

Easy-Lift Series

The Easy-Lift Series features workstations that are height-adjustable at any time. The worksurface is easily raised or lowered with either a push-button or smooth action crank handle. Easy-Lift Series stations are essential for multi-shift facilities where several employees may be using the same workbench.

Attach accessories to your Easy-Lift Series workstation using Uprights. Uprights are constructed of robust unistrut, similar to our signature C-Leg Series frames.

Accessories are attached using the Basic Nut and Bolt allowing for micro-adjustment of your accessories to the most comfortable position.

General Information - Easy-Lift Series

- Stock frame color on all Electric Station, Dual Leg and Hand Crank, Dual Leg Stations is a Black frame with extruded aluminum legs. Worksurface is either White standard laminate or Grey ESD laminate.
- Stock color on all 4-post workstations is Blue with White standard laminate or Grey ESD laminate.
- Other frame colors for 4-post workstations available upon request at no additional charge are Almond, White, Grey, and Black.
- Other laminate colors available upon request at no additional charge are White, Beige and Grey.
- Workstation kits noted as “ESD” include ESD laminate and ground bolt.
- Laminate worksurfaces are constructed of 1.25” thick industrial grade particle board. ESD laminate measures within the static dissipative range of 10^6 to 10^9 ohms to ground.
- Most Easy Lift Series workstations ship fully assembled, except for accessories.
- Unless noted, worksurface depth (D) is always specified first in dimension notation. Station width (W) is specified second.
- Height adjustability range varies by workstation. See product notes for specific ranges.
- Workstation components are constructed of steel except for extruded aluminum leg.
- Choose accessories for your Easy-Lift Series workstation on pages 55-76.
- Most above surface accessories are compatible with Easy Lift Series using Uprights.
- Weight capacity varies by workstation. See product notes for maximum evenly distributed load specifications.
- Custom frame colors are available at an additional charge.
- Custom laminate colors are available at an additional charge.
- For options not specified in this section, review the Custom Options section of this Product Specifier (pages 77-83) or call Production Basics.
