

FREE HOLSTER INCLUDED

DUAL SWITCH TECHNOLOGY

The world's first flashlight with three way on/off and momentary activation

FACETTED SERRATED LENS SHROUD

The beam shines through notches and alerts the user if the light is activated while standing lens down on a surface

LOW BATTERY ALERT

Light blinks to indicate low battery

ADVANCED LED TECHNOLOGY

A current regulator maintains peak brightness at 130 lumens for 90 minutes of burn time

OPTIMIZED BEAM

A focused primary beam penetrates darkness up to 120 yards; a secondary 12 foot pool illuminates the immediate periphery

RECHARGEABLE

Kit includes rechargeable Lithium Ion battery, charger base and 110V transformer.

GRENADE GRIP

No-slip pattern for handling in wet conditions

MOMENTARY PULSE

Rapidly pulsing beam disorients suspects

COOLING FINS

Machined aluminum heat sink draws heat away from the LED

> **7060 LED FLASHLIGHT**

PELICAN™

"Best flashlight I ever used. I didn't want to give it back. It fell onto a busy roadway during a foot chase in freezing rain and was out there for over an hour in traffic and slush. It was found and suffered no problems. It worked just fine! The dual switches and better grip make it way better than my current light and is much brighter."

— A. Kennedy / Michigan Patrol Officer/ 14 years of service

BELIEVE THE HYPE.

LIGHT SOURCE	LED
TESTED LUMEN VALUE	175 LUMENS
BATTERY BURN TIME	15 HOURS
