

Innovative absorbent and spill control products you can rely on

Absorbents and
Spill Control Catalog

Welcome to Brady SPC

Innovative absorbent and spill control products you can rely on

A history of reliability

Since its founding in Somerset, New Jersey nearly 40 years ago, SPC has been successfully developing, manufacturing and shipping absorbent products. Throughout the decades, our customers have relied on SPC products to help them prevent slips, trips and falls within their facilities.

Our guiding principles:

- Developing high quality products appropriately suited to your needs
- Providing unmatched service levels
- Leveraging our industry-leading sales force to recommend the right products for the right application

A future of innovation

Absorbents and spill control products are our focus. At Brady SPC, we've invested in our people, processes and facilities to ensure that we provide you with the best products for all of your spill control needs. We're here to support you – every step of the way.

State-of-the-art facility

2014 marked the beginning of a new chapter for Brady SPC in Louisville, Kentucky. Supported by a state-of-the-art facility, our investment provides you with:

- Increased manufacturing capacity to handle most any request
- Improved geographic positioning for better service

Product innovation

Product performance and an emphasis on safety continue to permeate everything we do. Backed by a history of innovation, we're committed to developing differentiated products that align with customer needs while maintaining costs.

Dedicated SPC team

Not sure where to start, or have questions about a specific product? You can count on our industry-leading sales team to help. Our inside sales representatives are ready to take your call, understand your needs and provide you with the right solution, while our outside sales managers will work with you on-site to find the right solution.

Distribution locations and sales support across the US

In addition to our reliable products, we support our customers through unmatched sales expertise. Warehouses strategically positioned throughout the United States help to ensure your spill products are delivered efficiently.

Did you know?

All Brady SPC meltblown polypropylene products are made in Louisville, Kentucky.

Why is spill control important?

When a spill occurs, having a proper spill control program that enables a quick and effective response can not only help to protect the environment, but also supports a safe and productive workplace for your employees.

Brady SPC supplies products that help you comply with EPA and OSHA regulations. Why does that matter? Because the cost of non-compliance can have devastating effects on a business's reputation and financial performance.

The EPA issued its final rule amending SPCC requirements under the authority of the Federal Water Pollution Control Act. This regulation became effective as of August 16, 2002.

The Poly-Edge Truck Mountable Spill Kit is designed to help you meet DOT spill containment regulations.

Need to know regulations

The following OSHA and EPA regulations protect your employees and the environment:

29 CFR 1910.22(a)(2) – Walking-Working Surfaces

The floor of every workroom shall be maintained in a clean and, so far as possible, a dry condition. Where wet processes are used, drainage shall be maintained, and false floors, platforms, mats, or other dry standing places should be provided where practicable.

40 CFR 112.7(c)(1)(viii) – General requirements for Spill Prevention, Control, and Countermeasure Plans

Sorbent materials are included in the types of prevention systems that must be used for spill containment.

29 CFR 1910.120(j)(1)(vii)

U.S. Department of Transportation specified salvage drums or containers and suitable quantities of proper absorbents shall be kept available and used in areas where spills, leaks, or ruptures may occur.

What is an SPCC plan, and do I need one?

A Spill Prevention Control and Countermeasure (SPCC) plan is a facility-specific, comprehensive plan outlining both the containment and countermeasures implemented to prevent a spill from occurring, and a series of response procedures in the event that one does occur. The SPCC plan addresses the following three areas:

- Operating procedures that prevent spills
- Control measures installed to prevent a spill from reaching the environment
- Countermeasures to contain, clean up and mitigate the effects of an oil spill that reaches the environment

Having an SPCC plan in place is an essential step to help companies avoid the costly impact of non-compliance, including fines as high as \$25,000 per day per violation.

Where do spills occur?

Not bound by the SPCC regulations? Having absorbents and spill kits on hand is still essential. The following facility diagram shows where spills most commonly occur. Take a look at these areas and keep them in mind when developing a spill control plan to keep your facility safe and compliant.

1

Exterior bulk storage

Oil-only products are ideal for outdoor leaks and spills because they absorb oil while repelling water.

2

Interior fluid storage

Consider specialty items like drum top covers and spill pallets to manage all types of leaks.

3

Machinery and equipment

SOCs surround machinery to prevent leaks while spill pillows are placed underneath.

4

Shipping and receiving

Keep spill kits near entrances to prevent spills from reaching the environment.

5

Production, assembly and maintenance

Make sure there are plenty of pads and rolls on hand. These general purpose items come in a variety of sizes to support your facility needs.

Not sure where to start? Let Brady SPC experts help.

We understand that surveying a facility for potential trouble spots, proper absorbent usage and product selection can be extremely time consuming and confusing. But, it is extremely beneficial.

- **Free absorbent survey**

Brady's absorbent survey is a free service designed to help you keep your employees and equipment safe. This detailed survey asks the right questions and identifies how Brady SPC and its distributors can provide solutions for the proper use of absorbents in the plant. Many organizations use these surveys as an "environmental audit" and keep them on file.

- **Cost savings worksheet**

Seeing is believing! This simple worksheet helps you compare the absorbents you are currently purchasing to our recommendations — quickly showing you the price difference and your cost savings.

selecting the right
absorbents for your
facility.

Do you know OSHA's recent silica ruling?

One of the most common compositions for granular absorbents is diatomaceous earth, which is 80-90% silica based.

OSHA's recent final rule on limiting exposure to respirable crystalline silica was issued to curb lung cancer, silicosis, chronic obstructive pulmonary disease and kidney disease.

All of which have been linked to high levels of silica.

Rely on Brady SPC absorbent pads and rolls as a safer, more efficient, non-silica solution for absorbing leaks, drips and spills.

Making the switch to absorbents

No facility is free from leaks, drips and spills. And, when it comes to keeping your employees and the working environment safe, you need a reliable and cost-effective absorbent solution.

Take a look at the comparisons below between clay granular, rags and SPC absorbent pads to determine what solution best fits your needs.

Clay granular

- **Pros:** Low cost per bag and product familiarity
- **Cons:** Messy, very low absorbency ratio (generally 1:1), labor intensive clean up and high disposal costs

Laundered rags

- **Pros:** Recycled and full system (products and disposal supported by the supplier)
- **Cons:** After each laundering, the rags lose some of their absorbency. Hard metals can never be completely removed, leading to significant health risks through exposure

SPC absorbent pads

- **Pros:** Absorb an average of 20x their weight, offer multiple configurations and constructions and lower disposal costs
- **Cons:** Higher up-front cost

Material details

	Clay granular (40 lb bag)	Rags (200 pads/drum)	SPC pads (100 pads/case)	
Gallons absorbed per week	20	20	20	gallons
Total material used	4 bags	170 rags	77 pads	per week
Total material costs	\$24	\$128	\$77	per week

Labor details

	Clay granular (40 lb bag)	Rags (200 pads/drum)	SPC pads (100 pads/case)	
Labor hours for clean-up	1	0.3	0.3	hours/week
Total labor costs	\$20	\$7	\$7	per week

Disposal details

	Clay granular (40 lb bag)	Rags (200 pads/drum)	SPC pads (100 pads/case)	
Drums disposed per week	1	(included)	0.15	per week
Total disposal costs	\$200	(included)	\$30	per week

Savings summary

	Clay granular (40 lb bag)	Rags (200 pads/drum)	SPC pads (100 pads/case)	
Weekly cost	\$244	\$135	\$114	per week
Annual cost	\$12,688	\$7,020	\$5,947	per year
Total cost after 5 year	\$63,440	\$35,100	\$29,733	over 5 years

\$33,667 or 47% savings
when using SPC pads over clay granular

*Values shown are for example purposes only and are based on average costs as published in 2016. Costs and savings may vary.

Choosing Your Absorbents

1 Step One: Know What You're Absorbing

Water- or oil-based fluids

SPC recommends: Universal Absorbents

Use around machinery, under leaky pipes, in messy traffic areas or for general maintenance projects. Re-Form™ universal absorbents are made of recycled materials and offer an environmentally friendly solution.

