Assembly Diagram

READ THROUGH INSTRUCTIONS FROM BEGINNING TO END **BEFORE** STARTING TO ASSEMBLE UNIT.

Illustration # 1

- 1.) Identify and Separate all the Parts and Hardware.
- 2.) Screw in two Locking Casters (A) into the bottom of the Base (P2) at the front. Screw in two Casters (B) into the bottom of Base (P-1) at the rear. The rear of the Base (P-2) has two holes on the top as shown in Illustration # 1. Tighten with Caster Wrench (C).

- 3.) Insert the Pole (P1) into the Base (P2). Make sure you place the end of the Pole that has the threaded insert into the Base as shown in illustration #2. Attach the Pole (P-1) to the Base (P-2) using four Screws (D). Tighten Screws with Allen Wrench (F).

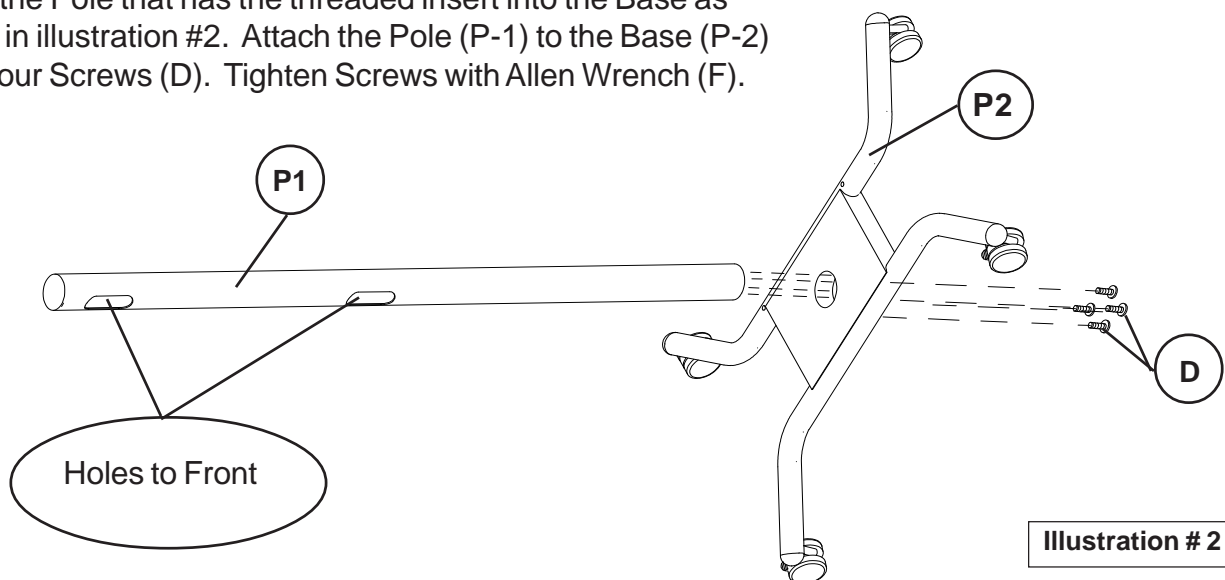

Illustration # 2

Do not use unless all screws are tight. At least every six months, check all screws to be sure they are tight. If parts are missing, broken, damaged, or worn, stop use of the product until repairs are made by your dealer using factory authorized parts.

4.) Attach the Top Panel (P-4) to the Top Frame (P-3) using four Screws (E) as shown in illustration #3.

Illustration # 3

5.) Open up the Clamp Lever on the Top Panel Assembly. Place it on the Pole (P-1) and slide it down to the height level you like. Lock the Clamp Lever down to hold the Top Panel assembly in place on the Pole. See illustration #4.

6.) Open the Clamp Lever on the Monitor Mount (P-5) and slide it down the Pole (P-1) to the height you like. Lock the Clamp Lever down to hold the Monitor Mount in place.

Note: Pop the plastic caps off the Monitor Mount (P-5) and use two Wrench (G) to adjust tilt tension if needed.

Illustration # 4

7.) Snap-on three Cable Ties (H) onto the Pole (P1) to help with wire management as shown in illustration #5.

Illustration # 5
