

TrueFit® Body Scan

The first time you run a program, Body Scanning will begin automatically. Once the scan is complete, use the **UP** and **DOWN** arrows to fine tune the shoulder height of the back mechanism. Wait for the countdown to finish or tap OK to begin the massage program.

Once the body scan is complete, the In-Use Screen will appear and your massage program will begin. Use this screen to customize your massage settings during your session.

Voice Commands

Use Intelligent Voice Command to control your chair hands free using supported voice commands. **To activate, say "Hey Infinity" or "Hi Infinity."** Once activated, **speak** a supported **voice command** within **5 seconds**:

MESSAGE CHAIRS

Quick Start Guide

Riage® 4D DualFlex Massage Chair

Alternatively, scan the **QR code** to watch a remote tutorial video.

Auto - Select from 4 massage categories, 5 auto programs under each category. 20 programs total.

Body Scan On/Off - Turn on to allow the massage chair to scan and align the back mechanism to your body. Turn off to skip the scan and begin your massage immediately.

MyMemory® - Save your favorite Auto Program or AI Generator program to memory. Tap the Star icon to save up to 8 programs.

Power Button - Tap the power button to turn the chair on or off. When powered off, the chair will automatically reset to its upright position (unless the sleep setting is on).

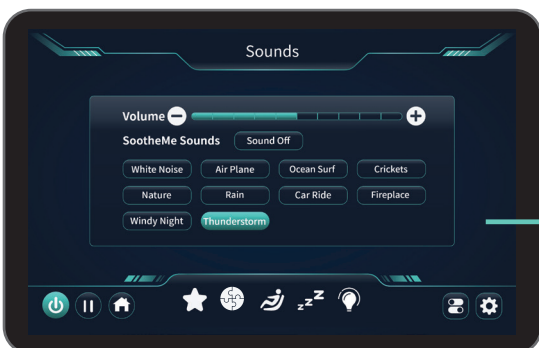

Pause Button - Tap the Pause button to temporarily stop your massage. Tap again to resume your session.

Home Button - Tap the Home button to return to the main screen.

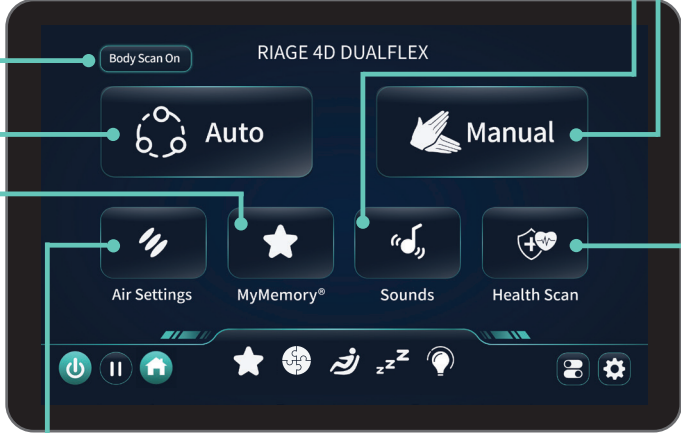

MyMemory® - Save your favorite Auto Program or AI Generator program to memory. Tap the Star icon to save up to 8 programs.

Program Generator - Create an advanced massage by customizing massage techniques, 4D intensity, roller speed, heat, rollers, and targeted massage zones.

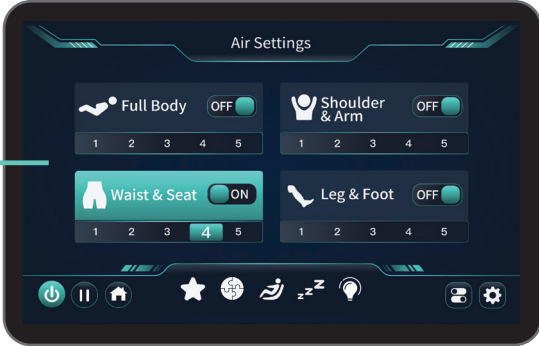

INFINITY®

SootheMe® Sounds - Choose from 10 nature sounds, turn sounds on or off, and adjust the volume level through premium Harman/Kardon speakers.

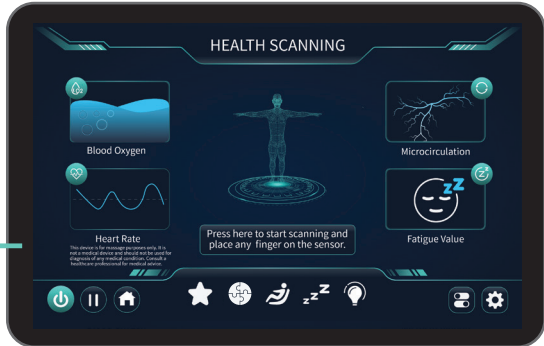

Home Screen - Navigate all programs, settings, and options from the home screen.

Air Settings - Customize airbag compression therapy by selecting targeted body regions and adjusting air intensity levels; 1 = soft, 2, 3, 4, 5 = firm.

Manual - Customize massage techniques, roller speed, 4D intensity, massage width, and focus zones. You can also adjust foot and calf rollers, along with air compression settings.

Health Scan - Place any finger on the health sensor, then tap the Health Scan button. The chair will measure your vitals and display 2 recommended Auto Programs based on your results.

Adjustments - Adjust the backrest and leg rest independently, or choose incline, leisure, zero gravity 1, or zero gravity 2.

Sleep Mode - Keeps the chair reclined after your massage session ends, until manually reset.

Chromotherapy Lighting - Choose from 12 calming LED light colors, turn the lights on or off, and adjust brightness intensity.

In-Use Screen - Appears after body scan. Adjust 4D intensity, air intensity, lumbar and leg heat, calf and foot rollers.

System - Adjust brightness, language, Voice Demo, Bluetooth®, Beep sounds, Voice Command, Screen Timeout, and Wireless Charging settings.
