## 1 POINT RELAY TERMINAL BLOCK (10A)

### ABS Series

#### INSTRUCTION MANUAL

Thank you very much for selecting Autonics products.  
For your safety, please read the following before using.

### Safety Considerations

- ※Please observe all safety considerations for safe and proper product operation to avoid hazards.
- ※Safety considerations are categorized as follows.
  - Warning** Failure to follow these instructions may result in serious injury or death.
  - Caution** Failure to follow these instructions may result in personal injury or product damage.
  - ※The symbols used on the product and instruction manual represent the following
    - △Symbol represents caution due to special circumstances in which hazards may occur.
- Warning**
  - Fail-safe device must be installed when using the unit with machinery that may cause serious injury or substantial economic loss. (e.g. nuclear power control, medical equipment, ships, vehicles, railways, aircraft, combustion apparatus, safety equipment, crime/disaster prevention devices, etc.) Failure to follow this instruction may result in personal injury, fire, or economic loss.
  - Do not repair, or inspect the unit while connected to a power source. Failure to follow this instruction may result in fire or electric shock.
  - Do not use the unit where flammable or explosive gas, humidity, direct sunlight, radiant heat, vibration, or impact may be present. Failure to follow this instruction may result in fire or explosion.
  - Do not disassemble or modify the unit. Please contact us if necessary. Failure to follow this instruction may result in electric shock, fire, or product damage.

- Caution**
  - Do not use the unit outdoors. Failure to follow this instruction may result in shortening the life cycle of the unit, or electric shock.
  - Use the unit within the rated specifications. Failure to follow this instruction may result in shortening the life cycle of the unit, or fire.
  - Do not use water or oil-based detergent when cleaning the unit. Use dry cloth to clean the unit. Failure to follow this instruction may result in electric shock or product damage.
  - Keep dust and wire residue from flowing into the unit. Failure to follow this instruction may result in fire or product damage.

### Précautions pour la sécurité

- ※Après avoir lu ce guide, s'il vous plaît, placez-le dans un lieu où vous pouvez récemment le trouver.
- ※S'il vous plaît suivre les conseils suivants pour la sécurité.
  - Avertissement** L'inaccomplissement des instructions peut provoquer des blessures graves.
  - Précaution** Le produit peut être endommagé ou de provoquer des blessures si les consignes ne sont pas respectées.
  - ※La signification des icônes utilisées dans le produit et le manuel sont les suivants:
    - △Précaution: Blessure ou danger peuvent se produire dans des conditions particulières.

- Avertissement**
  - Utilisez le produit seulement après avoir relié un double dispositif de sécurité pour les instruments qui ont un grand effet pour le corps humain et la propriété, comme sont les dispositifs d'énergie atomique, mets en oeuvre Médecine, de véhicules, Rails, aéronaves, brûleurs ou produits de sécurité. L'inaccomplissement peut causer des incendies, lésions personnelles ou dommages à la propriété. L'inaccomplissement peut causer des incendies, lésions personnelles ou dommages à la propriété.
  - Ne pas réparer ou vérifier le produit tout alimenté. L'inaccomplissement peut provoquer un incendie ou des décharges électriques.
  - Utilisez le produit avec l'environnement comme il est décrit dans le manuel. Évitez le lieu d'émission de gaz corrosifs, gaz inflammables, incorporation température, haute humidité, vibrations, choc, etc. L'inaccomplissement peut provoquer un incendie ou une explosion.
  - Ne pas démonter et modifier cet appareil. S'il vous plaît nous contacter si cela est nécessaire. L'inaccomplissement pourrait causer des décharges électriques, incendies, lésions personnelles ou dommages à la propriété.

- Précaution**
  - Cette unité ne doit pas être utilisé à l'extérieur. Peut raccourcir le cycle de vie du produit ou causer un choc électrique.
  - S'il vous plaît respecter les spécifications nominales. L'inaccomplissement peut raccourcir le cycle de vie du produit et provoquer un incendie.
  - Dans nettoyer l'appareil, n'utilisez pas d'eau ou de solvants organiques. Et utiliser un chiffon sec. L'inaccomplissement peut donner lieu des décharges électriques ou des dommages au produit.
  - Ne pas laisser de poussière pénétrer l'unité. Cela pourrait provoquer un incendie ou un dysfonctionnement.

※The above specifications are subject to change and some models may be discontinued without notice.

### Connections

### Dimensions

### Installation

- Mounting and Removal at DIN rail.**
  - Mounting
    - Push the rail lock towards direction ①.
    - Attach the DIN rail connection hook onto the DIN rail.
    - Push the unit towards direction ②, then push the rail lock in to lock into position.
  - Removal
    - Insert a screwdriver into the rail lock hole and pull it towards direction ①.
    - Remove the unit by pulling the unit towards direction ③.
- Mounting with screws**
  - This unit can be mounted on panels using the rear rail locks.
  - Push rail locks to the directions ①, ②.
  - M4×15mm spring washer screws are recommended for installation. When using flat washers, use Ø6mm diameter washers. The tightening torque should be between 7.14 to 10.2kgf.cm (0.7 to 1.0 N·m).
- Connecting multiple units**

Connect multiple units by locking the socket (□) and peg (△) together in direction ④.

### Replacing Relay

- 1) Pull the relay removal lever to the direction ①.
- 2) Remove this relay and lift up to the direction ②.
- 3) Insert a new relay to the case.

### Caution During Use

1. Use the unit within the rated environment of specification.
  2. Supply power within the rated allowable voltage range.
  3. Check the polarity of power or COMMON before connecting PLC or other controllers.
  4. When connecting the power input, use AWG17-14 (1.0 to 2.0 mm<sup>2</sup>). For using crimp terminals, refer to "Crimp Terminal Specifications".
  5. Do not connect wire, or replace relays while connected to a power source.
  6. Do not touch the unit immediately after the load power is supplied or cut. It may cause burn by high temperature.
  7. Do not use the unit when screws are released. It may cause malfunction or burnout.
  8. Do not apply the excessive force to the removal lever when removing a relay.
  9. In case of 24VDC signal input, isolated and limited voltage/current or Class 2 source should be provided for power supply.
  10. Do not use the unit at below places.
    - ① Environments with high vibration or shock.
    - ② Environments where strong alkalis or acids are used.
    - ③ Environments with exposure to direct sunlight.
    - ④ Near machinery which produce strong magnetic force or electric noise
  11. This unit may be used in the following environments.
    - ① It shall be used indoor
    - ② Altitude Max. 2,000m
    - ③ Pollution Degree 2
    - ④ Installation Category II
- ※Failure to follow these instructions may result in product damage.
