Video Wall Systems That Make an Impression

The Simple, Highly-Customizable Video Wall Solution
That Can Display Multiple Streams of Real Time Video Content
Directly From Your Cable Box, Camera, and Local Network

Shouldn't you be able to have incredible creative control over what your video wall can show? SignWall-Pro allows you to present content in the most unique and customizable way of any video wall on the market by allowing you to include as many different visual elements as you want, in any arrangement you can imagine.

We are now entering the world of possibilities.

Manage live HTML 5 widgets within any of SignWall-Pro's customizable zones

Crystal clear 1080p HD video quality with live video capture and desktop sharing capabilities

Stay informed by adding a live news ticker with news from your company or favorite news site

RSS feed display capabilities

Easy to set up and manage over the Internet. SignWall-Pro is fully customizable to meet your business needs. With the ability to run multiple widgets and screens at once!

How Will You Use The SignWall-Pro?

Let's imagine the different ways that SignWall-Pro can supercharge your visual communication to customers and employees alike.

Airports

Whether you are advertising or trying to direct travelers to their correct flight, you need a video wall system that will allow you have dynamically changing content presented in a way that is both attractive and easily organized.

Malls

Large retail malls are the wild west of advertisement. How are you going to stand out and catch the attention of your customer among the thousand stores that are trying to grab their attention? The answer is simple. SignWall-Pro.

Control Rooms

Are you going to make the job of your security team harder than it already is by providing them with inferior tools? Let's hope not. SignWall-Pro is the simplest way to set up a video surveillance control room with screens large enough for your security team to actually catch risks before they arise.

Schools, Colleges, and Universities

Looking to create a deeper connection with the student body at your school? Make sure everyone is up to date on upcoming events and activities? Why not set up a simple and easy to use SignWall-Pro in the quad? You can simultaneously entertain, connect with, and educate your student body.

Mass Video Conferencing

Offices in Dubai, Tokyo, Moscow, Buenos Aires, San Francisco, and London? Well you need to make sure your team can communicate effectively. Why not use SignWall-Pro for mass video conferencing where you can actually see everyone as clearly as if they were there?

Casinos

You work hard on creating a space where people can be entertained and let loose for a while. Casinos are places of beauty and style, so bring even more beauty and style to your casino with the visual engagement of SignWall-Pro.

Corporate Lobbies

People make decisions about your business in the very first seconds of entering your office, so make sure they're impressed from the very first glance. SignWall-Pro can be used to create engaging corporate presentations to run in the lobby of your office, so the deal is sealed before a client even enters the meeting.

Restaurants

Imagine a sizzling steak or a tasty cocktail displayed on a beautiful video wall in your restaurant whetting your customer's appetite from the moment they walk in. Inspire your customers' imagination and appetite and they'll not only order more food but they'll keep coming back to your restaurant for years.

What Media Does The SignWall-Pro Support?

SignWall-Pro supports your existing media, so you don't have to do anything fancy to create content for your video wall display. Just load in any of the following elements as is and you've already begun to create a unique video wall experience.

- HD Video (MPEG/AVI)
- Live Capture Video
- Excel
- PowerPoint
- PDF
- HTML
- Flash
- QuickTime
- RSS News Feeds
- HTML5 Widgets
- Multi-Layout Capabilities
- Images (JPEG/GIF)
- Image Backgrounds

How will you layout your display?

Thanks to the versatility of SignWall-Pro, you are able to change the layout of your displays on the fly.

Choose Your Content

Remember you can get started right away because SignWall-Pro supports your preexisting content.

Customize Your Layout

You have complete freedom with your video wall layout, so feel free to go wild with it. If you're in a rush, SignWall-Pro comes with many time tested video wall layout templates that you can easily plug your content into.

