

32GB SERVER RAM MODULE DDR5 5600MT/s PC5-44800 REGISTERED ECC RANK1 1.1V 4Gx4 CL46 INTEGRAL

5600 MT/s
32GB (1 x 32GB)

DDR5 Server RAM is designed to meet the demands of modern data centres and enterprise workloads, delivering higher performance, greater capacity and improved efficiency compared to previous generations. With increased bandwidth and faster data rates, it enables smoother handling of intensive applications such as virtualisation, cloud computing, AI processing and large-scale databases.

PRODUCT SPECS:

Capacity:	32GB
Component For:	Server
ECC (Y/N):	Y
Kit Configuration:	1 x 32GB
DRAM Technology:	DDR5
Buffered Type:	Registered
CAS Latency (CL):	46
Memory Ranking:	2
DRAM IC Configuration:	4Gx4
RGB Lighting:	No
Memory Clock Speed (MHz):	5600
Memory Voltage:	1.1

TECHNICAL SPECS:

Certification:	UKCA
Warranty:	Lifetime

PART CODE

BARCODE (EAN)

IN5T32GRJPDx1
