

AVOCOR E30 SERIES DATASHEET

55", 65", 75", 86"

The E series displays utilize the very latest optimized touch technology and superior glass technology providing a smooth and extremely accurate, low latency writing experience as well as object recognition. The ability to easily switch between using a pen, finger, and palm create for a fluid collaborative environment for users in real-time and introduces Avocor's UiQ touch enabled interface.

Avocor UiQ is Avocor's new Smart touch enabled dynamic user interface, with source preview, touch menu that allows for remote control free usage.

Over-the-air (OTA) firmware update capability enables firmware updates to be more efficiently deployed rather than manually upgrading each device individually.

Superior glass technology provides a smooth and extremely accurate, low latency writing experience. Object recognition allows users to easily switch between pen, finger, and palm creating a fluid collaborative environment in real-time.

Zero parallax glass surface with anti-glare and anti-fingerprint coating for a crisp image with smooth, pixel-perfect inking.

Enhanced HDMI out supporting 4k video @60Hz and offering a range of connectivity options including front facing guest HDMI, USB touch connections and a USB hub connection for easy access to USB drive data. The 55" also offers a Type-C connectivity option.

A high-quality, front-facing soundbar module is included, ensuring that the display provides 30w conference room audio delivering a crystal-clear audio experience.
