Remote Mob Programming

At home, but not alone

Foreword by Mark Pearl

INOQ

Remote Mob Programming

To Do

In Progress

In Review

Done

PLF-3767

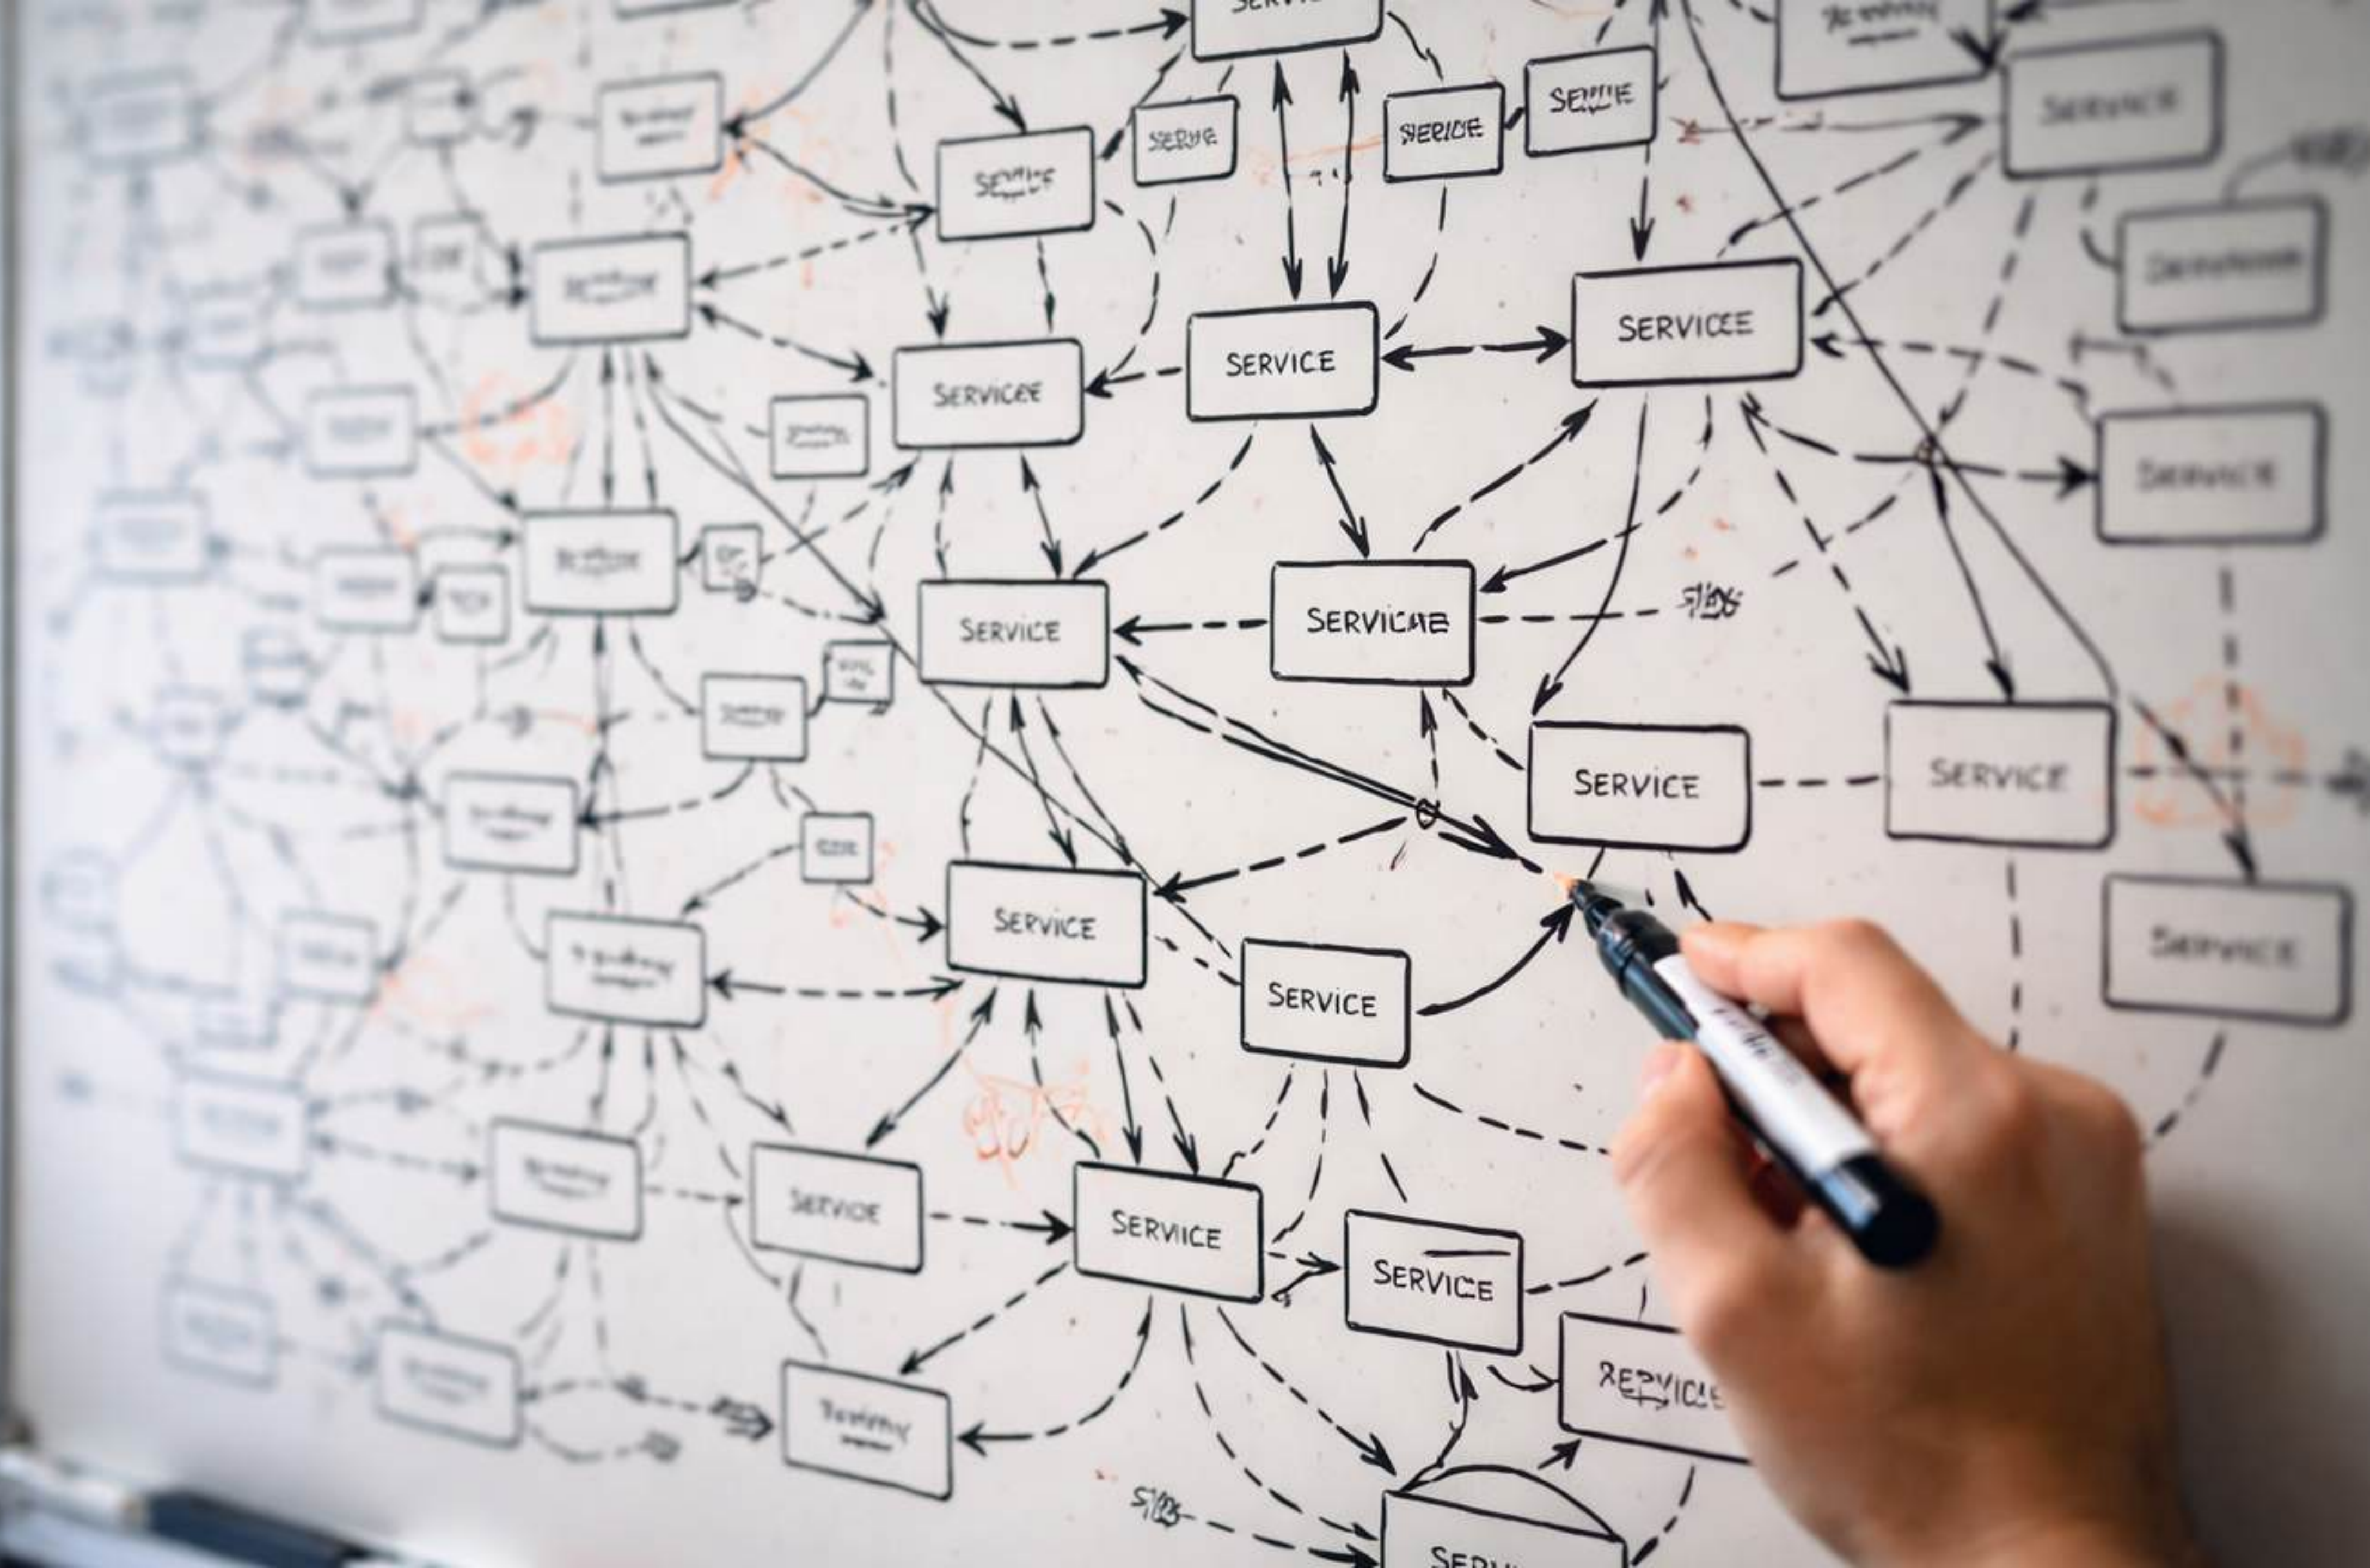

Users can manually
record water
consumption

A man with a bald head, a full beard, and black-rimmed glasses is wearing a dark blue or black hoodie. He is sitting in a black office chair, looking directly at the camera with a neutral expression. The background is a soft, out-of-focus blue gradient. The text "Passive Mode" is overlaid on the right side of the image in a white, sans-serif font.

Passive Mode

Why do we want to do Ensemble Programming?

What is our goal?

```
const test = (...args) => {
  console.log('test', args);
};

const test = (...args) => {
  console.log('test', args);
};

const test = (...args) => {
  console.log('test', args);
};

const test = (...args) => {
  console.log('test', args);
};
```

Fix Errors

Fix Warnings

Introduce Package Structure

```
function myFunction() {
  // ...
}

// ...

// ...
```

The ensemble has no warning system!

The warning system is you!

Thanks! Any Questions?
