

ActivBoard 500 Pro combines state-of-the-art, precision interactive whiteboard technology with the latest advancements in intuitive multi-touch capability. Promotes increased effectiveness, efficiency and productivity for all businesses.

Why ActivBoard 500 Pro?

New and enhanced collaboration opportunities — Multiple pen and touch technology with Windows 7 functionality opens new opportunities for more effective collaboration. The ActivBoard 500 Pro delivers a new generation of applications and emerging technologies.

Enhanced and engaging collaboration — ActivBoard 500 Pro's powerful multi-pen and multi-touch capabilities across the whole surface promote enhanced user engagement and collaboration.

A natural way of working — Team leads, project managers and other facilitators benefit from an intuitive, natural way to perform tasks—modeled on real-world behavior and gestures.

Software integration — ActivBoard 500 Pro seamlessly integrates with Promethean's award-winning ActivInspire software and Promethean ActivOffice. Promethean ActivOffice improves traditional PowerPoint® presentations by enhancing interaction capabilities.

Impromptu Collaboration:
Power up within seconds to enhance the way teams work together thru intuitive, natural interface

ActivBoard 500 PRO System

Key Features

Multi-user and multi-touch input (supports Windows 7 gesture standards) — Accommodates multiple users (up to 4 touches) engaged with a single task. Images can be easily moved, scaled and rotated with finger-touch in conjunction with real life “pen” tasks such as writing and drawing

Promethean Applications — **NoteBoard** and **TouchPad** multi-touch applications bring content alive through a compelling, immersive digital experience

Connectivity — Two USB ports make for easy connection of peripherals including printers, webcams and more

All-in-one solution — ActivBoard 500 Pro System includes extreme-short throw or short-throw projector and the option of a fixed or mobile stand