Oil-based fluids outdoors/water repelling

SPC recommends: Oil-Only Absorbents

Specialized for oil and other petroleum-based spills including paints and non-water soluble chemicals, these absorbents do not absorb water and float indefinitely. Re-Form™ oil-only absorbents are made of recycled materials and offer an environmentally friendly solution.

Hazardous chemical fluids

SPC recommends: Chemical Absorbents

Surfactant-treated polypropylene absorbents can be used on a wide range of chemicals, including hydrofluoric acid. They are chemically inert, so they will not react with aggressive fluids.

Keep in mind that absorbents take on the properties of whatever they absorb, so the bright color provides a visual indication to separate waste streams.

Looking to save time, effort and money?

Use a mid- to high-level universal product, like MRO100, as the standard in your facility. These absorbents can be used in a wide variety of applications and with a standardized absorbent, you do not have to manage the inventory of multiple items.

See all MRO Plus absorbents on page 18.

2 Step Two: Identify Your Application

General purpose wiping, drips and leaks

SPC recommends: Pads, Rolls, SOCs and Pillows

Pre-cut pads and perforated rolls provide easy access to absorbents for general purpose use around your facility. Use specialized SOCs and pillows around or underneath dripping equipment.

Heavy foot and forklift traffic

SPC recommends: Mats and Rugs

Mats and rugs offer greater durability to withstand harsh conditions. Barrier-backed options prevent liquid from penetrating the absorbent and reaching the floor underneath while printed mats warn of possible slip, trip and fall hazards.

Emergency spill response

SPC recommends: Spill Kits, Pallets and Drain Plugs

Spill kits bundle all of the necessary products to clean up an unexpected spill. Other spill containment options include spill pallets, drain plugs and storage centers.

Specialty absorbents

SPC recommends: Marine or Granular

Marine environments require boom, sweep and drag nets to remove fluids in, or near, bodies of water. Granular absorbents are available when loose absorbents are preferred or when acid/base neutralization is required prior to spill clean up.

Choosing Your Absorbents

3 Step Three: Select Absorbent Features

Coverstock

Durability of an absorbent increases with the addition of a coverstock layer.

- For simple drips or leaks, a 1-ply absorbent is all you need
- For wiping scenarios or foot traffic areas, a 3-ply absorbent will offer the necessary durability
- For abrasive applications, a pad with spunbond coverstock helps to reduce linting or tearing

3-ply construction
(2-sides coverstock)

Two layers of coverstock offer maximum durability and reduce linting or tearing.

2-ply construction
(1-side coverstock)

A single layer of coverstock offers medium durability and linting.

1-ply construction
(No coverstock)

Economical single-ply has lower durability resulting in high linting and tearing.

Absorbency weight

The absorbency weight can make a significant difference in how much product is required.

- For small spills, choose a light- or medium-weight product to avoid waste
- For large spills or continuous leaks, choose a heavy-weight product to reduce material use

Under-saturated

Absorbents aren't being used to their full potential. You're throwing money away!

Over-saturated

Absorbents aren't cleaning the whole spill. Increase the weight to get the job done with less product.

Dimpled surface

Dimpling increases product strength for areas requiring greater durability.

Smooth absorbents have greater surface area and are more absorbent per square inch compared to similarly constructed, dimpled products.

Non-dimpled

Offers more absorbent surface area.

Dimpled

Provides increased durability.

Perforations

Perforations provide a variety of size options by allowing you to quickly tear off exactly what is needed to contain the spill.

Single perforation

Featured on many pads and rolls.

Double perforation

Featured on many rolls and mats.

Triple perforation

Unique to the High Traffic Universal rolls.

Universal Absorbency

All-purpose indoor spill control

Universal Absorbency for water- or oil-based fluids

All-purpose absorbents clean-up oils, coolants, solvents and water-based fluids anywhere in your facility.

Around machinery, under leaky pipes or fittings, in messy traffic areas, for general maintenance projects — they are your first choice for indoor spill control. Plus, their gray color masks spills and stains, helping you resist the urge to pick up the absorbent before it is fully saturated.

Universal absorbent family

All universal pads and rolls start with a highly absorbent polypropylene core. From there, it's all about the application. Product families feature different weights, coverstocks and finishing to provide the right solution for your needs.

Liquids absorbed

- Coolants
- Solvents
- Oils
- Latex paint
- Gasoline
- Vegetable oil
- Kerosene
- Water-based fluids

Popular applications

- Wiping tools
- Small spills
- Under leaky pipes
- Around liquid storage containers
- Around machinery
- In messy traffic areas
- Under dripping valves
- General purpose maintenance

- Maintenance areas and liquid storage areas

MRO Plus® Absorbents

Brady SPC's number one universal absorbent and the standard in all-purpose maintenance absorbents.

- Universal absorbency to handle most fluids (water, petroleum and chemical based)
- 3-ply (MMM) meltblown polypropylene construction increases durability and reduces lint

Additional features

- **Perforated:** Select exactly the size you need
- **Dimpled:** Adds durability and reduces linting
- **Gray color:** Masks spills, reducing the urge to replace absorbents before fully saturated
- **Perforated boxes:** Support easy storage and dispensing

MRO Plus Pads

Pre-cut pads are ideal for wiping or catching drips.

Catalog #	Type	Size	Perforated	Absorbency Factor (gl/gs)	Absorbency Capacity (gal)	Shipping Wt. (lbs)	Pallet Qty.	Quantity

Universal Absorbency

BattleMat® Absorbents

Tough camouflage-patterned roll hides leaks and drips and is ideal for areas with moderate foot traffic.

- Universal absorbency to handle most fluids (water, petroleum and chemical based)
- Durable 2-ply construction is ideal for use in high traffic areas — foot or forklift traffic
- Abrasion-resistant upper layer helps reduce linting while meltblown fibers grip the floor below

Additional features

- **Perforated:** Select exactly the size you need
- **Camouflage pattern:** Masks spills, reducing the urge to replace absorbents before fully saturated

Product summary

- Absorbs:** Oils, coolants, solvents and water-based fluids
- Coverstock:** Camouflage-printed top coverstock (2-ply)
- Durability:** ✓ ✓ ✓
- Linting:** Low linting
- Absorbencies:** Heavy weight
- Cost:** \$\$\$

Recommended for

- Extra tough for foot and forklift traffic
- Walkways and high traffic areas
- Where there's a need to mask spills
- Under assembly lines, equipment or vehicles

Specialty product:

For high abrasion

UXT “Xtra Tough” Absorbents

Extra tough absorbents for applications that require high durability, non-linting and abrasion-resistance.

- Universal absorbency to handle most fluids (water, petroleum and chemical based)
- 3-ply construction with coverstock on both sides maximizes durability and minimizes linting
- Extra strength allows for wringing and re-use

Additional features

- **Perforated:** Select exactly the size you need
- **Dimpled:** Adds durability and reduces linting

Product summary

- Absorbs:** Oils, coolants, solvents and water-based fluids
- Coverstock:** Top and bottom coverstock (3-ply)
- Durability:** ✓ ✓ ✓
- Linting:** Low linting
- Absorbencies:** Heavy, medium and light weight
- Cost:** \$ \$ \$

Recommended for

- Wiping highly abrasive surfaces such as tools and machinery
- Machining, maintenance or food processing

Spill Response Plus Universal Absorbents

Convenient, portable size perfect for employees to fold or carry in their pockets for small spills.

- Universal absorbency to handle most fluids (water, petroleum and chemical based)
- Fine fiber coverstock on each side increases product versatility

Additional features

- **Perforated:** Select exactly the size you need
- **Dimpled:** Adds durability and reduces linting
- **Small size:** Clean up minor spills without wasting material

Re-Form™ Eco-Friendly Universal Absorbents for water- or oil-based fluids

Re-Form absorbent pads and rolls are eco-friendly, green products made of recycled materials. They feature the same universal absorbency as their polypropylene counterparts, making them ideal for coolants, solvents, oils and other water-based or petroleum-based fluids.

Re-Form absorbent materials have been tested to absorb 25-50% more than polypropylene materials, which means you'll use less product to absorb the same size spill.

Re-Form absorbents provide:

Better absorbency: Tested to be 25-50% more absorbent than standard polypropylene absorbents, so you'll use less product to get the job done.

Cost savings: Increased absorbency means reduced waste and greater cost savings.

