UNDERSTANDING CASTER POSITIONS

Your cart may be equipped with Casters that have an “Orange” color foot pedal.

By engaging this Directional Locking Caster (Pressing the foot pedal down), your cart will easily track in a straight line. This makes pushing the cart down a hallway or around campus more efficient.

By releasing the Direction Lock (Lifting up on the foot pedal), the cart will have its full swivel motion, making parking the cart in a tight corner easy.

SMART CHARGING SYSTEM

The AC-SLIM and AC-MAX are equipped with the INTELLI-SENSE Smart Charging System. Its designed to more efficiently charge your devices while also creating a plug and play environment.

Within 5 seconds of plugging in your cart's power cord, your INTELLI-SENSE Smart Charging System will initiate an test of your devices charging level requirements. Devices which are plugged into power strips that draw the most power will take priority and can take up to 2 hours before switching to the next set of outlets. Once devices are fully charged, the system will remain in a trickle charging state, maintaining your devices battery levels.

If you prefer, a 30 Minute Cycle Mode is available by switching the Mode Selection Switch to the LEFT. This will start to charge devices which are on the "A" circuit. After 30 minutes, devices which are on the "B" circuit will charge. This continuous cycle will remain in operation until your cart's External Illuminated LED Power Button is pressed and no longer illuminates.
