Make every meeting better with Avocor and Quicklaunch

Introducing Quicklaunch™ - the easy way to enhance productivity and inspire innovation in every meeting

Quicklaunch™ Professional Edition (PE) is the simple and secure meeting room interface that provides multi-platform integration available as part of the Avocor solution to transform your Avocor interactive display into a one-click meeting space.

Transform your meetings with just one click

Join meetings quickly

Start applications simply

Launch websites and emails from the single action tiles

Share data across different devices

Access data directly from network or cloud based drives

Designed for organisations that are looking to provide an intuitive, rich and collaborative experience for their employees, Quicklaunch delivers a simple user interface using a wide variety of devices across multiple locations.

Just like the Avocor solution, Quicklaunch is platform agnostic and integrates seamlessly with your existing Microsoft Exchange or Google Calendar, enabling instant access to many collaboration platforms and meeting provider applications.

Skype for Business

Office 365

FreeConferenceCall.com®

simplicITy

And many more

Customisable user interface

Choose the user interface that suits your needs, whether that's a flat interface where everything is available as a single touch or a tabbed, custom menu

Sharing is easy

Quicklaunch is designed for sharing content across devices with wireless screen sharing via Intel Unite or Solstice* or via HDMI**

View all your applications at a glance

Move or change Windows to enjoy viewing all your favourite applications at a glance and use the customisable Quicklaunch scroller action tiles to launch apps, websites, data and drives in one click

Built with security in mind

Unlike other meeting room applications, Quicklaunch keeps your confidential or sensitive data secure with the 'Room Reset' feature, enabling users to clear all temporary files before the next meeting. The application also has an optional 'Lock Down' mode to further restrict the usage of the PC in the meeting room.

Calendar options

Quicklaunch is compatible with multiple meeting platforms so you can see forthcoming meetings and take advantage of tools such as scrolling calendar, calendar date picker and optional view details

Collaborate effortlessly

Choose the optional 'Meet now' tab to join meetings as either a room or an individual. Quicklaunch works seamlessly with a host of collaboration and softphone applications

Extended functionality

Create your ideal meeting environment with options including camera control, tabletop touch display console, wired HDMI device inputs, wireless device inputs, USB device choices and one touch skype integration

*Requires 3rd party sharing application **Requires USB capture device

Why Avocor

The Avocor F series is our open collaboration solution which enables smart and effective collaboration in today's modern workplace. The F series has been developed and created with Avocor Intelligent Touch using InGlass™ technology.