Green product: Made from a minimum of 80% recycled fibers, unlike standard polypropylene absorbents. High absorbency, recycled materials give the products their greenish-blue color. A green product in more ways than one!

Sustainability: Supports corporate sustainability and LEED initiatives.

Class A fire retardant: Re-Form absorbents meet NFPA class A fire retardancy.

Why perforations?

Perforated pads and rolls allow you to quickly choose as large or as small of an absorbent as you need — cutting back on waste within your facility.

Re-Form Pro Plus Absorbents

The look, feel and performance of a traditional absorbent, but made from 90% recycled fibers.

- Universal absorbency to handle most fluids (water, petroleum and non-aggressive chemicals)
- Durable 3-ply construction is made of 90% recycled materials
- Extremely absorbent: absorbs 20 times its weight

Additional features

- **Eco-friendly:** supports corporate sustainability and LEED initiatives
- **Perforated:** Select exactly the size you need
- **Dimpled:** Adds durability and reduces linting

Oil-Only Absorbency

Absorbs oil and repels water

Oil-Only Absorbency

Absorb oil- and petroleum-based fluids while repelling water

Oil-only absorbents are specially designed to clean-up oils and petroleum-based liquids while also repelling water and floating indefinitely.

Unaffected by temperature and impervious to rot and mildew, oil-only absorbents are an ideal choice for outdoor use, in bodies of water or anywhere that water may be inadvertently absorbed.

Oil-only absorbent family

All oil-only pads and rolls start with a highly absorbent polypropylene core. From there, it's all about the application. Product families feature different weights, coverstocks and finishing to provide the right solution for your needs.

Liquids absorbed

- Drilling and cutting fluids
- Hydraulic and brake fluids
- Engine oils
- Transmission fluids
- Lubricants
- Gasoline, diesel and aircraft fuels
- Cooking oils
- Oil-based paints and solvents
- Other oils and petroleum-based fluids

Popular applications

- Outdoors
- Around bodies of water
- Wiping tools
- Small spills
- Under leaky pipes
- Around machinery
- Outdoor storage containers
- Under dripping valves
- Other general purpose maintenance

Why repel water?

Many spills occur outdoors near bodies of water or during inclement weather. Oil-only absorbents repel that water ensuring that all of your pad's absorbency is used to pick up the oil.

Re-Form Oil-Only Absorbents

Eco-friendly oil-only absorbent offering superior absorbency — absorbs more than 30 times its weight.

- Oil-only absorbency for petroleum-based oils, solvents and other non-water soluble liquids
- Floats indefinitely even when saturated with oil
- 3-ply construction with top and bottom coverstock, all made from 80% natural cellulose fibers
- Class A fire retardant

Additional features

- **Perforated:** Select exactly the size you need
- **Eco-friendly:** Supports corporate sustainability and LEED initiatives

Product summary

- Absorbs:** Oils, coolants, solvents and oil-based fluids
- Coverstock:** Top and bottom coverstock (3-ply)
- Durability:** ✓ ✓
- Linting:** Low linting
- Absorbencies:** Heavy weight
- Cost:** \$ \$ \$

Recommended for

- Anywhere there is a leak, drip or spill
- Production/machine areas
- Maintenance areas

Catalog #	Type	Size	Perforated	Absorbency Factor (g/gs)	Absorbency Capacity (gal)	Shipping Wt. (lbs)	Pallet Qty.	Quantity
Pads								
RFODP100	Heavy-weight pad	15 in. x 19 in.	Yes, 7.5 in.	30	39	12	18	100/case

Re-Form absorbents are not intended for use with highly aggressive chemicals.

Cost savings with Re-Form absorbents

Re-Form absorbents have tested to be up to 50% more absorbent than their polypropylene counterparts. This can make a significant impact on the amount of product you need to get the job done.

Less product used = cost savings for you!

Chemical Absorbency

Color-coded for safety

Chemical Absorbency For when chemical-based fluids are present.

Alert your employees to the presence of hazardous fluids with green and yellow chemical absorbents from Brady SPC. These surfactant-treated polypropylene pads and rolls can be used on a wide range of chemicals and are chemically inert, so they will not react with aggressive fluids.

Chemical absorbent family

All chemical pads and rolls start with a highly absorbent polypropylene core. From there, it's all about the application. Product families feature different weights, coverstocks and finishing to provide the right solution for your needs.

Liquids absorbed

- Acids and bases
- Aggressive chemicals
- Sodium hydroxide
- Solvents
- Citric acid
- Water-based fluids
- Oil-based fluids
- Other unknown chemicals

Popular applications

- Anywhere hazardous chemicals may be present
- Bulk chemical storage containers
- Nuclear power plants
- Laboratories
- Hospitals
- Pharmaceuticals and any industry utilizing chemicals
- Chemical manufacturing
- To recognize chemical waste stream

Warning

Wiping

Drips

		Product Family	Durability	Linting	Absorbency Weights	Cost	Coverstock
Specialty Applications	For areas with a high slips, trips and falls risk	BRIGHTSORB™ High-Visibility Pads and Rolls	✓✓	Low linting	Heavy Medium Light	\$\$\$	Top durable spunbond coverstock (2-ply)
	For general purpose wiping and dripping applications	Universal Plus Pads and Rolls	✓✓	Medium linting	Medium	\$\$\$	Top and bottom fine-fiber coverstock (3-ply)
	Economical all-purpose chemical absorbent	BASIC Chemical Pads and Rolls	✓	High linting	Heavy Light	\$	No coverstock (1-ply)
	Portable pocket-sized for small spills	Spill Response Plus Chemical Pads and Rolls	✓✓	Medium linting	Heavy	\$\$	Top and bottom fine-fiber coverstock (3-ply)

Increase safety and savings: Color coded waste stream

Save on disposal costs by using different colored absorbents in specific parts of your facility and throughout your waste streams.

For example: a facility might use yellow absorbents in radioactive areas and green absorbents in their chlorine areas. Then the facility would use gray universal absorbents for the rest of their facility.

A color coded system benefits your employees' understanding of the waste stream because they will assume yellow absorbents are saturated with radioactive waste and green absorbents are saturated with chlorine.

Chemical Pads and Rolls

Product summary

Absorbs: Acids, bases, oils, chemicals, solvents, water-based fluids, unknown chemicals

Coverstock: Safety printed top coverstock (2-ply)

Durability: ✓✓

Linting: Low linting

Absorbencies: Heavy, medium and light weight

Cost: \$\$\$

Recommended for

- Areas with slip, trip and fall hazards
- Foot traffic areas
- Drips and spills involving hazardous chemicals
- Any industrial application utilizing aggressive fluids

BRIGHTSORB™ High-Visibility Safety Absorbents

Color and print make it ideal for areas where the risk of slips, trips and falls is greatest.

- Chemical absorbency for areas where chemicals may be present
- Product will not react with aggressive fluids
- 2-ply construction increases durability and reduces lint

Additional features

- **Perforated:** Select exactly the size you need
- **Dimpled:** Adds durability and reduces linting
- **Printed message:** Warns of slips, trips and falls
- **Bright color:** Warns of presence of leaks, drips or spills even in low light

BRIGHTSORB Pads

Pre-cut pads are ideal for wiping or catching drips.

Catalog #	Type	Size	Perforated	Absorbency Factor (gl/gs)	Absorbency Capacity (gal)	Shipping Wt. (lbs)	Pallet Qty.	Quantity
CH100	Heavy-weight pad	15 in. x 19 in.	Yes, 7.5 in.	18	28	16	30	100/case

CH1212-50	Medium-weight pad*	12 in. x 12 in.	Yes, 6 in.	12.5	7.5	4	72	50/case
CH200	Light-weight pad	15 in. x 19 in.	Yes, 7.5 in.	18	28	16	22	200/case

* Absorbent does not have print.

BRIGHTSORB Rolls

Continuous rolls are ideal for covering larger areas.

Perforations make it easy to select smaller sizes when needed.

