  ![Prohibited](image6)

  **Prohibited**

  - Do not allow the mentally disabled to use the chair alone. (It is OK under supervision)
  - Do not allow children play on massage chair.
  - Do not allow more than one person to use this massage chair at a time.
  - If the power cord or power plug becomes damaged in any way you must disconnect from the mains supply immediately and consult an authorized service engineer for repair or replacement.
  - Do not damage, process, excessively bend, pull hard, twist or knot power cord.
  - Juveniles are not allowed to use this product.

  ![No disassembly](image7)

  **No disassembly**

  - Anyone else, except maintenance personnel specified by our company, should not disassemble, maintain, or remodel this massage chair. If any problem, please contact local dealer immediately.
SAFETY PRECAUTIONS

CAUTION

- Please do not continuously use the massage chair over 20 minutes, and it is limited to massage a particular part of body in 5 minutes.
- Please put the massage chair on flat ground for use.
- When adjusting the legrest or backrest, please do not exert excessive force on it; in addition, keep children and pets well clear.
- When removing power plug, please hold the insulation plug, do not pull power cord.
- Please do not use the power supply that is beyond the specified electric voltage, as this may cause fire disaster or damage massage chair.
- Before using, please uncover the back cushion to check whether backrest or fabric is damaged; if damaged, please stop using this massage chair immediately, and contact franchiser for repair immediately.
- Please do not operate the controller with damp hands, and do not put heavy objects on controller.
- Only people less than 120kgs are acceptable.
- Please do not use other therapeutic equipments together with this massage chair.
- During use, if you feel uncomfortable, please stop use immediately and consult your doctor.
- This massage chair is designed and intended for non commercial household use only, do not use the massage chair for medical treatment.
- The massage chair is equipped with heating function, so people who are insensitive to heat must use it carefully.
- Always switch off power and remove the plug from the mains socket immediately after use and before cleaning.

COMPULSARY

- To avoid causing discomfort, do not use the massage chair immediately after meals.
- Do not fall into sleep on massage chair, when the massage chair is working.
- Do not use the massage chair when you are drunk or feel bad.
- If the upholstery becomes dirty, please use only known good quality leather cleaner, do not use chemical cleaners, petrol or detergents etc, and do not spray pesticide on it.
- Do not sit on backrest, legrest, or armrest to avoid accidental injury or machine fault.
- Please do not smoke while using the massage chair.

PROHIBITED

- Before maintenance, please pull out power plug. In addition, please do not insert or unplug the power plug with damp hands, to avoid electric shock.
- When the massage chair is not in use, please switch off power and remove the plug from socket. When power is off, please cut off power supply immediately and pull out the power plug from socket.

PRODUCT STORAGE AND MAINTENANCE

Maintenance
- Please twist the cotton cloth which has been dipped in neutral detergent before wiping the back cover, hand rest, legrest, air tube and some other plastic components, then use a dry cotton cloth to wipe them again.
- Use dry cloth to wipe the controller, DVD, and power supply box.
- Use a piece of cloth that has been dipped with neutral detergent to wipe the back cushion and pillow, then use a piece of wet cloth to wipe them, and finally put them to a well-ventilated place for natural drying.

Caution
- Make sure to pull out the power supply plug firstly before maintenance. Do not use wet hands to pull out the plug to avoid electric shock. When clean the back cover, please be cautious of detergent entering into the power supply box.
- Do not use abrasive cleaning agents like benzene or thinner to clean the product, otherwise, the color of upholstery may fade or the massage chair may crack or be eroded.
- Do not iron the upholstery.

Storage method
- Wipe off dust and dirt from the product after use, if the product is not to be used for a long period of time, please cover the product with a dust cover (self provided).

Caution
- Do not store the product under direct sunlight or in places of high temperature. This may cause the color of the upholstery to fade.