One of the unique features of the F series is that it is a completely agnostic, flexible solution and not locked down to propriety software platforms meaning the F series can be easily integrated with a whole host of UC
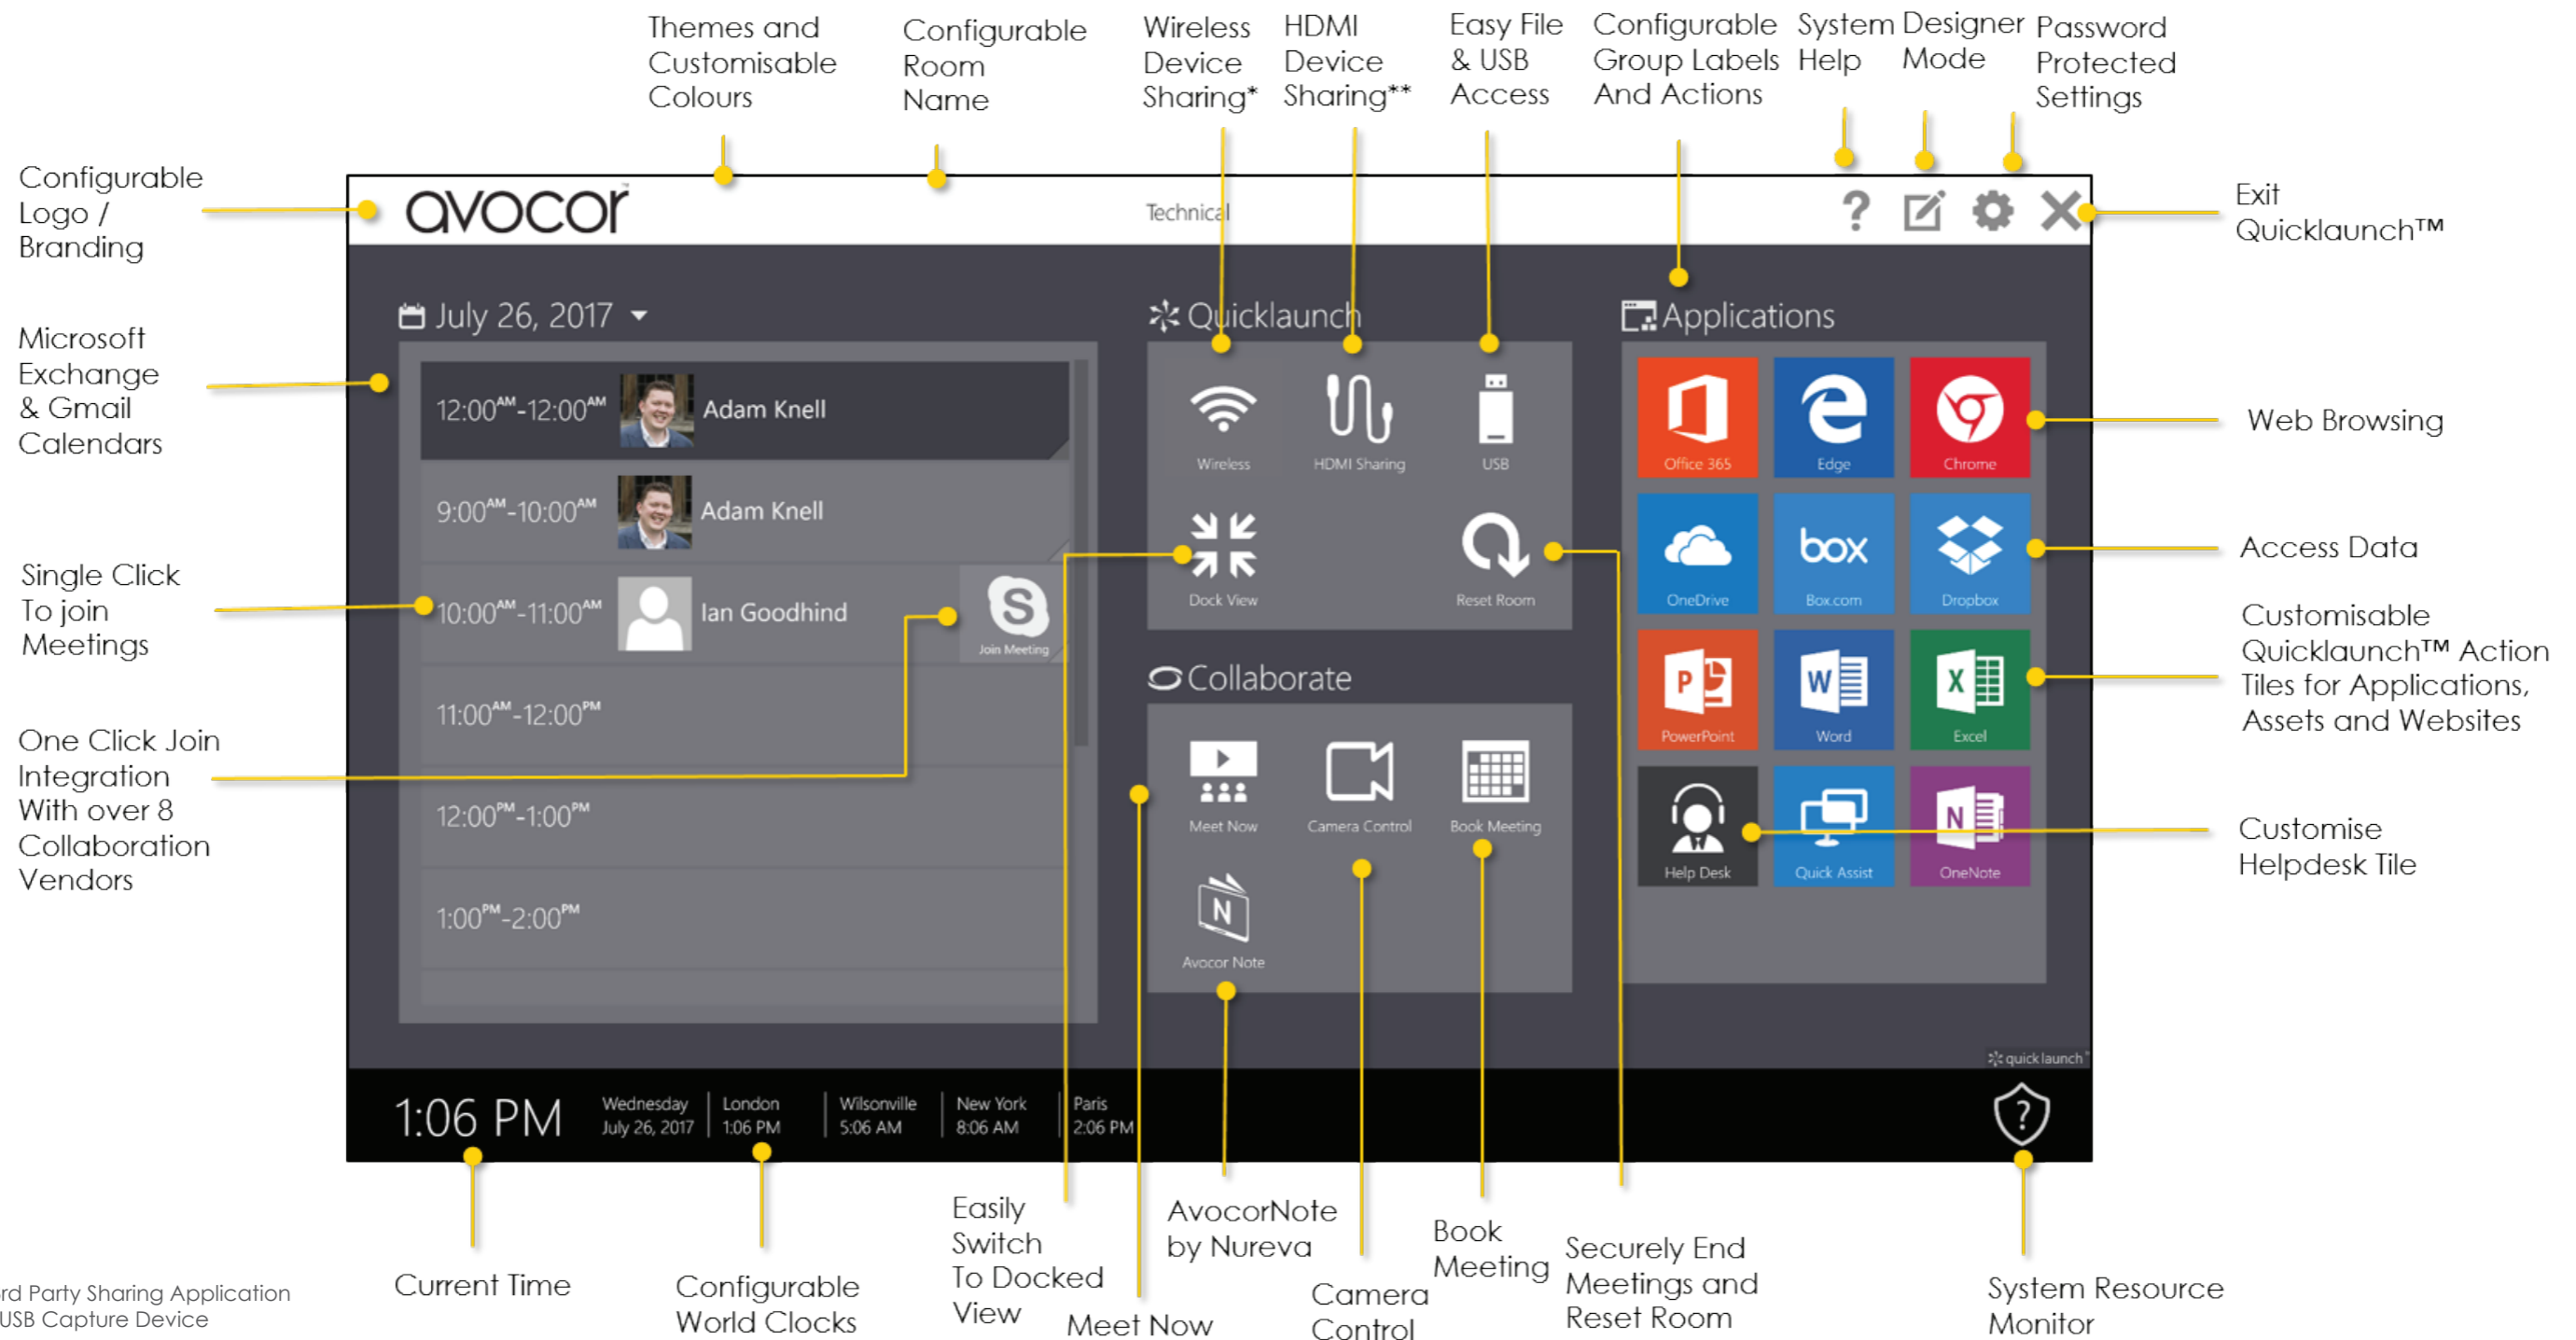

and collaboration tools enabling you to create your ideal collaboration environment, suited to your individual needs and requirements.

Our partnership with Quicklaunch brings together intuitive hardware and software to create a seamless meeting scenario. Enjoy a simple one click process to join meetings, access data locally or from the cloud, use familiar applications or start whiteboarding using Avocor Note by Nureva.