Catalog #	Type	Size	Perforated	Absorbency Factor (gl/gs)	Absorbency Capacity (gal)	Shipping Wt. (lbs)	Pallet Qty.	Quantity
CH30DP	Heavy-weight roll	30 in. x 150 ft.	Yes, 15 in. and every 15 in.	12.5	40	25	12	1/case
CH15P	Heavy-weight roll	15 in. x 150 ft.	Yes, every 18 in.	12.5	20	14	24	1/case
CH303	Medium-weight roll	30 in. x 300 ft.	Yes, 15 in. and every 15 in.	12.5	70	40	8	1/bale

Slip, trip and fall hazards

Slips, trips and falls are one of the greatest issues for organizations, accounting for **1 in 6 lost-time injuries and 96 million workdays lost** per year.¹ One of the most frequent causes of slips, trips and falls is a wet work surface.

Brady SPC's BRIGHTSORB High Visibility Safety line helps prevent these incidents and injuries through its bright, highly-visible yellow color as well as the iconic "slipping man" logo for multi-lingual caution messaging.

SOCs, Pillows and Drum Covers

For every leak, drip and spill need

SOCs, Pillows and Drum Covers

For every leak,
drip and spill need

Specialty absorbent products including SOCs, pillows and drum covers can be used around a facility when a pad or roll may not be sufficient. The unique style of these products allows you to place the absorbent exactly where you need it.

Liquids absorbed

- **Universal absorbency:** Coolants, solvents, oils, paint and other water-based fluids
- **Oil-only absorbency:** Oils, coolants, solvents and other oil-based fluids (repels water)
- **Chemical absorbency:** Acids and bases, aggressive chemicals and other unknown chemicals

Popular applications

- Wrap a SOC around your machine to stop leaks from reaching the floor
- Place a pillow in a tight space between machines to catch splashes or overspray
- Keep drum storage areas clean and dry with pre-cut drum covers

SOCs

Absorbent SOC's are dependable, flexible tubes that contain and absorb liquids. SOC's mold around corners and conform to uneven surfaces to soak up spills and drips, preventing fluid from escaping to other areas.

- Available in universal, oil-only and chemical absorbencies

Pillows

Absorbent pillows are ideal for use under spill pallets or machines that are known to drip or leak. Pillows are easy to retrieve, and can soak up oil and water-based fluids in hard-to-reach areas including sumps, catch basins and outdoor ponds.

- Available in universal, oil-only and chemical absorbencies

Drum Covers

Absorbent drum covers help eliminate messy drips and overflow when mixing or pumping liquids from drum barrels. Brady SPC drum covers keep drums, the floor and surrounding storage areas dry and clean.

- Available in universal and oil-only absorbencies

Flexible Absorbent SOC's

	Chemical based	HAZWIK® Chemical SOC's	✓	Polypropylene	-	Color identifies presence of chemicals for correct disposal 

*Re-Form absorbents are not intended for use with highly aggressive chemicals.

SOC usage tips

- Clean-up all loose materials, rags and other debris around the spill
- Prior to placement, shake SOC vigorously to evenly distribute absorbent within
- For best results, lay flat against the floor and overlap the SOC ends approximately 5 inches for extra spill protection
- Replace your SOC when liquid begins pooling or seeping underneath

SOCs, Pillows and Drum Covers

Universal SOC

- All-purpose SOC to clean-up oils, coolants, solvents and water-based fluids throughout your facility.
- Gray color masks spills and stains — helping you resist the urge to pick up the absorbent before it is fully saturated.

Spill pallets also available

Prevent liquid from reaching the floor by making sure your drums are placed on spill pallets. These pallets also help you comply with governmental secondary containment regulations.

Brady SPC spill pallets are available in a variety of sizes and are forklift friendly for easy re-location of your 55-gallon drums throughout your facility.

See page 91 for more details.

Mats and Rugs

Clean, dry floors help prevent
slips, trips and falls

Mats and Rugs For foot and forklift traffic

Brady SPC absorbent mats and rugs help keep aisles and walkways slip-free by absorbing and containing oils, liquids or other spills. They are designed to hold up under the toughest conditions and are ideal for high-traffic areas and workstations. Compared to an entrance mat, absorbent mats and rugs offer better traction and reduce the tracking of liquids from one area to another.

Mat and rug family

Brady SPC absorbent mats and rugs are constructed from a variety of more durable polypropylene materials. Featuring barrier backings and tighter fiber weaves, these products will stand up to higher-traffic areas. This technology means that fibers or absorbent materials will not come loose around high-traffic areas or workstations.

Liquids absorbed

- Bases
- Solvents
- Oils
- Water-based fluids
- Chemicals

Popular applications

- Heavy foot traffic
- Aisles and walkways
- Around workstations
- To reduce tracking liquids throughout facility

Need to know OSHA regulation

29 CFR 1910.22(a)(2) – Walking-Working Surfaces

The floor of every workroom shall be maintained in a clean and, so far as possible, a dry condition. Where wet processes are used, drainage shall be maintained, and false floors, platforms, mats or other dry standing places should be provided where practicable.

Specialty product:
Adhesive backed

TOUGHSORB™ Permanent and Semi-Permanent Adhesive Mats

Easy adherence for high-traffic aisles and walkways. Choose from permanent or semi-permanent options.

- Universal absorbency to handle most fluids (water, petroleum and chemical based)
- Strong needle-punched polypropylene with an adhesive backing

Additional features

- **Adhesive backing:** Permanent or semi-permanent adhesive backing adheres to surfaces to keep the absorbent in place and reduce slips, trips and falls.

Product summary

- Absorbs:** Oils, coolants, solvents and water-based fluids
- Construction:** Adhesive backing (2-ply)
- Durability:** ✓✓✓
- Linting:** Low linting
- Absorbencies:** Heavy and medium weight
- Cost:** \$\$\$

Recommended for

- Aisles and walkways
- Areas with high foot and forklift traffic
- Lining entrances and exits
- Lining tool cribs and work surfaces

Permanent adhesive mat is protected by clear liner that must be removed prior to use.

Semi-permanent adhesive mat can be applied and removed as needed, making it ideal for floors and work surfaces.

Specialty product:

Barrier backed

BSM Barrier Spill Mat

Industrial rug with non-slip and leak-proof barrier backing for use in high-traffic areas and around workstations.

- Universal absorbency to handle most fluids (water, petroleum and chemical based)
- Strong needle-punched polypropylene with a non-skid backing
- Durable for high-traffic areas and helps eliminate slippery areas and unsightly tracking
- Tear-resistant and will not curl or buckle

Additional features

- **Non-skid barrier backing:** Prevents liquid from reaching the floor underneath while tacky underside reduces slips, trips and falls
- **Gray color:** Masks spills, reducing the urge to replace absorbents before fully saturated

High-Traffic (HT) Barrier-Backed Mat

Universal absorbent with added durability to stand up to the toughest conditions.

- Universal absorbency to handle most fluids (water, petroleum and chemical based)
- Non-skid, barrier-backed 3-ply construction with spunbond coverstock for ultimate durability
- Printed safety message reminds workers to exercise caution near high-risk slip, trip and fall areas

Additional features

- **Printed message:** Warns of slips, trips and falls
- **Barrier backing:** Prevents liquid from reaching the floor underneath
- **Gray color:** Masks spills, reducing the urge to replace absorbents before fully saturated

Product summary

- Absorbs:** Oils, coolants, solvents and water-based fluids
- Construction:** Safety printed coverstock and barrier backing (3-ply)
- Durability:** ✓ ✓ ✓
- Linting:** Low linting
- Absorbencies:** Heavy weight
- Cost:** \$\$\$

Recommended for

- Aisles and walkways
- High-traffic areas prone to leaks, drips and spills
- Areas where a subtle safety messaging is desired

Specialty product:

Barrier backed

TrackMat Matting

The ultimate barrier absorbent for high-volume petroleum spills.

- Universal absorbency to handle most fluids (water, petroleum and chemical based)
- Extremely durable absorbent with UV-resistant top layer makes it ideal for outdoor applications

Additional features

- **Non-slip barrier backed:** Prevents liquids from penetrating into the ground
- **Dimpled:** Adds durability and reduces linting

Product summary

Absorbs: Oils, coolants, solvents and water-based fluids

Construction: Non-slip barrier backing (2-ply)

Durability: ✓✓✓

Linting: Low linting

Absorbencies: Heavy weight

Cost: \$\$\$

Recommended for

- Where strength, absorbency and impermeability are needed
- Transportation companies
- Refineries and steel mills
- Railway or military

Specialty product:

Moderate traffic

SIR Sorbent Industrial Rug

Designed for moderate traffic areas and workstations where there's a need for clean and safe work floors and walkways.

