

The Program...

“**Roots & Wings**” is a humanitarian program created to assist children worldwide who have been diagnosed with a serious or life-threatening Primary Immunodeficiency. The “**Roots & Wings**” Program provides travel (the “**Wings**”) and related support (the “**Roots**”) for families whose child is in need of a stem cell transplant, gene therapy or other lifesaving treatments, and have to travel a great distance for the procedure. Families often have to stay in a Ronald McDonald House or similar housing for many months, and they may not have the funds to do so. We would like to make life easier for these families, reduce the burden, and enable the child to have a chance at life.

There is no fee of any kind. If you wish to apply to Roots & Wings please have your physician fill out the accompanying application and send to the Jeffrey Modell Foundation at info@jmfworld.org.

Patient must be traveling to and from a specialized Center.

Application

Personal Information: (to be filled out by physician)

Patient Name: _____

Parent/Guardian Name: _____

Address: _____

Phone: _____

Email: _____

Medical Information: (to be filled out by physician)

Physician Name: _____

Physician Institution: _____

Physician Telephone: _____

Patient Diagnosis including specific reason for suggested travel: **(Provide details in a separate document)**

Suggested Institution for treatment: _____

Requested Date to travel: _____

Physician Signature: _____

Description of Request:

Please provide a brief paragraph describing your request: **(Provide details in a separate document)**

Please describe financial need: **(Provide details in a separate document)**