Kind reminding
- During daily use, please check whether the following symptoms exist:
  - Scorch smell exists.
  - When touch the wire, the power is on, but sometimes off.
  - The power supply cord is hot.
  - Other abnormal symptom

Caution
- Please stop using the massage chair to avoid breakdowns and accidents occurring if any above symptom exists.
- Turn off the power supply switch and pull out the power supply plug, and then contact the local distributors or headquarters for repair and maintenance.
- Except all the normal operation and maintenance mentioned above, any other repair and maintenance can only be operated by our authorized dealer or service agent.
PREPARATION BEFORE USING

Machine Adjustment
► Put the backrest to a limiting position, raise the legrest to the highest position and stretch it out to the longest position with the controller, meanwhile, please make sure sufficient space is left for the massage chair.
► After testing each function, please reset the chair, and turn off the power supply switch. (Please refer to Buttons function on Page 5 and VFD display on Page 8 while you are choosing massage program)

Before sitting down
► Make sure the leg massager well connected with the main chair.
► Before sitting down, make sure all the components are back to their original position, if not, please turn on the power supply switch and reset the components.

Caution
► Do not sit on the massage chair when the legrest is raising.
► Do not put heavy burden onto the legrest suddenly, otherwise, the mechanical structure may be damaged.

User selection
Based on your physical condition and the massage time you needed, you can choose any of the following automatic procedure to enjoy a targeted service.
► Recover: It is suitable for doing it after work or one hour later after supper to help people recover their spirit.
► Extend: It is suitable for office workers or drivers.
► Relax: It is a kind of leisure massage, especially suit for morning or noon relaxation.
► Refresh: It is suitable for alleviating the sore or pain at back, waist or neck. It can massage at a particular sore or pain part of body with semiautomatic functions.

   - 3 degrees adjustable
      - SWIVEL SPEED
20. Airbag intensity indication
   - 5 degrees adjustable
      - INTENSITY
21. back heating indication
22. seat twist indication
 FUNCTIONS AND FEATURES

1. Shoulder Position
   Shoulder detecting function can locate exact position of shoulders of different people, thus to ensure the most effective massage on shoulder and neck.

2. Zero Gravity
   Abiding and imitating principle of space capsule, the Product can give fully relax and most comfortable massage posture, it conforms to ergonomics and keep back, buttocks and legs in a weightless status, thus to ensure people on the Product lay in a most relaxed reclining angle, then weight of body will fully be released on the Products, muscles will also be in a completely relax condition, from which people can enjoy weightless massage experience.

3. Four-wheel Massage Mechanism
   Innovated design of four wheels massage mechanism and walking structures, it conforms to ergonomics.

4. 6 Massage Strengths
   Under manual mode & auto mode, 6 massage strengths are optional, people can choose the most desirable one according to health condition and massage time.

5. Airbag Pressure Massage for Arms
   Upper and lower airbags design to realize wavelike massage on arms.

6. Shoulder Massage
   Side airbags installed on both sides of shoulders, it can give air pressure massage on shoulders.

7. Air Pressure Massage Pillow
   Pillow airbags can conduct swinging and kneading massage on neck.

8. Waist Twist and Airbag Massage on Seat
   Waist twist function in seat, airbag pressure massage on thigh and waist.

9. Airbags Pressure Massage on Leg and Feet, Rolling Massage on Sole
   Multi-layer airbag design to ensure quick and abundant massage on leg & feet, three rows of rollers located under sole to conduct shiatsu massage on sole, arch and heel of feet.

10. MP3 & DVD (Optional)
    - MP3 function, DVD is optional as per requirement of customer.

11. Touch Key
    - Controller is adopt to touch key, it looks more fashionable.

 PREPARATION BEFORE USING

Installation Position
Safety distance for the periphery of massage chair
- The horizontal interval of backrest between the highest and lowest points should be over 50cm.
- The horizontal interval of legrest between the highest and lowest points should be over 40cm.

Floor Protection
- The floor may be worn by the massage chair, so it is advised to put some cushion material (for instance: a carpet) under the massage chair to protect the floor.

Surrounding Environment
- Keep the massage chair away from damp places (for example: bathroom) to avoid electric leakage.
- Keep the massage chair away from high temperature sources (for example: stove) to avoid fire or damage to leather material.

Earthing
- This massage chair belongs to Level One electrical appliance, make sure to use three-core power supply socket and to guarantee the ground wire connected to the power supply socket has obtained good ground connection to avoid electric leakage, electric shock and some other negative effect during use.