- Universal absorbency to handle most fluids (water, petroleum and chemical based)
- Durable, needle-punched polypropylene fibers for moderate traffic areas (1-ply)
- Eliminates slippery areas and unsightly tracking between the plant and office areas

Additional features

- **Gray color:** Masks spills, reducing the urge to replace absorbents before fully saturated

Product summary

Absorbs: Oils, coolants, solvents and water-based fluids

Construction: Needle-punched polypropylene (1-ply)

Durability: ✓✓✓

Linting: Low linting

Absorbencies: Heavy weight

Cost: \$\$

Recommended for

- Vehicles repair and service
- Warehouse and container terminal
- Surface protection during renovation
- Marine spills/wildlife preservation

Marine Absorbents

High absorbency on the water

Marine Absorbents

High absorbency on the water

Brady SPC marine absorbents are specially designed to float on water and contain or absorb a wide variety of marine fuels and oils. From containment to booming and skimming operations, these absorbents will soak up unwanted fluids on lakes, rivers, streams and coastal shorelines. Marine absorbent products are made for high absorbency and rapid deployment in demanding emergency situations.

Liquids absorbed

- Oils
- Oil-based chemicals
- Solvents

Popular applications

- Marinas
- Boats and ships
- Loading docks
- Affluent pipes
- Outdoor liquid transfer points
- Fuel storage tanks

Absorbent booms

Brady SPC absorbent booms are designed to help you clean up oil spills on water by absorbing surface liquids.

Booms are constructed of highly absorbent polypropylene fibers encased in a durable skin that is lined with a heavy-duty tow rope. The booms are fastened with three stainless steel connectors to allow for linkage and fast deployment in emergency situations, as well as for strength during retrieval or when towing heavy booms saturated with oil.

Premium SPC® Oil-Only Booms

- Oil-only booms absorb oil- and petroleum-based liquids while repelling water and floating indefinitely
- Strong, lint-free and gapless
- SPC5510 features two 5 in. x 10 ft. booms attached side by side for a double layer of absorption

Economical ENV® Oil-Only Booms

- Oil-only booms absorb oil- and petroleum-based liquids while repelling water and floating indefinitely
- Features interconnectivity and a lint-free blue sleeve

Universal Plus Chemical Booms

- Universal Plus booms absorb water-, oil- and chemical-based liquids
- Can be deployed indoors or outdoors

Premium SPC®

*SPC5510 features 4 booms tethered in pairs for a double layer of absorbency.

Containment booms

- Designed to work as a containment barrier in order to keep oil spills on water from spreading
- Ideal for use in holding ponds to retain waste and debris on the surface of the water

Catalog #	Type	Size	Shipping Wt. (lbs)	Pallet Qty.	Quantity
CB612	Boom	6 in. float, 12 in. skirt, 100 ft. sections	200	3	1/case
CB305	Boom	3 in. float, 4.5 in. skirt, 25 ft. sections	22.5	11	1/case

Designed as a containment barrier to prevent spills from spreading

Sweeps and pillows

- Sweeps feature a 2-ply construction with durable blue coverstock for extra strength (for use with oil- and petroleum-based fluids)
- Help skimming operations by effectively removing surface oil from the water
- 100 ft. sections are ideal for dragging behind or connecting between two ships

Catalog #	Type	Size	Absorbency Factor (gl/gs)	Absorbency Capacity (gal)	Shipping Wt. (lbs)	Pallet Qty.	Quantity

BRIGHTSORB™ **Safety Absorbents**

High visibility for low light areas

Safety Absorbents

BRIGHTSORB™ High-Visibility Absorbents and Spill Kits

Alert your employees to the presence of safety hazards with the use of absorbents that feature printed safety messaging and bright coloring. These polypropylene pads and rolls can be used on a wide range of fluids, and are chemically inert, so they will not react with aggressive fluids.

BRIGHTSORB high visibility family

All BRIGHTSORB absorbents start with a highly absorbent polypropylene core. The incorporation of safety messaging helps promote a culture of safety by providing a reminder to employees in the area to exercise a greater level of caution. Bright coloring is easily visible — even in low light conditions.

Liquids absorbed

- Water-based fluids
- Oil-based fluids
- Aggressive chemicals

Popular applications

- Anywhere hazardous chemicals may be present
- Low light areas
- Areas where slips, trips and falls are prevalent
- High traffic areas
- Lining workbenches and work cells
- General manufacturing and production

Did you know? Slips, trips and falls...

... are one of the leading causes of unintentional injuries in the U.S., accounting for **approximately 8.9 million emergency room visits**¹

... account for **15% of all accidental deaths**, the second leading cause behind motor vehicles²

... lead to over **17% of all disabling occupational injuries**³

... **could be prevented with the right precautions**

BRIGHTSORB High-Visibility Pads and Rolls

- Polypropylene pads and rolls handle most fluids (water, petroleum and chemical based) and will not react with aggressive fluids
- Tough 2-ply construction increases durability and reduces lint
- Pads are ideal for wiping or catching drips while continuous rolls are ideal for covering larger areas

Additional features

- **Perforated:** Select exactly the size you need
- **Dimpled:** Adds durability and reduces linting
- **Printed message:** Warns of slip, trip and fall hazards
- **Bright color:** Color-coded for safety even in low light

Product summary

- Absorbs:** Acids, bases, oils, chemicals, solvents, water-based fluids, unknown chemicals
- Coverstock:** Safety-printed top coverstock (2-ply)
- Durability:** ✓ ✓
- Linting:** Low linting
- Absorbencies:** Heavy, medium and light weight
- Cost:** \$\$\$

Recommended for

- Areas with slip, trip and fall hazards
- Foot traffic areas
- Drips and spills involving hazardous chemicals
- Any industrial application utilizing aggressive fluids

BRIGHTSORB High-Visibility Spill Kits

Kits include everything you need to contain your spill — a variety of absorbents, PPE and instructions. BRIGHTSORB polypropylene spill kits handle most fluids (water, petroleum and chemical based) and will not react with aggressive fluids. Their bright color and printed message warn of the potential for slip, trip and fall hazards during spill clean-up.

BRIGHTSORB MAXX® Packs

- Mini-packs in resealable zipper bags
- Kit dimensions: 15.5 in. x 19.5 in. x 20.5 in.

Contents:

- 20 pads (15 in. x 19 in.)

Granular and Neutralizers

Loose, multi-purpose absorbents

Granular and Neutralizers

Loose, multi-purpose absorbents

Granular absorbents are loose, multi-purpose absorbents used for liquid spill clean-up, lab packing and stabilization of free liquids. These absorbents are ideal for facilities that prefer or require the use of traditional granular absorbents.

Neutralizing polymers provide safe spill control for most acids, including battery spills. Color change indicates when neutralization has taken place.

The small, loose particles of a granular absorbent make it ideal for applications where a pad or roll would not offer a proper fit. Liquids don't always spill on a smooth surface. In those instances, a granular absorbent can absorb liquids from the cracks and crevices of a variety of surfaces.

Liquids absorbed

- Oils
- Chemicals
- Solvents

Popular applications

- Absorbing oils, solvents, lubricants, coolant and water on uneven surfaces including on roads or parking lots
- Acid or base spills requiring neutralization prior to spill cleanup

Must know OSHA silica ruling:

One of the most common compositions for granular absorbents is diatomaceous earth, which is 80-90% silica based.

OSHA's final rule on limiting exposure to respirable crystalline silica was issued in 2016 to curb lung cancer, silicosis, chronic obstructive pulmonary disease and kidney disease. All of which have been linked to high levels of silica.

Rely on Brady SPC absorbent pads and rolls as a safer, more efficient, non-silica solution for absorbing leaks, drips and spills.

