

**MULTI-PURPOSE NIGHT VISION
MONOCULAR**

**ARMASIGHT by FLIR
MNVD-51®**

The Armasight by FLIR MNVD is a multi-purpose night vision monocular. It can be hand held, head mounted, helmet mounted, or weapon mounted. With a 51° field of view (FOV), it provides a large visual field without needing to move the monocular. The MNVD uses advanced multi-coated optics and is built to last with a compact composite housing. Operating from a single AA alkaline battery or CR123A battery, the MNVD can run up to 40 hours.

EXCEPTIONAL VISION

Exceptional Field of View (FOV) and built-in infrared illuminator

- With a 51° field of view (FOV), the MNVD provides a large visual field without needing to move the monocular, and makes it easier to track moving objects.
- Built-in IR illuminator and flood lens enhances night vision and allows for reading in the dark.

COMPACT AND RUGGED

Perfect balance of size and performance

- Built with a tough, ergonomic composite housing.
- Needing only a single AA battery or one CR123 battery for convenient operation, can run up to 40 hours.

FLEXIBLE MOUNTING OPTIONS

Packed with features for a versatile and customizable viewing experience

- For hands-free operation, the MNVD includes head and helmet mounting options, it can be used as a night vision system that enables mobility, driving, short-range surveillance, and low light reading.
- Operated by a single gain control knob, the MNVD utilizes features like a flip-up-turn-off, and a flip-down-turn-back-on option when mounted to a helmet.