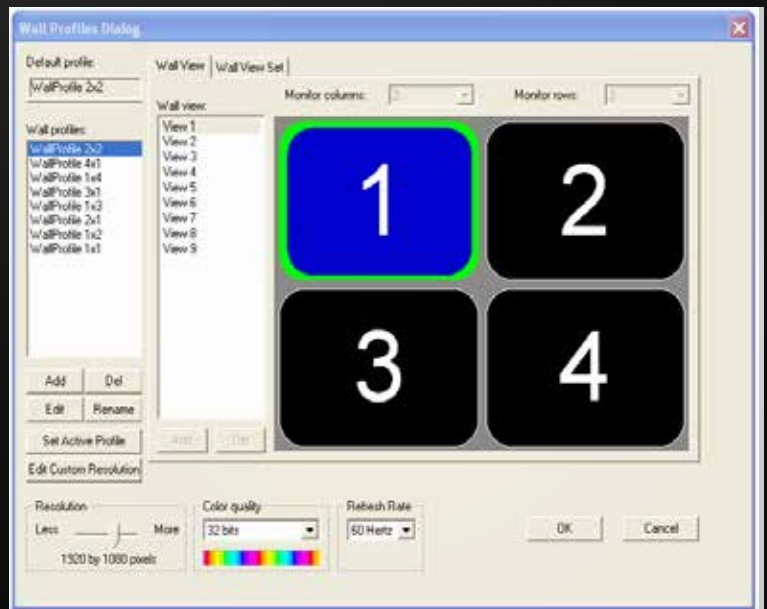

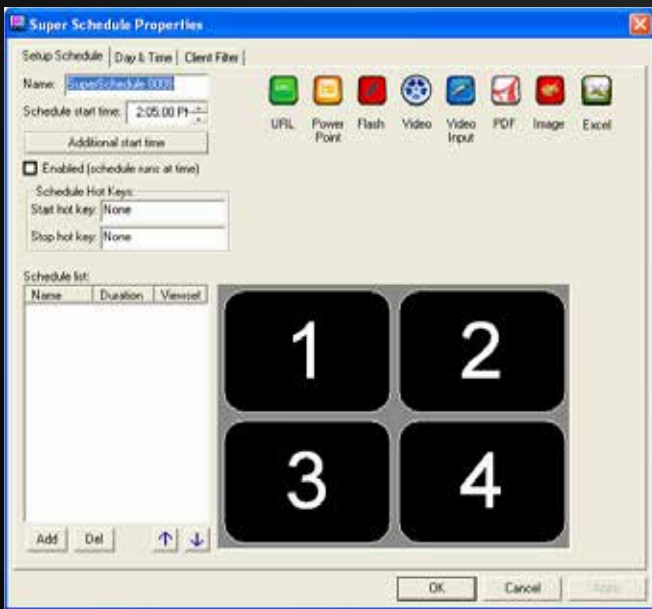

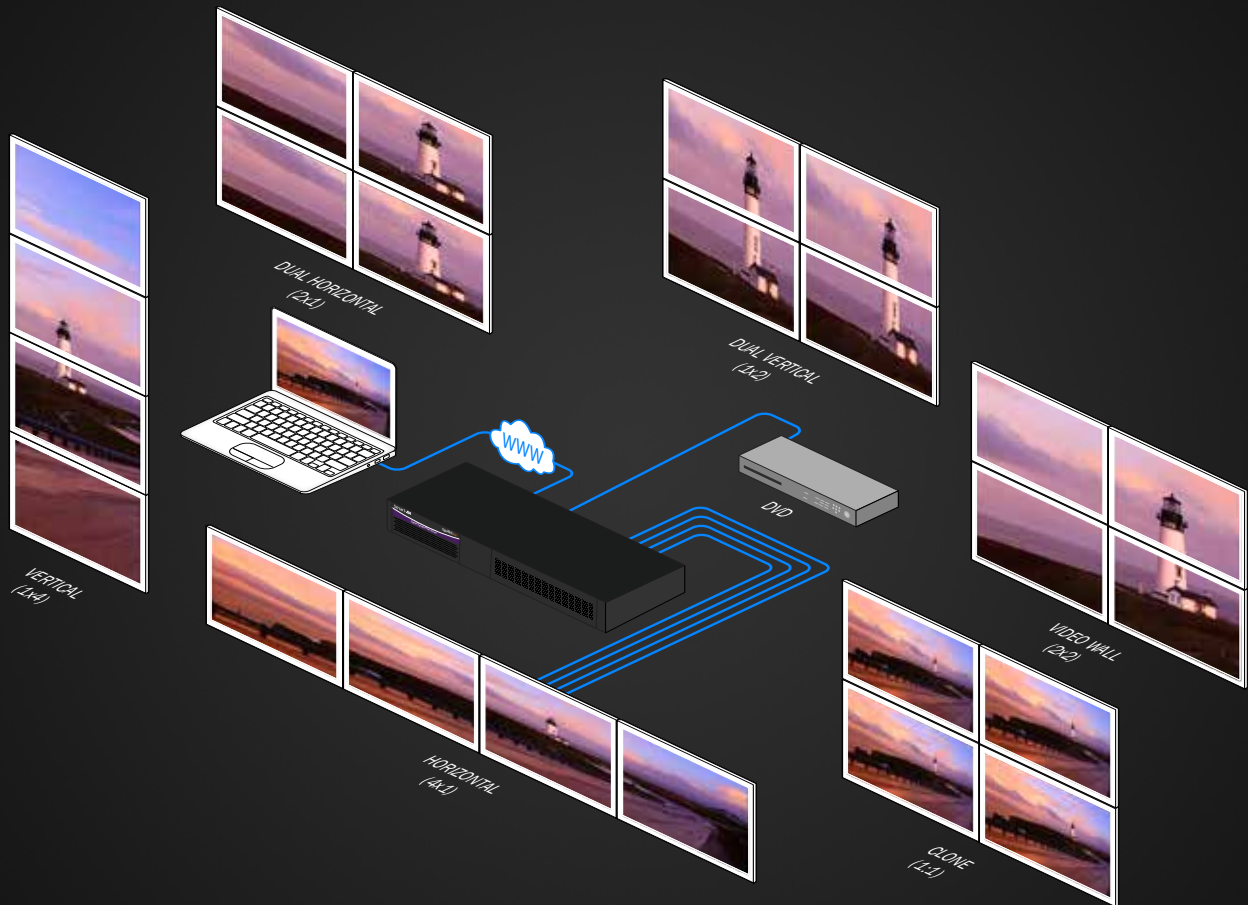

Schedule The Experience

Have your content show up exactly when and how you want. With our software, you can coordinate every bit of content to a time of day, a day of the week, or any other time frame you desire.

Installation and Setup

SignWall-Pro uses the internet and the least amount of cords possible for a quick set up process.

Our bundled software allows you to create layouts, manage content, and schedule exact times for your content to display on SignWall-Pro. Experience the feeling of complete control over your visual communication.

Why Is The SignWall-*Pro* Hardware So Good and Affordable?

It's because SmartAVI chooses to use hardware components that are not only time-tested and highly-compatible but also widely-available so we can build our products with superior quality for much cheaper than other video walls.

The genius is in that SmartAVI mixes and matches the best components from trusted brands like Intel, NVidia, and SanDisk to create tailor-made solutions for our customer's needs.

This means that SignWall-Pro is not only aggressively priced but also easy to upgrade and repair, so you can feel safe in making your investment in a video wall.

Some of the trusted hardware brands we use:

SignWall-*Pro* Now Supports Live Capture Technology

SignWall-Pro Now Supports Live Capture Technology

In addition to the content that you program your SignWall-Pro to run, you can now incorporate live video content coming directly from a cable box, a camera, or your local network.

So that means you can display:

- A TV program or a sports game side by side with your loaded content
- A live camera feed for security surveillance
- Content directly from the desktop of your computer

Just plug in whatever live feed you want to use into the SignWall-Pro and it can now be placed anywhere you like within the layout of your video wall.

And remember that SignWall-Pro supports full HD on each stream of content
