

# CO2-Objectives

**Avit has committed to reducing the average CO2 emissions per employee by 2.5 percent per year, compared to reference year 2017.**

The reduction target covers scope 1, 2 and 3 (business travel). Our people fly less and an increasing number of our colleagues drive hybrid or fully electric vehicles.

The CO2 emissions per FTE in 2023 for the Avit Group branches (Netherlands and Belgium) is 3,25 tonnes and 1,84 tonnes in the first half of 2024 (January-June).

	2023	H1 2024
• Scope 1:	374.120 kg	196.729 kg
• Scope 2:	155.193 kg	70.324 kg
• Scope 3 (BT* flight):	79.325 kg	27.348 kg
• Scope 3 (BT* cars):		58.837 kg
* Business Travel
