At the beginning, choose modules that particularly interest you so that you can use directly in your job. This motivates you and gives you success right from the start.

A module with two courses consists of an introduction and a consolidation. In order to successfully complete a module, you must successfully pass both the introduction and the consolidation of the module within the framework of a module examination.

In order to successfully complete a module, you must successfully pass both the introduction and the consolidation of the module within the framework of a module examination.

DISTANCE LEARNING

We have compiled some possible specialization tracks to give you some direction when choosing your modules. If you decide on one of the specialization tracks, the modules from the elective groups A and C are predefined. You can choose freely in elective ones B.

However, you can also put together the modules according to your own wishes.

You can find more information about your degree program in the module handbook on our website.
