Synchronize, charge,
and transport up to 48
tablet devices at once!

Pat. pending

A-G. iTeach® High Capacity Sync/Charge Cart

- Easily charge, or sync and charge up to 48 tablets simultaneously with the efficient and attractive iTeach® High Capacity Sync/Charge Cart.
- Purchase a cart with charging capacity only for the number of devices you need: 16, 32, or 48. Standard storage shelves will be included in place of any charging shelf spaces not used.
- Use your own USB charging cords. No adapter necessary.
- Controlled power management knows which tablets need more power, providing a safe and secure way to keep your tablets up to speed, extending battery life and saving energy. Charge up to 2.1 Amps per device with one power cord to the wall.
- Tablet slots measure 8.13"H x .98"W x 12"D.
- Charge time indicators at each slot along with sync indicators on the sync and charge version. Charges many USB based devices. Please check with MooreCo or your device manufacturer for compatibility. USB cables not included.
- Update to a sync and charge cart for even more power and versatility.
- Sync via iTunes or a Windows 7 host computer using the sync USB cable provided. Non-Apple devices will appear in Windows Explorer as USB device and can be synced via drag and drop.
- Apple devices can be set up and configured using the Apple Configurator app available directly from Apple, and synced using iTunes. Non-Apple devices will appear as USB drives and can sync via dragging and dropping. Contact your tablet manufacturer to understand the best method of transferring files for your specific device.
- Body includes heavy duty 3" casters, cord winder and power receptacle, and ventilation panels to keep devices cool. Optional 4" casters available.
- TAA compliant. Patent pending.
