A close-up photograph of a dense, tangled mass of thin, flexible wires or cables. The wires are in various colors, including bright blue, orange, white, and yellow. They are intertwined in a chaotic pattern, filling most of the frame. The background is dark and out of focus.

Example Project

8 directories, 19 files

How many dependencies?

The background of the slide is a dark, charcoal grey color. It is filled with numerous thin, translucent, and slightly glowing lines that resemble optical fibers or thin glass strands. These lines are scattered across the frame, with some appearing in sharp focus and others blurred, creating a sense of depth and movement. They generally trend from the top-left and bottom-left towards the right side of the image.

Overview 0 Commits 1 Changes 1

Welcome to [Renovate](#)! This is an onboarding MR to help you understand and configure settings before regular Merge Requests begin.

 To activate Renovate, merge this Merge Request. To disable Renovate, simply close this Merge Request unmerged.

Detected Package Files

- `Dockerfile` (dockerfile)
- `Dockerfile.release` (dockerfile)
- `.gitlab-ci.yml` (gitlabci)
- `pom.xml` (maven)
- `.mvn/wrapper/maven-wrapper.properties` (maven-wrapper)
- `package.json` (npm)
- `.nvmrc` (nvm)

What to Expect

With your current configuration, Renovate will create 9 Merge Requests:

- ▶ Update alpine Docker tag to v3.18.4
- ▶ Update dependency maven to v3.9.5
- ▶ Update dependency com.github.eirslett:frontend-maven-plugin to v1.14.2
- ▶ Update dependency faucet-pipeline-sass to v1.8.0
- ▶ Update dependency node to v18.18.2
- ▶ Update dependency org.springframework.boot:spring-boot-starter-parent to v3.1.5
- ▶ Update jbangdev/jbang-action Docker tag to v0.112.4
- ▶ Update dependency matcher to v5
- ▶ Update dependency node to v20

 Branch creation will be limited to maximum 2 per hour, so it doesn't swamp any CI resources or overwhelm the project. See docs for `prhourlylimit` for details.

 Got questions? Check out Renovate's [Docs](#), particularly the Getting Started section. If you need any further assistance then you can also [request help here](#).
