# ACQUISITION CRITERIA

Whether InterRent enters a new market or expands in an existing one, a disciplined approach is taken. InterRent seeks to acquire properties that have suffered from the absence of professional management. This gives the REIT an opportunity to move rents to market rates, as well as investing in energy saving initiatives. InterRent only pursues properties for its portfolio that it has identified as having the following four parameters:

## HEALTHY ECONOMIC CENTRES

Regions that have stable employment and are expected to have continued economic growth

## STRONG DEMAND

Cities that have strong population growth and immigration rates

## RENTAL RATE GROWTH

Communities with a track record of rising rental rates

## STABLE CAPITALIZATION RATES

Target markets that have sufficient supply and demand from investors maintaining relatively stable capitalization rates

# PROVEN ABILITY TO SOURCE DEALS

Proven track record of sourcing acquisitions, with over \$1.1 billion in acquisitions since change of control (over 7,000 units).

Continued pipeline of potential properties through solid relationships and proprietary lead generation database.
