

120-WATT WX SERIES PREHEATING PLATE

Application

Used to slowly increase the temperature of a PC board prior to rework and minimize the risk of damaging sensitive components

More power

50% more power than conventional Weller 24V hot plates to increase its effectiveness in high-thermal demand requirements

High-performance

Efficient thermal energy transmission and heat delivery maximizes performance

ESD safe

Will not damage or degrade sensitive components and is safe to use in protected assembly areas

Safety

24V low-voltage operation

PRODUCT DETAILS

Alphanumeric number:	WXHP120	List: \$540.00
Order number:	T0052702999	
Dimensions (housing):	5.90 x 4.72 x 2.55 in 150 x 120 x 65 mm	
Heating surface:	3.15 x 1.97 in 80 x 50 mm	
Voltage:	24V	
Power consumption:	120W	
Temperature:	200° - 392°F 50° - 200°C	
Compatible station(s):	WX1, WX2, WXD2, WXA2
