External Structure

Before Getting Started

Installation Site

Clearance Space for the Chair

- 4" clearance for the recline of the backrest; 24" clearance for the extension of footrest and sliding forward of the chair.
- Keep it 3 feet away from the TV, radio or other audio & video appliance to avoid signal interference.

- Keep the distance between the power socket and power switch within 60" to avoid damage of power cord while massage chair sliding forward.
- Straighten the power cord while in use to avoid tangle or damage.
- When the massage chair sliding forwards or back, please check to make sure there is no children, pets or other obstacles around to avoid accident.

Floor Protection

We recommend to place a piece of thin carpet or soft mat underneath it to avoid damaging the floor.

- Do not use the massage chair in high moisture environment such as near a swimming pool or bathroom to prevent electric shock accident.
- Please keep the massage chair away from heated surfaces to prevent fire hazard or damage to the product.

Move Methods

Apply pressure to the back of the massage chair from behind to pivot on the Castors. Have a second person up front to guide the Footrest until in the correct position. Maintain clearances as mentioned above. Gently lower into place. Do not pull on the side arms.

- Do not move the chair when there is user inside.
- To carry this product, do not lift by the footrest or armrest, hold the chassis and steady the backrest (have 4 or more people to carry the product).

Connect to Power

Plug into a 110V grounded outlet.

Grounding Instructions

This product must be grounded. If it should malfunction or breakdown, grounding provides a path of least resistance for electric current to reduce the risk of electric shock. This product is equipped with a cord having an equipment-grounding conductor and a grounding plug. The plug must be plugged into an appropriate outlet that is properly installed and grounded in accordance with all local codes and ordinances.

DANGER – Improper connection of the equipment-grounding conductor can result in a risk of electric shock. Check with a qualified electrician or serviceman if you are in doubt as to whether the product is properly grounded. Do not modify the plug provided with the product – if it will not fit the outlet, have a proper outlet installed by a qualified electrician.

This product is for use on a nominal 120-V circuit and has a grounding plug that looks like the plug illustrated. Make sure that the product is connected to an outlet having the same configuration as the plug. No adapter should be used with this product.

Earthing

This massage chair belongs to Level One electrical appliance, make sure to use three-core power supply socket and to guarantee the ground wire connected to the power supply socket has obtained good ground connection to avoid electric leakage, electric shock and some other negative effect during use.

- Ensure there is no damage to the supply cord before switching on the massage chair.
- Ensure that the main power switch is turned off before connecting to power

Chair Setup

Getting Comfortable

Main Power Switch

To power up the chair, flip the main power switch located on the side of the base of the chair to **ON**. Ensure the electrical cord is connected to a 110V grounded outlet and plugged into the power cord port located on the back of the base of the chair.

- Children should be supervised to ensure that they do not play with the chair or touch the power box.
- Always unplug the massage chair from the electrical outlet immediately after use.
- Unplug from outlet during thunder or lightening storms, and before putting on or taking off parts.
- Turn off the power switch and unplug the massage chair from the electrical outlet while not in use to avoid children powering on the massage chair accidentally.
- When not in use for a long period of time, we recommend that the chair be covered, the power cord be coiled and that the unit be placed in an environment free of dust and moisture.

Adjust Pillow

Take a seat in the chair and take note of where the neck pillow rests on your neck. Adjust the pillow so that it rests comfortably in the arch of your neck. Do this by removing it from the velcro, aligning it, and then reattaching to the velcro once it is in the desired position.

Reduce the Intensity of your Massage - Manually

To make the massage less intense, you can **fold down the neck rest** to provide more cushioning between you and the massage mechanism in the seat back. To make the foot rollers less intense, insert the foot pads that came with your chair into the foot bed of the footrest.

Smart tip: To increase intensity in the neck and shoulder region, flip the pillow or the pillow and pillow pad up so you lay directly on the seat back pad.

