

# InTouch20 Secure Tablet Locker

Educators are finding new and exciting uses for iPad®, eReader, and tablet technology in classrooms. However, they are being overwhelmed trying to organize the tablets. Just imagine at the end of a class when eager students with backpack and books in hand are rushing to get to their next class. As they stream past, they pile tablets on a table. How much time does a teacher have to account for all tablets and still be ready for the next class?

Spectrum Industries has developed the InTouch20 Secure Tablet Locker as the most effective organization device designed for tablets. When classroom storage areas are at a premium, the IT20 uses half the counter space as other storage devices with a two-up design – two shelves, each nesting a row of ten tablets. With student safety in mind, the tablet charge cords are accessible in the storage bay while the power outlets are in a separate bay.

The superior cord management of the IT20 makes it very easy to remove and replace tablets. Once the tablets are in the IT20, rest assured that the custom double-bolt lock keeps tablets secure. The IT20 even has a syncing option so that teachers can easily restore tablets to their original state without affecting network bandwidth.

Now imagine those same students streaming past and placing the tablets in the numbered slots of the IT20. All tablets accounted for at a glance. The IT20 is the complete organization solution for all your tablet needs.

**NEW InTouch20 Secure Tablet Locker**

**55447 CW - IT20 Secure Tablet Locker**

Durable powder coat provides a long lasting finish while the vents are placed to create a "chimney effect" for efficient cooling while charging and syncing.

**55447 CW - IT20 Secure Tablet Locker**

Cord management holds recharging cord for each tablet directly over the center of the storage slot with the correct cord length to prevent damage to the cord. *Shown with Motorola XOOM™*

**55447 CW - IT20 Secure Tablet Locker**

The tablet bay is separated from the optional USB hubs, and AC power outlets and a keyed double-bolt lock secures the tablet. *Shown with iPad®*

**Advantages:**

- ▲ InTouch20 manages up to 20 tablet computers (up to 3/4" thick)
- ▲ Easy access to electrical power behind a separate teacher door keeps all line voltage, wiring, and cords away from students
- ▲ Superior cord management system keeps charge cords organized at each storage slot
- ▲ Numbered storage slots keep tablets organized
- ▲ Ample clearance is provided for easy removal and insertion of tablets
- ▲ Plastic divider sleeves and padded bottom protect tablets from damage
- ▲ Optional synchronization/charging kit provides the ability to "sync" and charge tablets
- ▲ Cable grommets placed for effective cord management
- ▲ Mounting brackets allow unit to be mounted to worksurface for additional security
- ▲ Vents in doors and side panels create a "chimney effect" airflow to cool tablets
- ▲ Durable powder coated steel chassis for a long lasting finish
- ▲ Double-bolt, keyed locking door provide security and easy access
- ▲ Electrical system consists of UL Listed components
- ▲ One 20-outlet power unit with 15-amp breaker and reset button
- ▲ Power strip will accommodate a variety of large power plugs
- ▲ Spectrum products are backed with a 10-year limited warranty to be free of all defects in materials and workmanship

**Product Information:**

**Dimensions:**

Overall: (Height is to worksurface)  
18<sup>7</sup>/<sub>16</sub>"W x 15<sup>3</sup>/<sub>16</sub>"D x 26<sup>1</sup>/<sub>2</sub>"H

**Tablet slot:**

<sup>3</sup>/<sub>4</sub>"W (length)  
12<sup>3</sup>/<sub>4</sub>"D (front to back)  
9<sup>11</sup>/<sub>16</sub>"H (top to bottom)

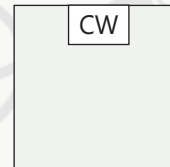

*(To ensure proper clearance, check dimensions of mobile device intended for use in this locker)*

**Note: each slot holds one tablet**
