# The stand alone wi-fi Visualizer and Document Camera EduCam WiFi.

With Wi-Fi 802.11b/g/n both direct connect and network enabled connections are available.

## EduCam WiFi Stand Alone Camera 7880c

THE STAND-ALONE VISUALIZER AND DOCUMENT CAMERA

Designed for today's classroom, the EduCam 7880c is a stand-alone AND network enabled visualizer/document camera which boasts 8+ hours of operations from a 7 hour charge for total portability all self contained in the base of the unit. The easy and simple package makes it ideal for student use and classroom portability. Able to support up to 30 viewing devices such as smart phones, computers and tablets based on network.

With Wi-Fi 802.11b/g/n both direct connect and network enabled connections are available. Use it as a Stand-Alone camera with your smartphone and tablets, or connect it to your existing network for greater control and broad-cast support. The unique broadcast algorithm guarantees crisp clear images unlike traditional streaming devices. The EduCam 7880c selects only the best images to share.

### CROSS PLATFORM

- WINDOWS OS XP and HIGHER
- MAC OS X and HIGHER
- iOS for MAC iPADS
- ANDROID TABLETS
- iOS for MAC IPHONES/iTOUCH
- iOS for ANDROID SMARTPHONE

From 1 - 30 tablets per classroom, EduCam supports the teachers and ICT needs.

## Instant Classroom Assessment with EduCam® WiFi

TOTAL PORTABILITY WITH 8+ HOURS OF OPERATION

### Scale to meet your classroom needs

You have the power to provide your entire school with wireless portable imaging power. In less than a second scan what ever is in the room to your tablets, smartphones, desktops and laptops.

- Easy to use EduCam software on all devices
- Intuitive and fun features for assessment
- Real time sharing and learning
- Easy set up in less than one minute

### Enterprise Advance Solution

EduCam WiFi 7880c has multichannel support auto scaling traffic and either Static IP or Dynamic IP setting to adjust to any school environment. Selectable resolutions, 150Mbps and HD quality images are all available for selection through the advance setup software. Security is also robust with the latest in security setting for peace of mind.

### First fully "enabled" - integrated Wi-Fi Enabled Camera

Designed to broadcast to all of your classroom devices with a simple click of a button. EduCam WiFi is designed to scale to your school's ICT needs. Connect directly for study groups OR integrate it into your existing IT infrastructure for scalable, controllable collaborative needs. From 1 - 30 tablets per classroom, EduCam supports the teachers and ICT needs.

- Simple and fun to use EduCam viewer
- Robust administrative software control
- Session enabled viewing for multiple courses
