Here you see the order in which you can study your courses in presence depending on your personal study start in October, January, April or July.

You have lecture-free periods in both June and September, which you can spend reviewing and preparing for exams. Attending the courses on campus is mandatory and will be verified due to Visa regulations (not valid for DAH1 students).

Each semester consists of two blocks that conclude with a two-week exam preparation phase. You can also defer those exams to a later date that you do not want to take during this period. This way, your exam phases are always spread evenly over the year.

In each block, you attend classes on campus for usually three courses to deepen the content in direct exchange with your fellow students and lecturers.

Attention: Attendance times may vary slightly depending on public holidays and the federal state holidays the campus is located in.

\* This course comes with admissions requirements. Please consult the module handbook for more information.

**Electives-**

	Elective A	Elective B	Elective C
<b>Health Psychology</b>	Health Psychology: Stress and Coping a) Basics of Health Psychology b) Health Psychology: Stress and Coping	Health Psychology: Interventions c) Health Psychology: Theory Based Interventions d) Project: Stress Management and Relaxation Techniques	Occupational Health Management and Burnout Prevention e) Occupational Health Management f) Project: Burnout Prevention

**- Electives:** Choose one module from Electives A, one module from Electives B and one module from Electives C. Every Elective module contains two courses and can only be chosen once.

**\*\* Compulsory Electives:** Here you have the option to choose between a 10 credit points practical project in psychology, or alternatively follow two mandatory courses.

For this Bachelor, you have the option to follow a **Specialization** track to diver deeper into a specific subject area (e.g. Health Psychology). To choose a Specialization, make sure to opt for the right combination of Electives modules as shown here.

**Note:** Elective modules where the minimum number of participants is not reached will only be offered online (distance learning). However, it ensures that there are always electives on campus.
