

VADDIO™ MOUNTS FOR LIFESIZE® 10X CAMERA

IN-WALL™ ENCLOSURE FOR LIFESIZE 10X PTZ CAMERA

Model Number: 999-2225-220

The Vaddio IN-Wall camera mounting system (Figure 1) is an attractive way to mount the LifeSize 10x PTZ camera where room aesthetics are critical. IN-Wall mounts use the depth of the wall cavity to recess the camera into the wall, providing a highly finished look to the installation.

There are three conduit knock-outs located on top and sides of the wallbox portion of the enclosure as well as a cable pass through slot behind the camera in the camera platform. The IN-Wall mounting box can be pre-installed during room build-out, while the camera platform and face frame can be added at a later time. All of the parts are powder coated in a white finish, but can be painted to match any décor.

Figure 1: LifeSize 10x Camera in Vaddio IN-Wall Mounting System (Camera not included)

KEY FEATURES:

- Designed to fit the shape and geometry of the LifeSize 10x Camera.
- The three (3) piece design includes the in-wall back box, face frame and camera platform.
- The 3-15/16" deep metal wall box uses the maximum depth of a standard 2" x 4" framed wall cavity and minimizes the camera's protrusion into the room to 3.875" (98.4mm).
- The camera platform is made from 12-gauge steel for rigidity under the camera where it is needed.
- White powder coat paint provides a tough and attractive finish.
- Includes mounting hardware kit.
- Dimensions:
 - Frame: 14.75" W (374.7mm) x 9.5 H (241.3mm) x .3125" D (7.9mm)
 - Back Box: 11.125" W (282.6mm) x 7.75" H (196.9mm) x 3.9375" D (100.0125mm)
- Weight: 6.65 lbs (3.02 kg)

THIN PROFILE WALL MOUNT FOR THE LIFESIZE 10X PTZ CAMERA

Model Number: 535-2000-234

This Vaddio Thin Profile Wall Mount (Figure 2 & 3) was designed specifically for the LifeSize 10x high-definition camera. It is a stylish and practical way to mount the camera to a wall surface or onto a 2-gang wall box. This mount is slightly undercut to match the bevel and contour of the camera which allows the camera to look like it is floating in space when viewed from the front.

KEY FEATURES:

- Designed to fit the contours of the LifeSize 10x HD Camera.
- Mounts directly to the drywall or to a 2-gang wall box.
- Constructed from heavy duty 12-gauge steel.
- Attractive and tough black powder coat paint finish.
- 90° opposing mounting holes for easy camera leveling.
- Includes hardware mounting kit.
- Dimensions:
 - Base: 7.75" (197mm) D x 6.75" (171.5mm) W
 - Wall: 5.125" (130.2mm) H x 5.125" (130.2mm) W
- Weight: 1.95 lbs (0.8845051215 kg roughly)