SpillFix® Granular Absorbent

The new standard in loose absorbents

- Completely natural — no carcinogens, no dust indoors; landfill and incinerator safe outdoors
- Highly effective — absorbs hydrocarbons, chemicals and water-based solutions
- Workplace friendly — natural construction prevents damage to equipment or floors; a regular occurrence with clay-based granulars
- Deploy indoors or outdoors to clean up spills in hard to reach areas

4X more absorbent

A 20 lb bag of SpillFix granular absorbs 4x the liquid of traditional clay granulars

SpillFix Granular Absorbent

- Premium absorbent solution constructed of 100% recycled material
- Extremely effective in the absorption of hydrocarbons, water-based fluids and most aggressive chemicals
- Certified safe for landfill disposal
- Lightweight and easy to deploy

Spill Kits and Containment

Keeping you safe from unexpected spills or leaks

Spill Kits and Containment

Spill Kits and Containment

Keeping you safe from unexpected spills or leaks

A proper spill containment plan can help create a safe and productive work environment for your employees. Brady SPC spill containment products help to prepare and protect any facility with solutions for unexpected accidents. Absorbent storage centers and spill kits provide fast-response solutions for unplanned spills of oils, solvents, coolants and other fluids. Brady SPC drain plugs, spill decks, berms, pans and pallets also help ensure facility safety by catching, controlling and containing unexpected leaks, drips and spills.

Liquids absorbed

- **Universal absorbency:** Coolants, solvents, oils, paint and other water-based fluids
- **Oil-only absorbency:** Oils, coolants, solvents and other oil-based fluids (repels water)
- **Chemical absorbency:** Acids and bases, aggressive chemicals and other unknown chemicals

Popular applications

- Accidental or unexpected spills
- Indoor and outdoor drain applications
- Drain pans for dripping valves or faucets
- Storing absorbent products at the point of need

Drain Protection

EPA regulations require that facilities prevent fluids from entering the environment. To effectively prevent run-off from reaching storm drains, make sure to have the appropriate drain protection on hand.

Drain Plugs

- Conical-shaped drain plugs made from chemical-resistant PVC keep spills from entering the drainage system and feature a “metal eye” for easy insertion or removal. Then just rinse and re-use when finished

Catalog #	Type	Size	Shipping Wt. (lbs)	Pallet Qty.	Quantity
PLUG6	Drain plug	6 in.	6	50	1/case
PLUG4	Drain plug	4 in.	4	50	1/case
PLUG3	Drain plug	3 in.	3	50	1/case
PLUG2	Drain plug	2 in.	2	50	1/case

Drain Seals

- Resist water, oil and most aggressive fluids
- Easy application; soap and water cleanup for re-use
- SLIKSTOPPER drain seals are made from flexible, chemical resistant PVC and help prevent spills from flowing into drainage systems
- Spill Magnet Seals are backed with a strong magnet to tightly seal drains

SLIKSTOPPER

Spill Kits and Containment

Drip Pans and Mats

SPC spill containment products are designed with your efficiency in mind — keeping your employees and work environment safe from unexpected drum spills or leaks.

Drip Pans

- Durable, low profile, polyethylene drip pans easily fit under leaky drum spigots and other problem areas
- Pan and universal fill captures up to 3/4 of a gallon of liquid

Catalog #	Type	Size	Shipping Wt. (lbs)	Pallet Qty.	Quantity
DPA24	Drip pan	10 in. x 10 in.	6	20	24/case

Drip Pads

- Provide additional durability to your pads for tougher environments
- 22 oz pad is made of flexible PVC
- 30 oz pad is made of XR5 for additional strength under the toughest conditions
- Grommet included to allow pad to be tied down

Catalog #	Type	Size	Shipping Wt. (lbs)	Pallet Qty.	Quantity
DRIP1720-Y	22 oz pad	17 in. x 20 in.	2	n/a	1/each
DRIP1720-B	30 oz pad	17 in. x 20 in.	2	n/a	1/each

Spill Decks and Pallets

SPC spill containment products help keep your employees and work environment safe from unexpected drum spills or leaks during storage and collection.

- **Solid construction:** Injection molding ensures exceptional durability and consistent specifications
- **Standard lip and grate heights:** Manufactured to standard heights to allow uninhibited movement
- **Nestable:** Remove the grates and stack for storage
- **Grate pins:** Pins keep the grates in place during use and prevent the walls from bulging
- **Interchangeable grates with large openings:** Removable grates can be used with spill decks or spill pallets (even between 2- and 4-drum pallets)

Forklift friendly:
Easily re-locate your decks or pallets

Spill Decks

- Low profile, 21.2 gallon capacity, 2-drum spill decks
- Contain hazardous leaks in your drum storage and dispensing areas
- Built-in clips easily connect multiple decks — creating a 4, 6, 8 or more drum storage platform

Catalog #	Type	Size	Absorbency Capacity (gal)	Load Cap. (lbs)	Shipping Wt. (lbs)	Pallet Qty.	Quantity
SC-SD2	2-drum spill deck	26 in. x 52 in. x 6 in.	21.2	2,500	31	15	1/each

Spill Pallets

- Comply with governmental secondary containment regulations
- Capacity up to 128 gallons
- 2-drum or 4-drum configuration

Catalog #	Type	Size	Absorbency Capacity (gal)	Load Cap. (lbs)	Shipping Wt. (lbs)	Pallet Qty.	Quantity
SC-DP4	4-drum pallet	52 in. x 52 in. x 17 in.	128	2,200	89	10	1/each
SC-DP2	2-drum pallet	26 in. x 52 in. x 17 in.	68	1,100	46.5	10	1/each
SC-DPR	Pallet ramp	32.5 in. x 70 in.	n/a	650	47.5	3	1/each

Easy loading ramp (sold separately) works with both the 2-drum and 4-drum spill pallets.

Spill Kits and Containment

Spill Berms

These collapsible secondary containment berms can be used to contain spills and leaks from vehicles, machinery, tanks, drums and other industrial equipment.

Foam Side Wall Berm

- Portable, lightweight, flexible — folds up for storage and transport
- Re-useable berm is easy to clean and maintain
- Requires no assembly, tools or inflation — unfold and use immediately

Catalog #	Type	Size	Absorbency Capacity (gal)	Shipping Wt. (lbs)	Quantity
FW181804-Y	Foam berm	18 in. x 18 in. x 4 in.	5	2	1/each
FW242404-Y	Foam berm	24 in. x 24 in. x 4 in.	9	2.4	1/each
FW363604-Y	Foam berm	36 in. x 36 in. x 4 in.	20	3.8	1/each
FW484804-Y	Foam berm	48 in. x 48 in. x 4 in.	36	5.5	1/each
FW486004-Y	Foam berm	48 in. x 60 in. x 4 in.	45	6.4	1/each
FW487204-Y	Foam berm	48 in. x 72 in. x 4 in.	54	7.4	1/each

L-ROD Berm

- Fully collapsible and can be rapidly deployed
- RF welded construction made of chemical- and hydrocarbon-resistant polyester
- Aluminum L-Rods support the berm walls, but are easily folded to allow for entry/exit of vehicles or machinery
- Re-useable berm is easy to clean and maintain

Catalog #	Type	Size	Absorbency Capacity (gal)	Shipping Wt. (lbs)	Quantity
LROD101012	L-ROD berm	10 ft. x 10 ft. x 1 ft.	675	42	1/each
LROD101512	L-ROD berm	10 ft. x 15 ft. x 1 ft.	1,010	57	1/each
LROD102012	L-ROD berm	10 ft. x 20 ft. x 1 ft.	1,350	73	1/each
LROD151512	L-ROD berm	15 ft. x 15 ft. x 1 ft.	1,520	78	1/each
LROD202012	L-ROD berm	20 ft. x 20 ft. x 1 ft.	2,695	125	1/each

Vehicle Spill Berm

- Self-contained berms feature single piece construction for enhanced durability
- Requires no assembly, tools or inflation

Catalog #	Type	Size	Shipping Wt. (lbs)	Quantity
SB-1236	Vehicle spill berm	12 ft. x 36 ft. x 1 ft.	149	1/each
SB-1226	Vehicle spill berm	12 ft. x 26 ft. x 1 ft.	112	1/each

Absorbent Storage

Absorbent storage centers help to ensure fast spill response by keeping absorbents close to the point of need when an unplanned spill occurs.

