

MimioClarity Classroom Audio Distribution System

Cut through classroom noise by teaching with Boxlight's new audio system – *MimioClarity*. MimioClarity is easy to set up and use so teachers can continue to focus on what is most important in their classrooms, their students and teaching.

MimioClarity™ is a classroom audio system consisting of a 60-watt amplifier and receiver combination, speakers, teacher and student microphones. The sound is evenly distributed throughout the room via speakers that are strategically placed in the classroom. Now teachers can use a quieter, more natural tone instead of straining to project their voice to the back of the room. The teacher microphone has a breakaway lanyard for safety along with a Page Up and Page Down button to control applications like MimioStudio, Google Slides, PowerPoint and other classroom presentation software.

- Every student will have the acoustical advantage associated with being close to the teacher, allowing them to hear and engage with the lesson and content.
- The MimioClarity system is a stand-alone or networked device allowing for easy management and updates, and even connecting with existing school audio systems.
- The microphones are lightweight and rechargeable, lasting all day so there is no interruption of instructional time.
- Up to four (4) microphones can be used in one classroom, giving a voice, not just to the teacher, but students too.
- With the MimioClarity microphones, all you hear is a clear voice.

Available in a variety of bundles to work with your room or class size.

WHOLE-CLASS LEARNING

MimioClarity Classroom Audio System

The MimioClarity system has superior sound quality, reliability, and is classroom-rugged.

MimioClarity RF means no unwanted interference with Wi-Fi or Bluetooth.

Microphones stay charged for up to 10 hours and work in every direction—no dead zones!

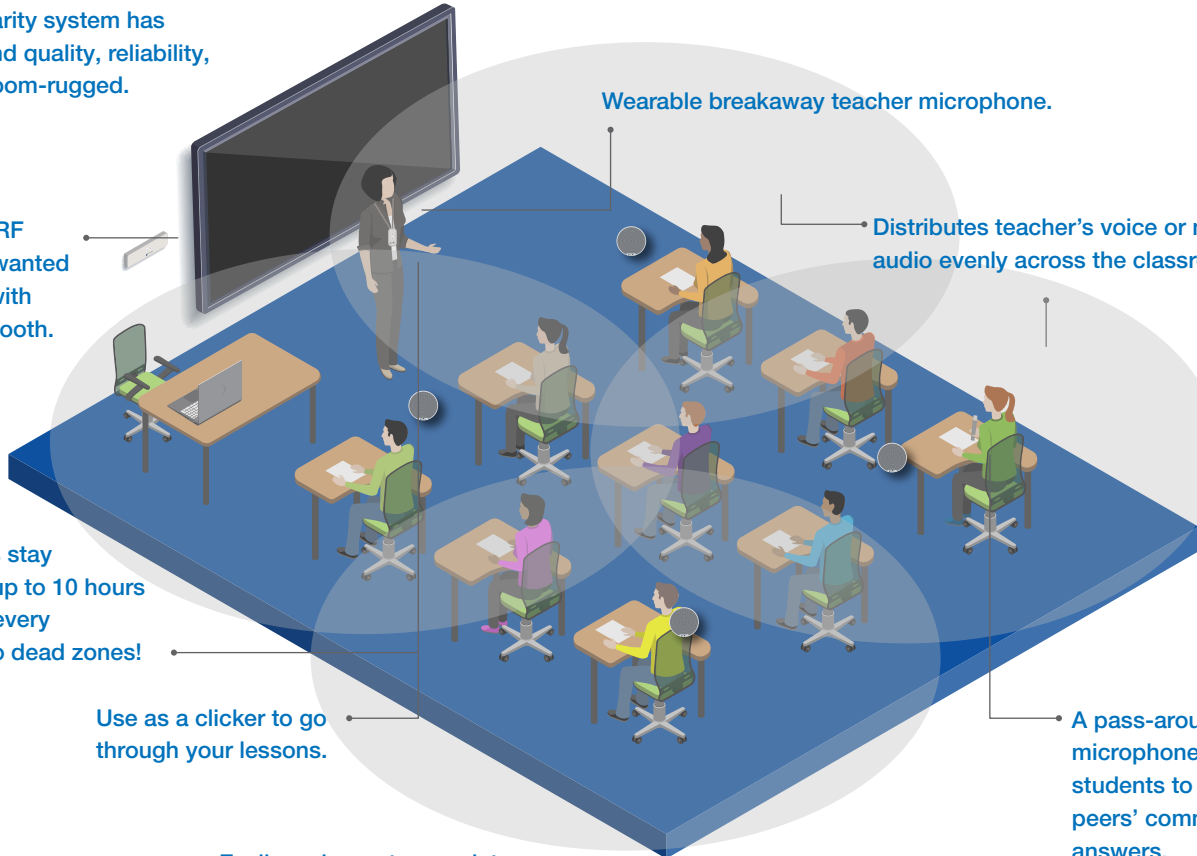

Use as a clicker to go through your lessons.

Easily make system updates through a web portal.

Wearable breakaway teacher microphone.

Distributes teacher's voice or multimedia audio evenly across the classroom.

A pass-around microphone allows all students to hear their peers' comments and answers.

Bundles

Choose from small or large classroom bundles, with teacher and student microphones, and two or four ceiling or wall-mounted speakers with plenum cable wiring. Additional speakers and accessories available.

Support You Can Count On

We know how important it is to feel confident in the tools you use every day, so we make sure you can count on our products and service. We offer flexible training resources, our MimioConnect® online educator community, and in-house, dedicated product specialists. Email, chat, or call us 24/7/365 and we will be there to support you.

Educator Community

Our online educator community is an extensive library of lesson plans for interactive whiteboards, and you can also share your own favorites with others. Become involved in discussions on our forums, or start your own group for sharing files and ideas. Get answers to your questions from experts, or take live online or on-demand courses that suit your timetable. **Join today at search.mimioconnect.com.**
