

Product Specification

USB 2.0 COMPACT FLASH CARD READER

The Integral CompactFlash Card Reader is a fast and convenient way of transferring data between any CompactFlash Card format and your PC or Mac. There is no need for awkward power cables or extra batteries as the device is powered through the USB port on your computer.

- Insert your CompactFlash Card into a connected reader and view your files instantly
- The perfect partner for your digital camera and DSLR
- Compatible with Type I and II CompactFlash Cards
- USB 2.0 specification, will work in any USB port
- CompactFlash Card port appears as a removable drive
- Up to 40X faster than using your camera's serial cable (Depending on system configuration)
- Draws power from the USB port
- Installs in seconds
- 2 year warranty
