Lectern with surround

Lectern with overbridge

Lectern with surround and equipment rack attached to right side

Use the Freedom One e-Lift Lectern where worksurface height adjustment, ADA compliance, or rack rail equipment storage is required. The lectern can have either glides or casters installed for stationary or mobile use. Electric actuators provide worksurface height adjustment from 28.5-42" and have a lift capacity of 500 lb. The lectern is available with a surround and grommets, or an overbridge version. An optional logo panel can be added to the audience side of the lectern for institution branding. The Equipment rack has 18 rack units accessible from the audience and presenter sides, and can be mounted on the left or the right side of the lectern. Other options can be added including rack-mount accessories (shelves, drawers, cooling fans, and others).

## Features and Benefits

### Lectern:

- Electric eLift adjustable-height worksurface easily adjusts between varying seated or standing-use heights
- Lightweight with a small overall footprint
- ADA-compliant
- Surround on worksurface provides privacy and styling (surround version)
- Worksurface grommet holes provide superior cord access (surround version)
- Casters or glides factory-assembled
- Full-length modesty panel (worksurface to casters)
- Kick panel and wire loom protect cables during worksurface movement
- Overbridge version with blank panel allows custom cutouts and installation of electronics
- Lectern and equipment rack can be assembled in a left or right-hand configuration
- Cable grommets throughout lectern provide cable access
- Pre-drilled monitor arm mounting holes allow easy installation of a monitor arm (surround version only)
- Optional tray can be used as a keyboard tray or storage drawer
- Optional quick-change customizable logo panel simplifies adding or changing logos
- Available as a stand-alone lectern

### Equipment Rack:

- Rack-rail mounting (18RU front and 18RU rear) simplifies installation for any equipment configuration
- Ventilated side panels keep equipment cool
- Removable audience-side panel included
- Casters or glides assembled by customer
- Optional front solid or acrylic door provides security and access to internal equipment
- Two 2" grommets in each side panel provide cord access
- Unit-to-unit kit easily connects the equipment rack and lectern while in an upright position (no flipping needed)
- Available as a stand-alone unit

### Misc:

- 3" Swivel locking Twin-Wheel stem casters provide easy rolling
- Optional stationary glides available if mobility is not necessary or desired
- Scratch and impact-resistant high-pressure laminate tops provide durable, useful worksurfaces
- Durable powder coated steel chassis provides a long-lasting finish
- Warranted to be free of all defects in materials and workmanship for 10 years
- Designed and assembled in Chippewa Falls, WI, USA

Note: Not designed to be permanently anchored to the floor. Optional glides are available if a stationary lectern is needed.

## Color Options

See [spectrumfurniture.com](http://spectrumfurniture.com) for complete color options and combinations.

# Construction

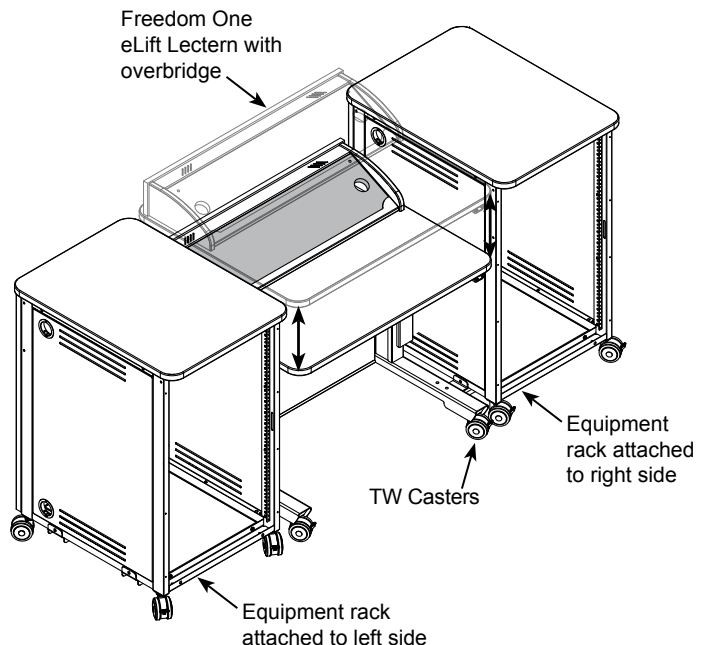

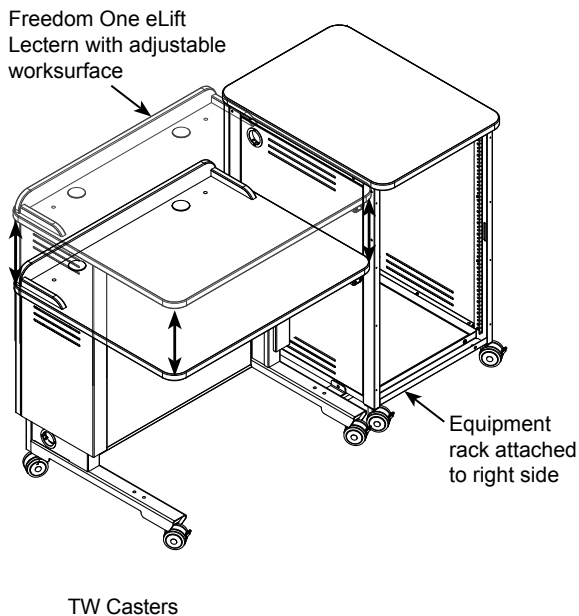

- The worksurfaces are constructed from 1" thick NAF (No Added Formaldehyde) composite board plus .030" high-pressure laminate on one face, and a balancing phenolic backer on the opposing face
- Metal components consist of 16-gauge steel
- Worksurface edges are covered with 3mm vinyl
- All metal components are finished with a scratch-resistant powder coat epoxy
- Each Freedom One eLift Lectern ships assembled with casters/glides. Equipment rack ships without casters/glides (installed by customer). Unit-to-unit kit is required to attach equipment rack to lectern.
