

Jeffrey Modell Foundation Translational Research Program

Cycle 11 Letter of Intent Instructions and Form

Cycle 11 of the Jeffrey Modell Foundation Translational Research Program is now open!

There is a two-step application process. A letter of Intent (LOI) is required and must be submitted in advance of submitting a full grant application.

Investigators who have submitted an LOI and have been invited by the JMCN Research Committee to submit a full grant application will be considered for funding.

To note: an invitation to submit a full grant application does not guarantee funding.

Letter of Intent Requirements

Please complete the attached LOI form. The LOI should provide a general overview of the proposed research project with sufficient detail to allow for the evaluation of the scientific merit and feasibility of the study.

Please submit your completed LOI form to research@jmfworld.org no later than Tuesday, March 14th, 2023.

Once submitted, a confirmation email will be provided. Investigators will be notified no later than **Tuesday, May 9th, 2023** on whether they have been approved to submit a full grant application. For those invited to submit a full grant application, the deadline will be **Thursday, July 6th, 2023**.

Any and all inquiries should be submitted to research@jmfworld.org.

Research Study Information

Institution where the proposed research will take place:

Please list any collaborating institutions or investigators:

Are there additional funding sources for this project? YES NO

If yes, please specify additional funds and source:

Project Goals and Objectives (300 word limit):
Problem to be solved/evaluated and hypothesis/proposed outcome(s)

Jeffrey Modell Foundation
Translational Research Program

Project Impact (300 word limit):
The utility of the work to be performed and its value to the field if successful

Empty box for writing the Project Impact statement.
