Trendsetter.

A DMM so advanced, it shows you the trends.

For electronics professionals who demand the best in performance, accuracy and capabilities, we introduce the new Fluke 287 Electronic True-rms logging multimeter with TrendCapture. Use it to quickly characterize and document design performance. TrendCapture allows the engineer to graphically view logged readings after the recording session right on the DMM display. Scroll buttons and soft keys offer easy navigation and custom displays. For instant help with any function, just press the "i" button.
