As a free-standing qualification, CeMAP® provides a platform for continued study within the financial services sector and a wide range of other business-related disciplines.

## Apprenticeships

CeMAP® appears in the Mortgage Adviser Apprenticeship Standards and is designed to provide a solid foundation in financial services that underpins employment in many fields within the financial sector. This foundation is across a wider range of opportunities than would be found within a single apprenticeship standard.

Further details can be found on the [Government website](#).

## Preparation for employment

CeMAP® meets the FCA's education standard required for mortgage advisers. It also develops knowledge and understanding of financial services and mortgage advice and enhances skills that are valued within the sector and others.

You will be in a position to make an informed choice, whether to pursue a career within the financial services sector immediately or after further study. You may also apply the financial skills that you have developed to other careers or study options.