Absorbent Center

- Use as a deployment station or mobile spill control unit
- Fits up to a 38 inch roll and full bales of pads
- Stack two or three to make a cabinet, hang it on the wall, or place it under your workbench

Catalog #	Type	Size	Shipping Wt. (lbs)	Pallet Qty.	Quantity
SC-3000	Absorbent center without casters	50 in. x 26 in. x 21.5 in.	50	15	1/each
SC-ACC	Accessory pack	Includes goggles, gloves, disposal bags with ties and an emergency handbook.			1 pack
SC-4	Set of 5 casters	-	n/a	n/a	1 pack
SC-MB	Wall mount	n/a	n/a	n/a	1 each

* Absorbents sold separately.

SC-Cabinet-UF	Universal fill	20 in. x 20 in. x 20 in.	21	12	1/each
SC-Cabinet-OF	Oil-only fill	20 in. x 20 in. x 20 in.	21	12	1/each
SC-Cabinet-HF	Chemical fill	20 in. x 20 in. x 20 in.	21	12	1/each

* Absorbents sold separately.

Are you prepared?

Absorbent programs should have both general maintenance absorbents and emergency spill response products on hand at all times for proper protection.

Emergency Response Spill Kits

Accidents happen, so it's better to be prepared. Brady SPC offers a complete selection of spill kits in a variety of types and sizes to equip you with everything you need to clean-up spills when they occur. Quickly and easily clean-up oils, solvents, coolants and other fluids. They are ideal for fast response to critical accidents.

Liquids absorbed

Universal	For oil, water-based and chemical liquids
Oil Only	For oil and petroleum-based liquids
Mixed (Includes universal and oil-only)	For indoor/outdoor use. Kits contain both all-purpose universal absorbents and water-repellent oil-only absorbents for petroleum and oil-based liquids
Chemical	For aggressive and hazardous liquids
BRIGHTSORB™ High-Visibility Safety Absorbents	For all liquids. Safety messaging signals to those in and around the spill containment area to exercise caution
Re-Form	Universal absorbents that are eco-friendly
TAA Compliant	Complies with the Trade Agreements Act

Where should spill kits be located?

Worker productivity and efficiencies can be improved dramatically by strategically placing spill kits or absorbent storage centers around the facility, closer to areas of need. For both emergency response and routine maintenance and safety, employees should not be wandering away from their workstation to the other side of the plant or tool room to find the absorbent materials they need.

Shipping docks

Freight vehicles

Plant floor

Maintenance areas

Trade Agreement (TAA) compliant kits

GSA Schedule Contracts are subject to the Trade Agreements Act (TAA), meaning all products listed on the GSA Schedule Contract must be manufactured or "substantially transformed" in a "designated country." The designated countries are comprised of:

- World Trade Organization government procurement agreement countries
- Free trade agreement countries
- Least developed countries and Caribbean basin countries

Spill Procedure Guide: What to do when a spill occurs

When a spill happens, time is of the essence to make sure quick and safe clean-up occurs. Here are some helpful hints to make sure you, your employees and the environment are protected.

1. Risk assessment

Evaluate the type of material spilled and identify the source. If you are NOT familiar with the liquid and its chemical properties, vacate the area and contact proper authorities.

2. Protective clothing

Wear the appropriate protective gear for the situation. If the source or the material is not identifiable, assume the worst.

3. Containment

Contain the liquid and seal drains.

4. Stop the source

Close valves, rotate punctured drums and plug leaks where it is possible and safe to do so.

5. Begin clean up

Use Brady SPC absorbents to absorb spilled liquids.

6. Contact authorities

Report the spill to proper legal authorities in your community. Be sure to fill out all necessary reports in accordance with local laws.

7. Disposal of used material

Absorbent materials take on the characteristics of whatever they absorb. Be sure to dispose of used absorbents and spilled liquids in accordance with local laws.

8. Decontaminate

Clean all tools and reusable materials properly before reuse.

9. Restock materials

Replace absorbent materials and safety equipment used in any clean-up operation.

10. Review contingency plans and procedures

Please note: Brady SPC spill kits are a stop-gap measure for minor spill clean-up. If a serious spill occurs, contact local authorities for direction and assistance for the problem. Due to the possible toxic and hazardous fluid absorbed, Brady does not recommend disposal procedures.

High-Visibility Absorbents

20-Gallon Lab Pack

- UN-approved water and chemical resistant polyethylene container with screw-top lid for medium response
- Absorbs up to 17 gallons per kit
Kit dimensions: 21 in. x 18 in.

Contents:

- 12 pads (15 in. x 19 in.)
- 3 disposal bags
- 3 SOCs (3 in. x 12 ft.)
- 1 pair goggles
- 2 pillows (18 in. x 18 in.)
- 1 pair nitrile gloves
- Emergency Response Guidebook

Large

Medium Spill Response: 30-Gallon Spill Kits

Looking for something a little larger? Look no further than the 30-gallon kit. Absorbing up to 36 gallons, these kits are perfect for medium-sized spills. Store throughout your facility — particularly in areas where fluid transfer is prevalent.

30-Gallon Spill Kit

- UN-approved water- and chemical-resistant polyethylene container with screw-top lid
- Kit refills are available for easy re-stocking after a spill
- Absorbs up to 29 gallons per kit
Kit dimensions: 21.125 in. x 28.5 in.

Contents:

- 25 pads (15 in. x 19 in.)
- 6 SOCs (3 in. x 12 ft.)
- 6 pillows (9 in. x 9 in.)
- 3 disposal bags
- 1 pair goggles
- 1 pair of nitrile gloves
- Emergency Response Guidebook

Large

Medium Spill Response: 55-Gallon Spill Kits

55-gallon spill kits are essential in any facility. Keep them near entrances and exits for emergency deployment to prevent facility spills from entering the environment.

Available with BRIGHTSORB™
High-Visibility Absorbents

55-Gallon Drum

- Lever-locked 55-gallon drum meets UN specifications and is ideal for medium spills
- Kit refills are available for easy re-stocking after a spill
- Absorbs up to 38 gallons per kit
- Kit dimensions: 24 in. x 37 in.
Wheeled kit dimensions: 23 in. Dia. x 37 in.

Contents:

- 50 pads (15 in. x 19 in.)
- 4 disposal bags
- Emergency Response Guidebook
- 4 SOCs (3 in. x 12 ft.)
- 1 pair goggles
- 8 pillows (18 in. x 18 in.)
- 1 pair nitrile gloves

Large Spill Response: 65-Gallon Spill Kits

If you require a larger spill kit but don't have a lot of space, the 65-gallon kit is the perfect solution. These kits have almost double the absorbents of a 55-gallon kit without doubling in size.

65-Gallon Spill Kit

- UN-approved water- and chemical-resistant polyethylene overpack drum with screw-top lid is reusable and meets DOT specifications
- Kit refills are available for easy re-stocking after a spill
- Absorbs up to 63 gallons per kit
- Kit dimensions: 31 in. x 33.5 in.
Wheeled kit dimensions: 31 in. x 42 in.

Contents:

- 100 pads (15 in. x 19 in.)
- 7 SOCs (3 in. x 12 ft.)
- 7 pillows (18 in. x 18 in.)
- 5 disposal bags
- 1 pair goggles
- 1 pair of nitrile gloves
- Emergency Response Guidebook

X-Large Spill Response: Mobile Spill Trucks

In the event of a substantial spill, keep your facility prepared. Mobile spill trucks are filled with all of the essentials you'll need for major spill clean-up.

Mobile Spill Truck - Large

- Wheel-mounted polyethylene bins are chemical and water resistant. Spill trucks provide the highest level of readiness
- Absorbs up to 169 gallons per kit.
- Kit dimensions: 47 in. x 34 in. x 43 in.

