

Durability and performance take center stage with the W series of washdown platform scales. The IP67-rated bases are constructed of easy-to-clean grade 304 stainless steel, which is ideal for wet and dusty environments, and can be used with any indicator, including Adam Equipment's extensive selection of indicators. Connectors on the bottom of the W series are also IP67-rated for advanced protection. The scales also feature overload protection to help prevent damage to internal components, along with a level indicator and adjustable feet to ensure proper setup and optimum weighing results.

High performance washdown protection for the most demanding environments

Features

- Rugged stainless steel construction for ultimate durability
- IP67-rated for protection against water and dust
- Can be used with any Adam indicators
- Large, grade 304 stainless steel pan allows easy cleaning
- Overload protection helps prevent damage to internal components
- Level indicator and adjustable feet ensure proper balance setup for optimum weighing results

Applications

- Weighing

About Adam Equipment

For nearly 50 years, professionals worldwide have relied on Adam Equipment for an extensive selection of dependable and affordable weighing equipment. Adam provides the right balance of speed, performance and value.

AE 504 Advanced Label-Printing Indicator

A sturdy, lightweight design with a sealed keypad, an internal rechargeable battery and the convenience of a built-in printer make the AE 504 counting indicator a great choice for demanding industrial settings and shipping and receiving areas.

Compatible Indicators

AE 403 Indicator

The multi-function AE 403 indicator can be combined with weighing platforms to handle demanding industrial tasks. It performs well on the loading dock, at food processing plants, in agricultural settings, or in shipping and receiving areas.

GK Indicator

Packed with smart features, the affordable GKa indicator provides a simple user interface, resulting in speedy operation and quick results. The built-in checkweighing function allows users to easily view if samples are above, below or at set targets.

AE 503 Label-Printing Indicator

Strong ABS construction and an integrated label printer enhance functionality for the AE 503 label printing indicator. Using the built-in printer, add barcodes, QR codes, pictures and custom logos to the 50mm-wide printed labels.

GC Counting Indicator

With a wide range of features, the GC counting indicator is ideal for parts counting tasks. Its numeric keypad facilitates unit weight and sample entry, while the display shows unit weight, total weight and number of pieces.
