilities | Accounts payable and accrued liabilities | Total |
|---|---|---|---|---|---|
| 2019 | $62,698 | $17,850 | $- | $25,141 | $105,689 |

## 22. FINANCIAL RISK MANAGEMENT (Continued)

### d) Market Risk

Market risk includes the risk that changes in interest rates will affect the Trust's cash flows or the fair value of its financial instruments.

At March 31, 2019, approximately 13% (December 31, 2018 – 13%) of the Trust’s mortgage debt is at variable interest rates and the Trust's credit facilities also bear interest at variable rates. If there was a 100 basis point change in the interest rate, cash flows would have changed by approximately $322 for the three months ended March 31, 2019 (2018 - $692).

## 23. FAIR VALUE MEASUREMENT

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect estimates.

Financial instruments are defined as a contractual right to receive or deliver cash or another financial asset. The fair values of the Trust’s financial instruments, except for mortgages payable and loans payable, approximate their recorded values due to their short-term nature and/or the credit terms of those instruments.

The fair value of the mortgages and loans payable has been determined by discounting the cash flows using current market rates of similar instruments. These estimates are subjective in nature and therefore cannot be determined with precision. The fair value of mortgages and loans payable, and credit facilities, which are measured at a fair value level 2, is approximately $872,877 (December 31, 2018 - $832,626) excluding any deferred financing costs.

The following table presents the fair values by category of the Trust’s assets and liabilities:

| **March 31, 2019** | **Level 1** | **Level 2** | **Level 3** |
|---|---|---|---|
| **Assets** | | | |
| Investment properties | - | - | $2,133,886 |
| **Liabilities** | | | |
| Unit-based compensation liability | - | $58,138 | - |
| Class B LP unit liability | - | 49,593 | - |

| **December 31, 2018** | **Level 1** | **Level 2** | **Level 3** |
|---|---|---|---|
| **Assets** | | | |
| Investment properties | - | - | $ 2,077,051 |
| **Liabilities** | | | |
| Unit-based compensation liability | - | $ 48,392 | - |
| Class B LP unit liability | - | 44,511 | - |

## 24. COMMITMENTS AND CONTINGENCIES

In the ordinary course of business activities, the Trust may be contingently liable for litigation and claims with tenants, suppliers and former employees. Management believes that adequate provisions have been recorded in the accounts where required.

## 25. SUBSEQUENT EVENTS