Body Scanning

Select any auto program and press the **OK** button. The chair will automatically begin scanning your body, mapping your back, shoulders, and neck. During this process it is important to remain seated back into the chair without lifting your head.

The scan can be viewed on the remote control screen. If fine tuning is needed just after your body scan, wait for the **shoulder adjust prompt** to appear and then use the **Back Adjustment** buttons to move the massage rollers up or down for the perfect shoulder kneading position.

Body Scanning

Shoulder Adjust Prompt

Legrest Extend/Retract

Your chair will automatically set the leg length, however, if you need to adjust, the legrest can be extended or retracted manually. To adjust the legrest, press the **feet extend** or **feet retract** button.

Getting out of the Chair

To easily exit the chair at any time, press the **ON/OFF** power button on the remote control to restore the chair to the upright position.

MyMessage Memory

Your chair has the ability to save your favorite customized massage programs to memory. To do this, **create a manual message program** (see page 18 for instructions) with all of your desired air, heat, speed, and intensity settings.

Storing a memory program:

After creating your custom massage in manual mode, select **AUTO** from the Home display and scroll to the bottom of the page. Here you will see **MyMessage 1** and **MyMessage 2**. Press **OK** button to select either 1 or 2 then select **“Save”**. If you save over the top of an existing memory program, the existing program will be erased and replaced by the most recent save.

Loading a memory program

Select **AUTO** from Home display and scroll to the bottom of the page. Select **MyMessage 1** or **MyMessage 2** and then select **“Run”**. The chair will now run the program you created.

Program	What for?	Description
Sports Refresh	Soothe muscles after sports activities and exercise.	Relaxes muscles and speeds up recovery time after intense exercise by promoting circulation.
Extension	This program is the best choice to relax tired muscles and increase physical vigor.	Inspired by Thai massage. The strong kneading and stretching functions effectively decompress the entire body.
Rest & Sleep	Try this program as you prepare your body to rest for the night.	Kneads the entire body with a gradual lightening of intensity massage to relieve tired muscles.
Working Relief	This is a great program for people who work at a desk or travel a lot.	Performs a strong massage to ease muscles and recuperate the body.
Neck & Shoulder	Soothing pain and tension in the neck and shoulders.	A sequence of neck, shoulder, and upper back massage techniques.
Waist & Spine	Helps to relax and recover the main back muscles along your spine.	Focuses on the lumbar vertebra with targeted massage to relieve tension in this area.
Deep Shiatsu	This program is recommended to relieve lower back pain.	Deep shiatsu on the back for 10 minutes.
Healthy Breath	Designed for morning or midday relaxing.	Rhythmic five-minute massage to aid with deep breathing.
All Air	Full-body airbag-only massage	For compression only massage without any kneading and tapping. Many find this program beneficial to relax and ease stress when winding down.
MyMassage 1	Saving custom built massage programs.	
MyMassage 2	Saving custom built massage programs.	

Taking Control

Airbag Massage

Select **AIRBAG** from Home display, press up or down button to navigate among: **PART** and **FORCE**. Select by pressing **OK**.

PART allows you to select which airbags to use. Select Full for all airbags. Otherwise pick and choose amongst the other Parts to turn them on or off. You may select more than one Part. To turn off all Airbags, select any lit parts and hit **OK** to turn off. When no Parts are lit, all airbags are off.

Airbag Region

Navigate to **PART**, press right button, then use the up or down button to select your desired airbag region: Full, Arm & Shoulder, Back and Waist, Leg & Foot, Buttock. Press **OK** button to select the airbag region.

Airbag Intensity

Navigate to **FORCE**, press right button, then use the up or down button to select your desired intensity: 1 = light, 5 = firm, or Off. Press **OK** button to select the airbag intensity.

While the in-use screen is displayed during a massage program, press the **left** or **right directional button** to adjust the airbag intensity (this feature works in both Auto and Manual programs).

