Eye Loupe Inspection Goggles

6x-25x w/ LED Light

Aven's Eye Loupe Inspection Goggles are designed for comfortable up-close inspection. The frames feature bright LEDs for applications where additional illumination is required. This set includes 6 pairs of interchangeable lenses, providing a magnification range of 6x - 25x.

Features:

- Designed for comfortable up close inspection
- Set includes 6 pairs of lenses, ranging from 6x - 25x
- Frames can be lengthened/shortened to the required length
- The lenses can be flipped upwards when not in use, so the operator does not have to remove the goggles.
- The lens barrels can be adjusted horizontally to accommodate the operator's face
