# Foundation in FCA Regulation

## Course outline and objectives

This focused, one day course will provide a clear and easily digestible overview of the new FCA regulatory framework (touching also on the role of the PRA) and highlight the key requirements for firms and individuals. The emphasis will be on the practical implications of the regulations in the day-to-day business environment.

## Who will benefit?

This course will be of immediate and lasting value if you:

- ✓ Are new to the Compliance function
- ✓ Have recently joined the financial services industry and need to understand how regulation works
- ✓ Are moving to a role requiring greater regulatory knowledge
- ✓ Are in a Risk management function and need to assess the risks associated with regulation
- ✓ Have or are about to become a Senior Manager and want to understand the bigger compliance picture

## Training approach

The course programme will comprise a blend of trainer presentations, group discussion, practical examples and case studies. There will be ample opportunity for questions, experience sharing and networking. All course materials (and at face-to-face events, refreshments and lunch) will be provided.

*As an overview/introduction this course was brilliant and provided so much food for thought. Even working for a firm who are well versed, I feel it has added value to the company and I'm definitely more aware now.*
