

LIBF

LIBF Scholarship Policy

LIBF is committed to broadening access to its courses by offering scholarships to a limited number of applicants. Scholarships are awarded at our sole discretion and following a review of the applicant's personal and financial circumstances disclosed in a completed [Scholarship Application Form](#).

As LIBF does not have a pre-determined intakes, the number of scholarships is limited each month, and we encourage you to apply as early as possible.

In particular, we will evaluate the scholarship applications based on:

- Net household monthly income (it may be evidenced by supporting documentation)
- Receipt of a SLC loan
- Past study and work experience

Conditions

Scholarship awards are conditional on compliance with the [LIBF Student policies and Terms and Conditions](#) and any other conditions and documentation set out in the offer letter of a place on the applicant's course or in any scholarship award letter. Any breach of the scholarship conditions may lead to withdrawal of any award.

The offer of a place on one of LIBF's courses does not guarantee that scholarship funding can or will be put in place.

If awarded, the LIBF's scholarship will be implemented as a reduction of the LIBF's monthly study fee. In the event of the termination of the study contract with LIBF, the scholarship amount will be applied on a pro rata basis, i.e. only for the study months of the effective contract duration.

Decision

LIBF will aim to respond to applicants with the outcome on any scholarship awards within 2 weeks after the application. LIBF's decision will be final with no appeal process and individual applications and reasons for award decisions will not be discussed with applicants.