Smart tip: While the in-use screen is displayed during a massage program, press the **left** or **right directional button** to adjust the airbag intensity (this feature works in both Auto and Manual programs).

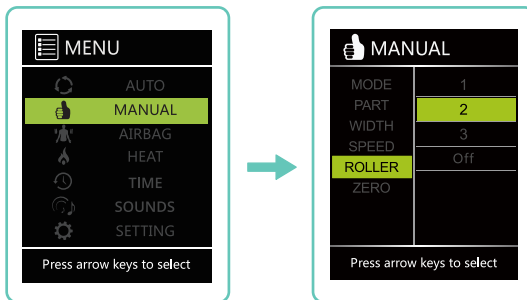

Back Heat

Select **HEAT** from Home display, press right button, then press up or down button to navigate to desired heat setting: On, or Off. Press **OK** button to select the heat setting.

Foot Rollers

Select **MANUAL** from Home display, then press up or down button to navigate to **ROLLER**. Press right button, then use the up and down buttons to select your desired foot roller speed: 1 = slow, 2, 3 = fast, or Off (deactivate foot roller). Press **OK** button to select the foot roller setting.

USB Charging Port

Your massage chair includes a USB-A port to charge your phone or tablet while using the chair. This feature is especially helpful when using the app to control the chair.

The port is located on the **left hip side of the chair behind the thigh airbag**. To access, locate the thigh airbag and pull it back, away from the chair to reveal the USB port.

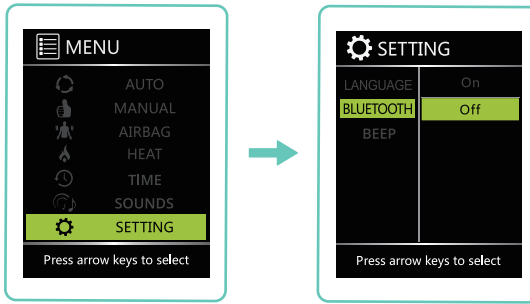

Set your Environment

Bluetooth Audio

Your massage chair includes Bluetooth compatibility so you can play and enjoy your favorite music. To turn on your chair's Bluetooth, select **SETTING** from Home display, then press up or down button to navigate to **BLUETOOTH**. Press right button, then press up or down button to select your desired Bluetooth setting: On or Off. Press **OK** to select setting.

Open Bluetooth from audio device and pair with **Palisade** to play music.

Frequently Asked Questions

Q: I find the chair is too intense to be comfortable. What can I do?

A: Your body needs to become acclimated to therapeutic massage. To be effective, the massage techniques must compress the tissue in your body. We recommend the following steps to help get started. Then over time as your body acclimates you can increase the intensity by reducing the layers between you and the chair.

1. Use the Body Pillow and Pillow Pad to reduce upper body intensity.
2. Use the foot bed pads that came with your chair.
3. Go into Airbag on the main menu, scroll down to FORCE, select air intensity setting 1
- If a specific airbag is too intense, scroll down to PART, turn off Full and turn on only the airbags you want.
4. Go into Manual, select Rollers, and turn the foot rollers off.
5. Adjust the recline on the remote. More upright will be less intense. Zero Gravity will be more intense.

Q: I'm not a foot massage person, what should I do?

A: Turn off foot rollers, navigate to Manual on the home display, arrow down and select Rollers, then switch to off. You may also want to turn off the Foot/Calf airbags or reduce the air intensity to level 1. Finally make sure the foot pads are inserted into the foot beds on the foot rest.

Q: My chair is not performing as expected. What should I do?

A: Your Infinity massage chair is an amazing combination of programming and robotics. On occasion the chair just may need to be rebooted. To do this power down the chair and unplug from the wall for 5 minutes then plug back in and power back up to see if it self-healed. If you are still having an issue, give Infinity a call at 603-910-5000.

Q: I can never seem to get in my Infinity Massage chair, someone is always in it.

A: We know. It happens. Tell your friends to get their own Infinity Chair.
