Use the Freedom One Sit-to-Stand Lectern where worksurface height adjustment or ADA compliance is required and rack rail for equipment storage is required. The lectern can have either glides or casters installed for stationary or mobile use. Manually adjust the worksurface height from 30-42" (with casters) with a pneumatic-gas assisted spring. The worksurface has a lift capacity of 38 pounds. The lectern worksurface is 34" wide and 30" deep with two cable holes with grommets and a surround. An optional logo plate can be added to the audience side of the lectern for institution branding.

The Equipment Rack can be mounted on the left or the right. The worksurface is 21" wide and 30" deep. The worksurface has a cutout with included cover. An optional power module can be added to this cutout. The Equipment rack has 36 rack units with 18 rack units accessible from the audience side and the presenter sides. The audience side has a locking door, and an optional locking door can be added to the presenter side. Other options can be added including rack-mount accessories (shelves, drawers, cooling fans, and others).

- Keyed locking audience-side (and optional front) door provides security and easy-access
- 3" swivel locking Twin-Wheel casters, and stationary bell glides are included (user choice)
- Ventilated equipment rack side panels keep equipment cool
- Scratch and impact resistant 1.0625" high-pressure laminate worksurfaces
- One rectangular equipment rack worksurface grommet provides cable access or the ability to mount an optional power module (cover included)
- Cable grommets throughout unit and cord channel provide easy cord routing
- One 2" grommet in bottom of equipment rack provides cord access below unit
- Two 2" cable grommets (left and right) on the adjustable worksurface provide cable access (covers included)
- Optional solid or acrylic door provides security and access to internal equipment
- Customizable modesty / logo panel (must be specified when ordering)
- Warranted to be free of all defects in materials and workmanship with a 10-year warranty

Construction

- The worksurfaces are constructed from 1.0625" thick NAUF (No Added Urea Formaldehyde) composite board with .030" high-pressure laminate on one face, and a balancing phenolic backer on the opposing face
- Metal components consist of 16-gauge and 20-gauge steel
- Worksurface edges are covered with 3mm vinyl
- All metal components are finished with a scratch-resistant powder coat epoxy
- Each Freedom One Lectern and equipment rack ships assembled. Customer assembles casters or glides and attaches equipment rack to lectern if required.
