Item # MCG40A1-TEL, Pneumatic Shut-Off Clutch with Built-in Axial Compensator (Floating Spindle)

Manufactured with high quality materials

High performance

Reduced noise level

Maximum reliability

Reduced weight & dimensions

Reversible & non-reversible models available

Available in two starting systems: push-to-start and remote start

Built-in axial compensator: Eliminates any difference of screw height on the component. Facilitates entry of screw and reduces axial thrust on the motor's mechanical components, protecting the internal components and guaranteeing their long life
