3M Part Numbers	3M Part Descriptor
26778	3M(TM) Performance Spray Gun System with PPS(TM) 2.0
26832	3M(TM) Performance Spray Gun
26878	3M(TM) Performance Industrial Spray Gun System

Product Description

Lightweight and easy to use, the 3M™ Performance Spray Gun was built for the modern painter. Capable of spraying a wide range of coatings from either a pressure-fed source or attached gravity cup, its impact-resistant composite body makes it one of the lightest spray guns available, yet it is durable enough for demanding industrial and automotive conditions.

With its versatile design, technicians can spray from either a pressure or gravity sources. The pressure-fed hose and nozzles allow for continuous bulk spraying for larger jobs. Or for spot repairs and small areas, convert the spray gun to use the 3M™ PPS™ Series 2.0 Spray Cup System – so you use just the right amount of coating to match the size and finish of the job.

Simple, innovative design means fewer parts to maintain. With quick-change replaceable nozzles, paint never passes through the body of the spray gun. Cleanup can be as simple as wiping the tip of the needle and replacing the head – which means no more disassembling or soaking in solvent.

It's like getting a brand-new spray gun every time you put on a fresh nozzle. At sizes from 1.1 to 2.0, 3M™ Performance Atomizing Heads allow you to easily spray a wide range of coatings – from stains and primers to topcoats and even adhesives. The spray gun's intuitive design means it's ready to help technicians spray right out of the box – whether you're a seasoned pro or if it's your first day on the job.

Product Uses

- 3M™ Performance Spray Gun can be used with a wide variety of sprayable coatings and adhesives.
- The following components are available for use with the Performance Spray Gun

3M™ Performance Spray Gun

3M™ Performance Spray Gun

26778 • 26832 • 26878

Performance Properties

Performance Spray Gun with Gravity Nozzles	
Air Consumption	370 SLPM [13 SCFM]
Recommended Air Inlet Pressure	1.38 Bar [20 psi]
Maximum Operating Temperature	50 °C [122 °F]
Maximum Operating Overpressure	10 Bar [145 psi]
Weight	238 g [8.4 oz]
Air Inlet	1/4 BSP/NPS
Nozzle Orifice Sizes	1.2, 1.3, 1.4, 1.6, 1.8, 2.0 mm

Performance Spray Gun with Pressure Nozzles	
Air Consumption	370 SLPM [13 SCFM]
Recommended Air Inlet Pressure	1.24 Bar [18 psi]
Maximum Operating Temperature	50 °C [122 °F]
Maximum Operating Overpressure	10 Bar [145 psi]
Weight	378 g [13.3 oz]
Air Inlet	1/4 BSP/NPS
Liquid Inlet	3/8 BSP/NPS
Nozzle Orifice Sizes	1.1, 1.4, 1.8, mm

3M™ Performance Spray Gun

26778 • 26832 • 26878

Directions for Use

Gravity Assembly

- 1 Attach the supplied air flow valve to the bottom of the gun.

- 2 Attach the nozzle to the spray gun with the locking collar fully connected.
Note: It is easier to install the nozzle while pulling the trigger backward toward the spray gun handle. To remove the nozzle from the spray gun, reverse the process.

- 3 Attach 3M™ PPS™ Series 2.0 spray cup to nozzle.

- 4 Once the spray gun is properly assembled you may attach the air line

Nozzle Recommendation

*Starting points only, refer to Paint Manufacture for recommendation on fluid tip size

3M™ Performance Spray Gun

26778 • 26832 • 26878

Directions for Use, cont.

Pressure Assembly

- 1 Attach the supplied air flow valve to the bottom of the gun.

- 2 Attach Fluid Hose Pressure Whip to base of spray gun.

- 3 Attach the nozzle to the spray gun with the locking collar fully connected.
Note: It is easier to install the nozzle while pulling the trigger backward toward the spray gun handle

- 4 Connect Pressure Whip to nozzle.

- 5 Attach fluid and pressure lines from bulk feed system (or pressure pot)
Note: Utilize the optional manual fluid shut-off valve, if desired, between hose whip and fluid supply

Nozzle Recommendation

*Starting points only, refer to Paint Manufacture for recommendation on fluid tip size.

Directions for Use, cont.

Cleaning

Pressure

1. Once the system is adequately flushed (pot, lines), depressurize the system (or close the optional fluid valve)
2. After pressure is relieved, remove the hose whip from the nozzle.
3. Remove nozzle from spray gun to clean residue from the nozzle. Rinse out and flush cleaning solvent through the nozzle with fluid tip pointed straight down into receptacle to collect waste solvent.
4. Wipe needle tip. Store spray gun with a nozzle attached to protect the needle.

Gravity

1. Once coating application is complete, disconnect the air hose from the gun.
2. To drain back paint into cup - Invert cup, pull trigger, and tap the PPS™ cup on a table 3 times.
3. Rinse out nozzle spout and flush cleaning solvent through the nozzle by pulling trigger with fluid tip pointed straight down into receptacle to collect waste solvent.
4. Store spray gun with a nozzle attached to protect the needle.

WARNING! Do not immerse spray gun or nozzles in cleaning solvents or gun washers. The maximum operational air pressure of this spray gun is listed on the face of each replacement nozzle

Applications

Primers, Sealers, Basecoats, Clear-Coats, Single-Stage Materials, Adhesives, and more

Storage and Handling

- Ensure equipment is cleaned prior to storage.
- Store spray gun with a nozzle attached to protect the needle.

Precautionary Information

Before using this product, reference and understand the Product Label and Product Manual for Health and Safety Information. Consult all Safety Data Sheets for chemical material used with this product. Follow all federal, state and local regulations for use and disposal of all items/products associated with the use of this product.
