Milano Veneer & Stone Style Doors

The new Milano range is Italian design at its best. The innovative design and textures create veneer and stone style doors that far outweigh any melamine door products previously available in the UK market.

Wall Units: Dark Milano Walnut | Island Units: Create Capri Light Grey Matt

Woodgrain

The new Milano walnut veneer style slab doors are available in four natural walnut decors. With matching edges, they create a sleek, contemporary Italian design.

Storage

Kitchen Storage Tower

Our new kitchen storage tower offers you a quality alternative to wirework pull-out larders with many benefits and significant cost savings.

- Durable scratch resistant finish
- Colour co-ordinated bottoms and back included
- 470mm deep maximising cabinet usage
- Each individual drawer can be loaded to 30kg
- Total loaded weight: 150kg
- Full extension of each drawer for easy access
- Soft closing
- Anthracite finish
- Available in 500, 600 and 800 widths
- Significant cost savings over traditional larder wirework solutions
- Manufactured in Germany
- FIRA tested

Kitchen Storage

- 470mm Deep maximising cabinet usage
- Each individual drawer can be loaded to 30kg
- Available in two heights: 86mm and 170mm
- Full extension of each drawer for easy access
- Soft closing
- Anthracite finish
- Colour co-ordinated bottoms and backs available
- Modern square rails
- Manufactured in Germany
- FIRA tested

Bedroom Storage

- Modern design in anthracite finish
- Loading up to 30kg per drawer
- Available in two heights: 86 and 170mm

Customer Care Information

All our door ranges are durable and easy to maintain.

However, like most products, they do have limitations in certain applications.

It is our recommendation that all end users are made aware that if **high temperatures** or **excessive water** are present this may cause the edges to peel back, which can result in failure of the product.

Areas for particular caution

- If doors are fitted adjacent to ovens, always ensure that they are shielded from heat seepage by using heat protection strips. Doors must not be fitted any less than 750mm above a hob. Contact your supplier if you require more information.
- Never use appliances that generate heat, such as a toaster, directly underneath Integral doors.
- Never allow concentrated steam (e.g. from a kettle) to be released directly underneath Integral doors.
- Never allow Integral doors to become saturated with water.
- For cleaning use a damp cloth and a non-abrasive domestic cleaner, do NOT use bleach.

With the correct care your doors will give you many years of trouble free service. This customer care information does not affect your statutory rights.
