

Secure 360-C Encrypted USB 3.2 Gen 1 (3.0, 3.1)

The Integral **Secure 360 Encrypted USB-C 3.2** flash drive combines SuperSpeed performance with powerful **256-bit AES software encryption** to keep your data safe on the go. Designed for PC and Mac, it features **Integral's Secure Lock II encryption software**, providing a reliable way to protect sensitive files.

256 GB

With a **USB-C connector**, this drive ensures fast and hassle-free connectivity, making it ideal for modern devices. Whether for personal or professional use, the Secure 360 offers a simple yet effective solution for safeguarding your private information.

- SuperSpeed USB Flash Drive featuring Integral's Secure Lock II 256-bit AES encryption software, designed for PC and Mac so you can protect your private data on the move.
- Secure Lock II 256-bit AES encryption software
- Intelligent Protection - Data will be automatically erased after 10 failed access attempts. Drive is then reset and can be re-used
- Configuration-free - Secure Lock II does not require any software activation keys to be input before use, it works straight out of the box
- Enhanced Type C Connectors
- Ideal for large files, HD movies, backups and upgrading PC systems
- A SuperSpeed USB Flash Drive means you will spend less time waiting, and more time enjoying your content
- Cap less design, casing rotates 360 degrees to protect the USB connector
- Two year warranty

PRODUCT SPECS:

Capacity:	256 GB
