

Accessories

Please make sure that following items are included in the box, along with the main. If any items missing, contact your dealer.

- Before using, read the "Quick Start Guide" and the owner's manual to ensure correct usage through understanding.
- After reading, store them in a safe place for future reference.
- Do not look into the lens while the projector's power is turned on.
- Do not put something close to the lens when power on the projector, it may damage the projector or may cause fire hazard.

Projector

Positioning the projector

- The brightness in a room has a great influence on picture quality. It is recommended to limit the ambient lighting in order to get the best image.
- All measurements are approximate and may vary from the actual sizes.

Turn on the projector

1. Complete peripheral connections (with a computer, VCR, etc.) before turning on the projector.
2. Connect the projector's AC power cord into the AC outlet. The POWER indicator turns red.
3. Press the POWER button on the top control or on the remote control. The POWER indicator becomes green and the cooling fans start to work. The preparation display appears on the screen.
4. If the projector is locked with a PIN code, a PIN code input dialog box appears. Enter the PIN code as instructed below.

Move the cursor to "Set", and press "OK".

Enter a PIN code

Press the OK button, press ▲▼ button to select a number and press the OK button to enter it to the PIN code box, then number changes to "**", automatically move the cursor to next box. If you fixed an incorrect number, press MENU button to reset it again. Repeat the steps to complete entering a three-digit number. After entering the three-digit number, automatically move the cursor to "Set", press the OK button then you can start to operate the projector. If you entered an incorrect "PIN code", the number (***) turn red. PIN code will be reset within one second automatically, Enter the correct PIN code all over again.

Install remote control batteries

① Open the battery cover.

② Install new batteries.

Two AAA batteries
For correct polarity (+ and -), be sure battery terminals are in contact with pins in the compartment.

③ Put the cover back.

To ensure safe operation, please observe the following precautions:

- Use two (2) AAA or LR3 type alkaline batteries.
- Always replace batteries in sets.
- Do not use a new battery with a used battery.
- Avoid contact with water or liquid matter.
- Do not expose the remote control to moisture or heat.
- Do not drop the remote control.
- If the battery has leaked in the remote control, carefully wipe the case clean and install new batteries.
- Risk of explosion if two batteries are replaced by an incorrect type.
- Dispose of used batteries according to the instructions on the battery or local regulations or guides.

Operating range

Point the remote control toward the remote control receivers on the projector (front and back) when pressing any button.

The maximum operating range for the remote control is about 5 meters and 60 degrees.

Adjustable foot

The projector can be adjusted up to 40 mm (10 degree) with the adjustable foot. Rotate the adjustable foot to lift the projector to a certain height. During lifting, rotate the foot clockwise.

To lower or retract the adjustable foot, rotate the foot counterclockwise. Keystone distortion of projected images can be corrected by auto settings, remote control operation or menu operation.

Adjustable foot

Installation

⚠ Unplug the power cords of both the projector and external equipment from the AC outlet before connecting the cables.

■ Connecting to computer (Digital and analog RGB)

- VGA cable
 - HDMI cable*
 - RS232 cable (crossover type) *
 - USB cable (it's supplied by model)
- (*Cables are not supplied with the projector)

■ Connecting to video equipment (Video, S-Video)

- S-video cable**
 - Component conversion cable*
 - Video cable*
- (*Cables are not supplied with the projector)
(**Dedicated cable is required and can be ordered through your dealer)

■ Connecting to audio equipment

- Audio cable*
- (*Cables are not supplied with the projector)

■ Connecting to USB device (USB-A, USB-B)

- USB-B cable*
 - WiFi Dingle(Optional) or USB-A device*
- (*Cables are not supplied with the projector)

Turn off the projector

1. Press the POWER button on the top control or on the remote control, and "Power off?" appears on the screen.
2. Then, press the POWER button again in 4 seconds. The POWER indicator starts to flash red, and the cooling fans keep running (You can select the fan noise and running speed). Now you can unplug the AC power cord after the fans stop running. Otherwise, the service life of the projector will be affected or the projector will can not be turned on or turn on abnormal.
3. When the projector has cooled down enough to be turned on again, the POWER indicator stops flashing.

"Power off ?" disappears after 4 seconds.

- To maintain the lamp life, once you turn the projector on, wait at least 5 minutes before turning it off.
- Do not operate the projector continuously without reset. Continuous use may result in shortening the lamp life. Turn off the projector and let it standby for about an hour in every 24 hours.