Contents of SKA-LT, SKH-LT and SKO-LT:

- 200 pads (15 in. x 19 in.)
- 24 SOC's (3 in. x 4 ft.)
- 12 SOC's (3 in. x 12 ft.)
- 8 pillows (17 in. x 19 in.)
- 15 disposal bags
- 1 pair goggles
- 3 pair nitrile gloves
- Emergency Response Guidebook

Contents of SKM-LT Marine Kit:

- 400 pads (15 in. x 19 in.)
- 4 booms (5 in. x 10 ft.)
- 1 sweep (19 in. x 100 ft.)
- 15 disposal bags
- 6 pairs of nitrile gloves
- 1 pair goggles
- Emergency Response Guidebook

Mobile Spill Truck - X-Large

- Mobile spill response kit in a water- and chemical-resistant large bin
- Absorbs up to 282 gallons per kit
- Kit dimensions: 57.5 in. x 40.5 in. x 47 in.

Contents of SKA-XLT, SKH-XLT and SKO-XLT:

- 250 pads (15 in. x 19 in.)
- 36 SOC's (3 in. x 4 ft.)
- 20 SOC's (3 in. x 12 ft.)
- 8 pillows (18 in. x 18 in.)
- 30 disposal bags
- 3 pairs of nitrile gloves
- 1 pair goggles
- Emergency Response Guidebook

Contents of SKM-XLT Marine Kit:

- 600 pads (15 in. x 19 in.)
- 8 booms (5 in. x 10 ft.)
- 1 sweeps (19 in. x 100 ft.)
- 15 disposal bags
- 6 pairs of nitrile gloves
- 1 pair goggles
- Emergency Response Guidebook

Facility Safety Products

Brady offers a complete line of products and solutions to keep your facility safe, productive and compliant. Products including cones, warning tapes and signs help to communicate important safety and facility messages.

Heavy-Duty Floor Stands

- Alert employees and visitors of potential floor hazards
- Made of heavy-duty polypropylene
- Wording appears on both panels

Catalog #	Legend	Height
104809	Wet Floor	24.5 in.
104810	Caution	24.5 in.
104811	Closed	24.5 in.
104808	Blank	24.5 in.

Reversible Floor Stands

- Alert employees and visitors of potential floor hazards
- Made of lightweight corrugated polypropylene material

Catalog #	Legend	Size
92280	Slippery when wet/wet floor	12 in. x 20 in. (closed)

Traffic Cones and Snap-On Signs

- Flexible, durable warning cone in a high visibility fluorescent orange color
- Plastic snap-on signs are designed to fit on top of traffic cone like a paperclip

Catalog #	Description
80111	18 in. Orange vinyl cone
80118	10.5 in. x 12.75 in. black on orange wet floor snap-on sign

Reinforced Barricade Tape

- Provides fast, on-the-spot warning
- 250 lbs tensile strength

Catalog #	Legend	Size	Qty.
91100	CAUTION	3 in. x 500 ft.	1 roll
91102	CAUTION DO NOT ENTER	3 in. x 500 ft.	1 roll
91104		3 in. x 500 ft.	1 roll

BradyLink Warning Posts

- Non-conductive, non-rusting, fillable domed base
- Post dimension: 3 in. dia. x 41 in. post, 16 in. base

Catalog #	Description	Color
92116	Black large post	Black
92117	White large post	White
92118	Yellow large post	Yellow

BradyLink Warning Chain

- Polyethylene chain designed to prevent kinking
- Chain links used to permanently attach or repair lengths of chain

Catalog #	Description
78241	100 ft. Orange chain
78239	100 ft. White chain
78238	100 ft. Yellow chain
78246	2 in. Chain links (36/package)

In an effort to reduce shipping costs for our customers, pallet quantities may vary.

DISCLAIMER: The above properties are "nominal" values used for process control when the product is produced and/or inspected. Performance "nominals" may vary depending upon the specific application, and/or the environment being applied, stored, or shipped. The "absorbency" spec and "SPCTM004" test method are based on the protocol of ASTM F726, using SAE20 non-detergent as the oil type, medium viscosity.

In an effort to reduce shipping costs for our customers, pallet quantities may vary.

DISCLAIMER: The above properties are "nominal" values used for process control when the product is produced and/or inspected. Performance "nominals" may vary depending upon the specific application, and/or the environment being applied, stored, or shipped. The "absorbency" spec and "SPCTM004" test method are based on the protocol of ASTM F726, using SAE20 non-detergent as the oil type, medium viscosity.

In an effort to reduce shipping costs for our customers, pallet quantities may vary.

DISCLAIMER: The above properties are "nominal" values used for process control when the product is produced and/or inspected. Performance "nominals" may vary depending upon the specific application, and/or the environment being applied, stored, or shipped. The "absorbency" spec and "SPCTM004" test method are based on the protocol of ASTM F726, using SAE20 non-detergent as the oil type, medium viscosity.

Product Index

20-Gallon Lab Pack.....	104
20-Gallon Rescue Spill Kit.....	104
30-Gallon Spill Kit.....	105
55-Gallon Drum.....	106
6.5-Gallon Spill Bucket.....	101
65-Gallon Mixed Drum.....	107
95-Gallon Overpack.....	108

A

Absorbent Center.....	93
Acid Neutralizer.....	86
Acid Neutralizing Kit.....	102
ALLWIK Universal SOC.....	59
Attack Pak Spill Kit.....	97

B

Barrier Spill Mat.....	67
Base Neutralizer.....	86
Base Neutralizer Kit.....	102
BASIC Chemical Pad.....	53
BASIC Chemical Roll.....	53
BASIC Oil-Only Pad.....	41
BASIC Oil-Only Roll.....	41
BASIC Spill Kit.....	97
BASIC Universal Pad.....	23
BASIC Universal Roll.....	23
BASIC Universal SOC.....	59
Battery Acid Spill Kit.....	102
BattleMat Universal Roll.....	24
Berms.....	92
Bodily Fluid Spill Kit.....	101
Booms.....	75
BRIGHTSORB Barrier-Backed Mat.....	68
BRIGHTSORB Chemical Pad.....	51
BRIGHTSORB Chemical Pillow.....	61
BRIGHTSORB Chemical Roll.....	51
BRIGHTSORB Chemical SOC.....	60
BRIGHTSORB Safety Pad.....	79
BRIGHTSORB Safety Pillow.....	81
BRIGHTSORB Safety Roll.....	79
BRIGHTSORB Safety SOC.....	81
BRIGHTSORB Spill Kit.....	81

C

Chemical Absorbency.....	47
Chemical Pads and Rolls.....	49
Chemical Pillows.....	61
Chemical SOC.....	60
Cobra Coil Universal SOC.....	59
Containment Boom.....	76

D

Drag Net.....	76
Drain Guard.....	89
Drain Plug.....	89
Drip Pad.....	90
Drip Pan.....	90
Drum Covers.....	62

E

Economy Spill Kit.....	98
Emergency Response Kit.....	98
Emergency Spill Sak.....	98
ENV Oil-Only Pad.....	43
ENV Oil-Only Roll.....	43

F

Formaldehyde Spill Kit.....	103
-----------------------------	-----

G

GP Universal Pad.....	21
GP Universal Roll.....	21
Granular.....	83

H

HT Barrier-backed Mat.....	69
HT Universal Roll.....	25

M

Marine Boom.....	75
Marine Pillow.....	76
Marine Sweep.....	76
Mats.....	63
MAXX Pack.....	97
Mercury Spill Kit.....	103
Mobile Spill Kaddie.....	99
Mobile Spill Truck.....	109
MRO Plus Universal Pad.....	19
MRO Plus Universal Roll.....	19

N

Neutralizers.....	86
-------------------	----

O

Oil Net.....	76
Oil Plus Pad.....	37
Oil Plus Roll.....	37
Oil-Only Absorbency.....	33
Oil-Only Drum Cover.....	62
Oil-Only Pads and Rolls.....	35
Oil-Only Pillow.....	61
Oil-Only SOC.....	60

P

Pillows.....	61
Poly-Edge Mountable Spill Kit.....	100

R

Rag Rug Mat.....	72
Re-Form Granular.....	86
Re-Form Oil-Only Pad.....	46
Re-Form Oil-Only SOC.....	60

Re-Form Universal Pad.....	29
Re-Form Universal Roll.....	30
Re-Form Universal SOC.....	59
Rugs.....	63

S

Safety Absorbents.....	77
SIR Sorbent Industrial Rug.....	71
Slikstopper.....	89
