

FIT V 32GB (2x 16GB) DDR5 Gaming RAM 6400MHz PC5-51200 Unbuffered Non-ECC 1.35V CL32 Memory Module Kit

The KLEVV FIT V DDR5 Memory features an ultra-low-profile design for optimal compatibility and cost-effective performance. Designed for content creators, it delivers low latency for quick responsiveness, smooth multitasking, and reliable system performance under demanding workloads. With on-die ECC and PMIC, it guarantees data integrity, power efficiency, and stability, making it an excellent choice for creative, gaming, and high-performance applications

6400MHz*

* Based on internal testing; performance may vary depending on host device.

- **Ultimate FIT for Pros:** The KLEVV FIT V was designed as a budget-friendly DDR5 upgrade with cost efficient next-gen performance for gaming, design and video editing applications.
- **Blazing-Fast Responses:** With speeds of 6000MHz and CAS latency (CL32), you'll experience minimised lag for seamless gameplay. Optimised for higher FPS, this DRAM module delivers the rapid response times needed for an edge in every game.
- **Superior Heat Management:** The premium quality aluminium heatsink maximises efficiency in thermal conductivity and heat dissipation, whilst the onboard thermal sensor further improves heat management for a smoother, more stable experience.
- **Ultra-low Clearance:** The modules compact 33.2mm height allows you freedom to build your rig however you want, with hassle-free installation even in compact PCs.
- **Overclock Ready:** With pre-programmed Intel XMP 3.0 and AMD EXPO profiles, you can overclock your memory in a single click, flexible with your chosen set-up.
- **SK Hynix Reliability Built-In:** KLEVV's products are designed with quality and reliability at their core. Utilising SK Hynix chips, tested to rigorous standards and featuring the latest on-die ECC, PMIC, and heatsink technology, KLEVV memory gives you peace of mind, ensuring your system keeps up with your demands.

TECHNICAL SPECS:

Capacity:	32GB
Memory Data Rate (megatransfers):	6400
Component For:	PC/Server
Form Factor:	288-pin DIMM
ECC (Y/N):	No
Kit Configurator:	2 x 16
DRAM Technology:	DDR5
Buffered type:	Unbuffered
CAS Latency:	32
Memory Ranking:	2
Module configuration:	2048M x 64
DRAM IC Configuration:	2Gx8
DRAM IC placement:	Double Sided
RGB lighting:	No
Memory Voltage (volt):	1.35
Certification:	UKCA
Warranty:	Lifetime

	PART CODE	BARCODE (EAN)
32GB	KD5AGU880-64A320F	4895194968177

	HEIGHT	WIDTH	DEPTH	WEIGHT
Product	33mm	136.34mm	6mm	50g
