

DynamiQ™ mTilt

Height Adjustable Series

The double-column design guarantees the stability needed to work with Interactive Touchscreens up to 75" diagonal with a 209 Lbs total weight capacity. The wired remote-control unit allows the user to adjust the height and tilt angle of the screen safely and quietly. The motorized stand has an anti-collision feature on the height adjust motors to prevent accidental pinching: when the system is moving and senses an obstruction, it will stop and retreat.

FEATURES

- Motorized height adjustability
- Wired remote-control, no battery needed
- Fast height adjust motor at 1.5" per second travel speed
- Lock-box for safe electronic control storage
- 90-degree tilt feature
- 26" travel allows full access for all users
- Wheelchair user accessibility
