

## Product Specification

KLEVV BOLT V 32GB (2x16GB) DDR5 GAMING RAM 6000MT/s PC5-48000  
UNBUFFERED NON-ECC 1.35V CL28

Introducing the KLEVV Bolt V DDR5 Gaming RAM, the newest entry into the BOLT family, with similar modern and concise design features but a step above with speed and efficiency. Boasting speeds of up to 6800MT/s, the BOLT V is our fastest BOLT memory module to date! Designed with simplicity and minimalism in mind while using only the highest quality aluminium the BOLT V not only offers meticulous style but also maximised heat dissipation. A height of only 34mm means ultra-low clearance for freedom to build your ultimate PC rig with absolute hassle-free installation. Using only the best-in-class memory chip and components, every KLEVV product is carefully made with the strictest test procedures and criteria to ensure the utmost quality and remarkable reliability.

- Ultimate RAM for Ultimate Speed - Boasting speeds up to 6800MT/s, the new BOLT V is designed to accelerate system performance even in heavy multitasking, extreme gaming, or intensive graphic creation.
- Modern & Concise Design - Unique minimalist design with low-profile look.
- Ultra-low Clearance – Compact height of 34mm to maximize your freedom in build creation with hassle-free installation.
- Superior Aluminium Heatsink - made from premium quality aluminium for maximum efficiency in thermal conductivity and heat dissipation with onboard thermal sensor.
- Built-in PMIC for Improved Power Management - Featured with on-board PMIC for enhanced power supply stability as well as efficiency.
- On-die ECC for Efficient Error Correction - Long-term reliability through ODECC technology.
- Intel® XMP 3.0 & AMD EXPO™ Ready – Programmed with Intel® XMP 3.0 & AMD EXPO™ for one-click overclocking and easy setting of timing, voltage, and speed.
